

Conditions of Approval

Tentative Subdivision Map Case Number TM06-001

The project approved under Tentative Subdivision Map Case Number TM06-001 shall be carried out in accordance with the conditions of approval granted by the Board of County Commission on April 28, 2020. Conditions of approval are requirements placed on a permit or development by each reviewing agency. These conditions of approval may require submittal of documents, applications, fees, inspections, amendments to plans, and more. These conditions do not relieve the applicant of the obligation to obtain any other approvals and licenses from relevant authorities required under any other act.

Unless otherwise specified, all conditions related to the approval of this tentative subdivision map shall be met or financial assurance must be provided to satisfy the conditions of approval prior to the recordation of a final parcel map. The agency responsible for determining compliance with a specific condition shall determine whether the condition must be fully completed or whether the applicant shall be offered the option of providing financial assurance. All agreements, easements, or other documentation required by these conditions shall have a copy filed with the County Engineer and the Planning and Building Division.

Compliance with the conditions of approval related to this tentative subdivision map is the responsibility of the applicant, his/her successor in interest, and all owners, assignees, and occupants of the property and their successors in interest. Failure to comply with any of the conditions imposed in the approval of the tentative parcel map may result in the institution of revocation procedures.

Washoe County reserves the right to review and revise the conditions of approval related to this tentative subdivision map should it be determined that a subsequent license or permit issued by Washoe County violates the intent of this approval.

For the purpose of conditions imposed by Washoe County, “may” is permissive and “shall” or “must” is mandatory.

Conditions of approval are usually complied with at different stages of the proposed project. Those stages are typically:

- Prior to recordation of a final map.
- Prior to obtaining a final inspection and/or a certificate of occupancy.
- Prior to the issuance of a business license or other permits/licenses.
- Some “conditions of approval” are referred to as “operational conditions.” These conditions must be continually complied with for the life of the project.

The Washoe County Commission oversees many of the reviewing agencies/departments with the exception of the following agencies.

- **The DISTRICT BOARD OF HEALTH, through the Washoe County Health District, has jurisdiction over all public health matters in the Health District. Any conditions set by the Health District must be appealed to the District Board of Health.**

- **The REGIONAL TRANSPORTATION COMMISSION (RTC) is directed and governed by its own Board. Conditions recommended by the RTC may be required, at the discretion of Washoe County.**

STANDARD CONSIDERATIONS FOR SUBDIVISIONS Nevada Revised Statutes 278.349

Pursuant to NRS 278.349, when contemplating action on a tentative subdivision map, the governing body, or the planning commission if it is authorized to take final action on a tentative map, shall consider:

- (a) Environmental and health laws and regulations concerning water and air pollution, the disposal of solid waste, facilities to supply water, community or public sewage disposal and, where applicable, individual systems for sewage disposal;
- (b) The availability of water which meets applicable health standards and is sufficient for the reasonably foreseeable needs of the subdivision;
- (c) The availability and accessibility of utilities;
- (d) The availability and accessibility of public services such as schools, police and fire protection, transportation, recreation and parks;
- (e) Conformity with the zoning ordinances and master plan, except that if any existing zoning ordinance is inconsistent with the master plan, the zoning ordinance takes precedence;
- (f) General conformity with the governing body's master plan of streets and highways;
- (g) The effect of the proposed subdivision on existing public streets and the need for new streets and highways to serve the subdivision;
- (h) Physical characteristics of the land such as floodplain, slope and soil;
- (i) The recommendations and comments of those entities reviewing the tentative map pursuant to NRS 278.330 and 278.335; and
- (j) The availability and accessibility of fire protection, including, but not limited to, the availability and accessibility of water and services for the prevention and containment of fires, including fires in wild lands.

FOLLOWING ARE CONDITIONS OF APPROVAL REQUIRED BY THE REVIEWING AGENCIES. EACH CONDITION MUST BE MET TO THE SATISFACTION OF THE ISSUING AGENCY.

Washoe County Planning and Building Division

1. The following conditions are requirements of the Planning and Building Division, which shall be responsible for determining compliance with these conditions.

