SCOPE OF WORK

SERVICES TO BE PERFORMED:

Contractor shall perform in a competent manner the Scope of Work as follows:

The Department of Alternative Sentencing (DAS) is launching a community-based diversion treatment program known as Support in Treatment, Accountability, and Recovery (STAR). The STAR program connects its participants (individuals on probation supervision) with community-based counseling and support services with the primary goals of keeping individuals out of incarceration and a reducing recidivism rates amongst this population. The STAR program will be partnering with several community providers, including Northern Nevada Hopes (HOPES), to provide the services needed to meet these goals. As part of this agreement, HOPES has agreed to recruit, hire, and train one (1) full-time Peer Support Specialist (PSS) -OR- two (2) part-time Peer Support Specialists to be designated to work with STAR program participants. Funding for these contracted positions will be provided through the STAR program sub-award in an amount not to exceed \$40,333.00 for the 11-month grant period. HOPES currently hires and trains Peers to work in their behavioral health programs and has the infrastructure in place to support this important piece of the STAR Program. The Peer Support Specialist position serves an important role in the program's design. A Peer acts as both coach and mentor to program participants. This is done by utilizing lived experience with addiction, and more importantly, long-term recovery to establish a deeper level of rapport and trust with the clientele that the average helping professional might not otherwise be able to achieve. To carry out their duties, a Peer Support Specialist must have a significant understanding of the recovery process, crisis intervention techniques, as well as intimate knowledge of providers and services available to program participants in the community. HOPES will ensure that Peers hired for this/these positions will have the necessary experience, skills, and training to meet these requirements. In addition to the PSS component, participants in the STAR Program will also have access to additional services through HOPES including, but not limited to: medication-assisted treatment for addiction, intensive outpatient programming, individual therapy, transitional housing, and case management. Access to these services will be granted on a case-by-case basis and will be clinically driven based on client need and program availability.
