BACKGROUND

The Nevada Office of the Military (formerly Department of Public Safety), Division of Emergency Management has historically funded the Washoe County Sheriff's Office for the purchase of forensic workstations, software and licenses for the Sheriff's Office Cyber Crimes Unit that will enhance the Cyber Unit's ability to investigate cyber security breaches resulting in criminal behavior.

The Washoe County Sheriff's Office dedicates personnel to investigate cyber related matters and partners with federal and state law enforcement combining our resources and experience. Forensic Workstations allow massive amounts of data to be processed in an acceptable time frame in conjunction with utilizing hardware components specifically designed to protect the integrity of the systems being analyzed. This is critical to ensure the work can be duplicated and to assist in the prosecution of any potential criminal cases. This workstation will benefit the State's capabilities because it will allow us to

maintain our base level of preparedness for homeland security and emergency management.

Reason for retroactive submittal: This grant is re-obligated monies from FFY2018 funding. This item was submitted to the first available BCC meeting once paperwork was received and processed.