Contact: Julee Olander, Planner, 775.328.3627, jolander@washoecounty.us

- a. The applicant shall demonstrate substantial conformance to the plans approved as part of this tentative subdivision map.
- b. The subdivision shall be in substantial conformance with the provisions of Washoe County Development Code Article 604, Design Requirements, and Article 608, Tentative Subdivision Maps.
- c. Final maps and final construction drawings shall comply with all applicable statutes, ordinances, rules, regulations and policies in effect at the time of submittal of the tentative

map or, if requested by the developer and approved by the applicable agency, those in effect at the time of approval of the final map.

- d. In accordance with NRS 278.360, the sub-divider shall present to Washoe County a final map, prepared in accordance with the tentative map, for the entire area for which a tentative map has been approved, or one of a series of final maps, each covering a portion of the approved tentative map, within four years after the date of approval of the tentative map or within one year of the date of approval for subsequent final maps. On subsequent final maps, that date may be extended by two years if the extension request is received prior to the expiration date.
- e. Final maps shall be in substantial compliance with all plans and documents submitted with and made part of this tentative map request, as may be amended by action of the final approving authority.
- f. All final maps shall contain the applicable portions of the following jurat:

THE TENTATIVE MAP FOR **TM case number for map name** WAS APPROVED BY THE WASHOE COUNTY PLANNING COMMISSION ON **DATE**.

THIS FINAL MAP, **MAP NAME AND UNIT/PHASE #**, MEETS ALL APPLICABLE STATUTES, ORDINANCES AND CODE PROVISIONS, IS IN SUBSTANTIAL CONFORMANCE WITH THE TENTATIVE MAP, AND ALL CONDITIONS HAVE BEEN MET.

[Omit the following paragraph if this is the first and last (only) final map.]

THE NEXT FINAL MAP FOR **<TM CASE NUMBER>** MUST BE APPROVED AND ACCEPTED FOR RECORDATION BY THE PLANNING AND BUILDING DIRECTOR ON OR BEFORE THE EXPIRATION DATE, THE _____ DAY OF _____, 20____, OR AN EXTENSION OF TIME FOR THE TENTATIVE MAP MUST BE APPROVED BY THE WASHOE COUNTY PLANNING COMMISSION ON OR BEFORE SAID DATE.

THIS FINAL MAP IS APPROVED AND ACCEPTED FOR RECORDATION **THIS _____ DAY OF _____, 20____** BY THE PLANNING AND BUILDING DIRECTOR. THE OFFER OF DEDICATION FOR **STREETS, SEWERS, ETC.** IS REJECTED AT THIS TIME, BUT WILL REMAIN OPEN IN ACCORDANCE WITH NRS CHAPTER 278.

MOJRA HAUENSTEIN, DIRECTOR
PLANNING AND BUILDING

Jurat for ALL SUBSEQUENT FINAL MAPS

THE TENTATIVE MAP for **<TM CASE NUMBER>** APPROVED **<denied>** BY THE WASHOE COUNTY PLANNING COMMISSION ON **<date>**. **[If the TM had been appealed to the BCC --- Add:]** THE WASHOE COUNTY COMMISSION APPROVED THE TENTATIVE MAP ON APPEAL ON **<date>**.

THE FIRST FINAL MAP FOR THIS TENTATIVE MAP WAS APPROVED AND ACCEPTED FOR RECORDATION ON *<date of Planning and Building Director's signature on first final map>*. [Omit the following if *second map*.] THE MOST RECENTLY RECORDED FINAL MAP, *<subdivision name and prior unit/phase #>* FOR THIS TENTATIVE MAP WAS APPROVED AND ACCEPTED FOR RECORDATION ON *<date of Planning and Building Director's signature on most recent final map>* [If *an extension has been granted after that date – add the following*]: A TWO YEAR EXTENSION OF TIME FOR THE TENTATIVE MAP WAS APPROVED BY THE WASHOE COUNTY PLANNING COMMISSION ON *<date of last Planning Commission action to extend the tentative map>*.

THIS FINAL MAP, *<subdivision name and unit/phase #>*, MEETS ALL APPLICABLE STATUTES, ORDINANCES AND CODE PROVISIONS; IS IN SUBSTANTIAL CONFORMANCE WITH THE TENTATIVE MAP; AND ALL CONDITIONS HAVE BEEN MET.

[Omit the following paragraph if this is the last final map.]

THE NEXT FINAL MAP FOR *<TM CASE NUMBER>* MUST BE APPROVED AND ACCEPTED FOR RECORDATION BY THE PLANNING AND BUILDING DIRECTOR ON OR BEFORE THE EXPIRATION DATE, THE ____ DAY OF _____, 20____, *<add two years to the current expiration date unless that date is more than two years away>* OR AN EXTENSION OF TIME FOR THE TENTATIVE MAP MUST BE APPROVED BY THE WASHOE COUNTY PLANNING COMMISSION ON OR BEFORE SAID DATE.

<Insert Merger and Re-subdivision option as applicable>

THIS FINAL MAP IS APPROVED AND ACCEPTED FOR RECORDATION THIS ____ DAY OF _____, 20____ BY THE WASHOE COUNTY PLANNING AND BUILDING DIRECTOR. THE OFFER OF DEDICATION FOR *<streets, sewers>* IS REJECTED AT THIS TIME, BUT WILL REMAIN OPEN IN ACCORDANCE WITH NRS CHAPTER 278.

MOJRA HAUENSTEIN, DIRECTOR,
PLANNING AND BUILDING DIVISION

- g. A note shall be placed on all grading plans and construction drawings stating:

NOTE

Should any cairn or grave of a Native American be discovered during site development, work shall temporarily be halted at the specific site and the Sheriff's Office as well as the State Historic Preservation Office of the Department of Conservation and Natural Resources shall be immediately notified per NRS 383.170.

- h. The final map shall designate faults that have been active during the Holocene epoch of geological time, and the final map shall contain the following note:

NOTE

No habitable structures shall be located on a fault that has been active during the Holocene epoch of geological time.

- i. The developer shall be required to participate in any applicable General Improvement District or Special Assessment District formed by Washoe County.
- j. The developer shall provide written approval from the U.S. Postal Service concerning the installation and type of mail delivery facilities. The system, other than individual mailboxes, must be shown on the project construction plans and installed as part of the on-site improvements.
- k. The developer and all successors shall direct any potential purchaser of the site to meet with the Planning and Building Division to review conditions of approval prior to the final sale of the site. Any subsequent purchasers of the site shall notify the Planning and Building Division of the name, address, telephone number and contact person of the new purchaser within thirty (30) days of the final sale.
- l. The minimum side yard setback for all dwellings within this subdivision shall be eight feet, the minimum front and rear yard setbacks shall be twenty feet, with the exception of the approved town homes which shall be located within a $\pm 1,102$ square-foot pad. Compliance with this condition shall be determined by the Department of Community Services during building permit review.
- m. Construction hours shall be limited to 7AM to 6PM, Monday through Saturday only. Machinery and construction vehicles shall not be started, or arrive on site, prior to 7AM, with the exception of concrete pours. Interior finish work, within enclosed structures may proceed at all hours, provided that there are no noise emissions audible at any subdivision property line, developed with a residence. Compliance with this condition shall be determined by the Department of Community Services.
- n. Lots adjacent to Pagni Lane shall match the size of adjacent parcels to the north (1 acre minimum). Compliance with this condition shall be determined by the Department of Community Services.
- o. Conditions, covenants, and restrictions (CC&Rs), including any supplemental CC&Rs, shall be submitted to Planning and Building staff for review and subsequent forwarding to the District Attorney for review and approval. The final CC&Rs shall be signed and notarized by the owner(s) and submitted to Planning and Building with the recordation fee prior to the recordation of the final map. The CC&Rs shall require all phases and units of the subdivision approved under this tentative map to be subject to the same CC&Rs with the exception that individual developments may have additional specific CC&R's. Washoe County shall be made a party to the applicable provisions of the CC&Rs to the satisfaction of the District Attorney's Office. Said CC&Rs shall specifically address the potential for liens against the properties and the individual property owners' responsibilities for the funding of maintenance, replacement, and perpetuation of the following items, at a minimum:
 1. Maintenance of public access easements, common areas, and common open spaces. Provisions shall be made to monitor and maintain, for a period of three (3) years regardless of ownership, a maintenance plan for the common open space area. The maintenance plan for the common open space area shall, as a minimum, address the following:
 - a. Vegetation management;
 - b. Watershed management;

- c. Debris and litter removal;
 - d. Fire access and suppression; and
 - e. Maintenance of public access and/or maintenance of limitations to public access.
2. All drainage facilities and roadways not maintained by Washoe County shall be privately maintained and perpetually funded by the homeowner's association.
 3. All open space identified as common area on the final map shall be privately maintained and perpetually funded by the homeowner's association. The deed to the open space and common area shall reflect perpetual dedication for that purpose. The maintenance of the common areas and related improvements shall be addressed in the CC&Rs to the satisfaction of the District Attorney's Office.
 4. The project and adjacent to undeveloped land shall maintain a fire fuel break of a minimum 30 feet in width until such time as the adjacent land is developed.
 5. Locating habitable structures on potentially active (Holocene) fault lines, whether noted on the recorded map or disclosed during site preparation, is prohibited.
 6. All outdoor lighting on buildings and streets within the subdivision shall be down-shielded.
 7. No motorized vehicles shall be allowed on the platted common area with the exception of vehicles required to perform maintenance work and/or emergency vehicles.
 8. Washoe County will not assume responsibility for maintenance of the private street system of the development nor will Washoe County accept the streets for dedication to Washoe County unless the streets meet those Washoe County standards in effect at the time of offer for dedication.
 9. Mandatory solid waste collection.
 10. Fence material (if any), height, and location limitations, and re-fencing standards. Replacement fence must be compatible in materials, finish and location of existing fence.
 11. Overflight of aircraft by the District Health Department for Vector Control activities.
 12. Problems associated with insects breeding in wetlands.
 13. Maintenance of detention basins, open drainage ways and diversion channels to District Health Vector Control Standards.
- p. The trail system and the ±440 acres of common open space shown on the tentative map shall be shown as "Common Open Space" and, as offered in the public hearing of the project by the owner's representative, offered for dedication as Open Space (OS) in perpetuity to Washoe County. The deed shall be presented with the CC&Rs for review by the Planning and Building Division staff and the District Attorney.
 - q. The applicant shall install signage prohibiting motorized vehicle access at the entrance to all open space offered for dedication to Washoe County areas, and at all trail access points, signage shall be included in the construction drawings. Compliance with this condition shall be determined by the Department of Community Services prior to the approval of a final map.
 - r. A certification letter or series of letters by a landscape architect registered in the State of Nevada shall be submitted to the Department of Community Services. The letter(s) shall certify that all applicable landscaping provisions of Articles 408, 410 and 412 of the

Development Code have been met. Any landscaping plans and the letter shall be wet-stamped. The letter shall indicate any provisions of the code that the Director of Planning and Building has waived.

- s. Prior to any ground disturbing activity or finalization of a final map, the developer shall submit a landscaping/architectural design plan to the Department of Community Services for review and approval by the Design Review Committee. Said plan shall address, but not be limited to:
- type and color of building materials,
 - general architectural design of proposed dwellings,
 - fencing,
 - landscaping material (if plant material: type, size at time of planting, maturation size at full growth, period of time between planting and full growth),
 - common area landscaping location,
 - entry landscaping,
 - landscaping irrigation system,
 - entry signage,
 - common area signage,
 - financial assurances that landscaping will be planted and maintained,
 - neo-traditional design elements,
 - town home design, including roof design, parking garage configuration, and exterior building design and articulation,
 - playground/park design and amenities.
- t. The applicant shall submit plans for the neo-traditional portion of the project that include the use of rock or brick elements in the construction of each home, no front yard fencing, garages set back at least half of the depth of the house from the front of the homes or detached in the rear yard, a landscaped strip, with trees between the back of the curb and the sidewalk, a variety of driveway types and materials such as split (Pasadena) driveways, the use of paving stones and bricks, as well as traditional concrete driveways. Each home within this area shall incorporate at least three of the design elements listed above. This provision shall be included in the CC&Rs for the neo- traditional portion of the subdivision.
- u. Access to the proposed trail system shall be provided to the Sunrise Estates subdivision near the intersection of Pagni Lane and Connie Way. Compliance with this condition shall be determined by the Director of Planning and Building.
- v. All retaining walls and all cuts into stable rock material that do not require stabilization by means of retaining walls shall be treated with "Permeon" simulated desert varnish or an equivalent rock stain product to ensure that all newly exposed rock surfaces and all rockery walls match the color of the surrounding hillside as closely as practicable. Final construction drawings shall include a note indicating compliance with this condition. Compliance with this condition shall be determined by the Department of Community Services prior to the final inspection of the grading and rockery walls by the Planning and Building Division.

- w. Financial assurances for completion of all landscaping, and improvement of all pedestrian/equestrian paths shall be included in the Subdivision Improvement Agreement. Compliance with this condition shall be determined by the Department of Community Services prior to the approval of a final map.

Washoe County Engineering and Capital Projects

2. The following conditions are requirements of the Engineering and Capital Projects, which shall be responsible for determining compliance with these conditions.

Contact: Leo Vesely, P.E. 775.328.2041, lveseley@washoecounty.us

- a. Prior to acceptance of public improvements and release of any financial assurances, the developer shall furnish to the water and sewer provider(s) and Engineering Division a complete set of reproducible as-built construction drawings prepared by a civil engineer registered in the State of Nevada.
- b. Any existing easements or utilities that conflict with the development shall be relocated, quitclaimed, and/or abandoned, as appropriate.
- c. Any easement documents recorded for the project shall include an exhibit map that shows the location and limits of the easement in relationship to the project.
- d. All existing overhead utility lines shall be placed underground, except electric transmission lines greater than 100 kilovolts, which can remain above ground.
- e. A complete set of construction improvement drawings, including an onsite grading plan, shall be submitted to the County Engineer for approval prior to finalization of any portion of the tentative map. Grading shall comply with best management practices (BMPs) and shall include detailed plans for grading and drainage for lots, project roadways, erosion control (including BMP locations and installation details), slope stabilization and mosquito abatement. A conceptual grading and drainage scheme shall be indicated for each lot on the grading plan. If drainage from one lot to another is proposed, then appropriate drainage easements shall be provided. Disposal of any excavated material onsite shall be indicated on the grading plans.
- f. Prior to ground-disturbing activity, a proposed Construction Traffic Haul Route Plan shall be submitted to the Engineering Division for review and approval. Any existing or proposed roads that will be used as construction haul routes and are not designated truck routes must be evaluated by a geotechnical study to determine the existing structural section and its load capacity. If the pavement section is inadequate to support the proposed construction loadings, the roadway must be redesigned or reconstructed as needed to provide a 20-year design life in accordance with the AASHTO Interim Guide for Flexible Pavement.
- g. A 10 foot Public Utilities Easement and a 10 foot easement for traffic control signage and plowed snow storage shall be granted adjacent to all street rights-of-way.
- h. Prior to recordation of the affected final map, an ASTM E1527-13 Phase I Environmental Site Assessment shall be submitted for all parcels or right-of-way dedicated to Washoe County.
- i. A design level geotechnical investigation with fault study shall be provided with the submittal of each final map.

DRAINAGE (COUNTY CODE 110.416, 110.420, and 110.421)

Contact Information: Leo Vesely, P.E. (775) 328-2041

- j. The conditional approval of this tentative map shall not be construed as final approval of the drainage facilities shown on the tentative map. Final approval of the drainage facilities

- will occur during the final map review and will be based upon the final hydrology report. The referenced previous drainage reports are not accepted at this time.
- k. Prior to finalization of the first final map, a master hydrology/hydraulic report and a master storm drainage plan shall be submitted to the County Engineer for approval.
 - l. Prior to finalization of any portion of the tentative map, a final, detailed hydrology/hydraulic report for that unit shall be submitted to the County Engineer. All storm drainage improvements necessary to serve the project shall be designed and constructed to County standards and specifications and/or financial assurances in an appropriate form and amount shall be provided.
 - m. Standard reinforced concrete headwalls or other approved alternatives shall be placed on the inlet and outlet of all drainage structures, and grouted rock riprap shall be used to prevent erosion at the inlets and outlets of all culverts to the satisfaction of the Engineering Division.
 - n. The developer shall provide pretreatment for petrochemicals and silt for all storm drainage leaving the site to the satisfaction of the Engineering Division.
 - o. The Truckee Meadows Regional Stormwater Quality Management Program Construction Permit Submittal Checklist and Inspection Fee shall be submitted with each final map.
 - p. In medians with irrigated landscaping adjacent to the curb, a sub-drain system shall be installed a minimum of one foot behind the back face of curb to intercept drainage from the landscaping. The system shall be tied to the storm drain system or an acceptable alternative drainage system.
 - q. Drainage swales that drain more than two lots are not allowed to flow over the curb into the street; these flows shall be intercepted by an acceptable storm drain inlet and routed into the storm drain system.
 - r. A note on the final map shall indicate that all drainage facilities not maintained by Washoe County shall be privately maintained and perpetually funded by a homeowner's association. As an alternative to a homeowner's association, the developer may request the establishment of a County Utility Service Area under which fees would be paid for maintenance of the proposed storm drainage detention facility. The fee amount will be based on the additional service above that normally provided by the County to maintain new stormwater facilities dedicated by the developer (i.e., curb and gutter, drop inlets and piping). The County Engineer shall determine compliance with this condition. The maintenance and funding of these drainage facilities shall also be addressed in the CC&Rs to the satisfaction of the District Attorney's Office.
 - s. The maximum permissible flow velocity (that which does not cause scour) shall be determined for all proposed channels and open ditches. The determination shall be based on a geotechnical analysis of the channel soil, proposed channel lining and channel cross section, and it shall be in accordance with acceptable engineering publications/calculations. Appropriate linings shall be provided for all proposed channels and open ditches such that the 100-year flows do not exceed the maximum permissible flow velocity.
 - t. All slopes steeper than 3:1 shall be mechanically stabilized to control erosion. As an alternative to riprap, an engineered solution (geofabric, etc.) may be acceptable.
 - u. A note on all affected final maps shall state that the owner, buyers, assigns or interest holders of any lots hereon hereby agree that all existing irrigation flows crossing these parcels shall be perpetuated. Any legal rights to water from the ditches crossing this property shall be honored and the right of access for maintenance and operation will not be denied to valid holders of those rights.

- v. Maintenance access and drainage easements shall be provided for all existing and proposed drainage facilities.
- w. Drainage easements shall be provided across individual lots on the official map for all storm runoff that crosses more than one lot.
- x. Common Area drainage onto residential lots shall be intercepted and routed to appropriate storm drainage facilities.
- y. Maintenance access and drainage easements shall be provided for all existing and proposed drainage facilities. All drainage facilities located within Common Area shall be constructed with an adjoining minimum 12' wide gravel access road. Maintenance access road shall be provided to the bottom of proposed detention basins as well as over County owned and maintained storm drainage facilities.

TRAFFIC AND ROADWAY (COUNTY CODE 110.436)

Contact Information: Leo Vesely, (775) 328-2041 or Mitch Fink, (775) 328-2050

- z. All roadway improvements necessary to serve the project shall be designed and constructed to County standards and specifications and/or financial assurances in an appropriate form and amount shall be provided.
 - aa. Street names shall be reviewed and approved by the Regional Street Naming Coordinator.
 - bb. Proposed landscaping and/or fencing along street rights-of-way and within median islands shall be designed to meet American Association of State Highway and Transportation Officials (AASHTO) sight distances and safety guidelines. No tree shall overhang the curb line of any public street.
 - cc. A note on each affected final map shall state that no direct access from individual lots shall be allowed onto U.S. Highway 395. The County Engineer shall determine compliance with this condition. This note shall also be included in the CC&Rs to the satisfaction of the District Attorney's Office.
 - dd. For any utilities placed in existing County streets, the streets shall be repaired to the satisfaction of the County Engineer. At a minimum, this will require full depth removal and replacement of asphalt for half the street width, or replacement with a 2" asphalt overlay for half the street width. Type II slurry seal is required for the entire street width with either option. Full width street improvements may be required if the proposed utility location is too close to the centerline of the existing street.
 - ee. Streetlights shall be constructed to Washoe County standards at locations to be determined at the final design stage.
 - ff. AASHTO clear zones shall be determined for all streets adjacent to retaining walls or slopes steeper than 3:1. If a recoverable or traversable clear zone cannot be provided, an analysis to determine if barriers are warranted shall be submitted for approval.
 - gg. All retaining walls that are adjacent to, provide support for or retain soil from the County right-of-way shall be constructed of reinforced masonry block or reinforced concrete and designed by an engineer licensed in the State of Nevada.
 - hh. No retaining walls that retain soil from the County right-of-way or private right-of-way shall be located within a plowed snow storage easement.
 - ii. The portion of the project that contains the government tract lots shall be reconfigured to discourage through traffic between the northern and southern divisions of the project.
 - jj. The government patent access and utility easements within the government tract lots shall be abandoned via the Washoe County abandonment process prior to recording a final map in any area containing the government lots.

- kk. With the first unit, a detailed traffic report shall be prepared by a registered engineer and shall address traffic flow through adjacent neighborhoods, traffic flow to schools, acceleration/deceleration lanes, storage lanes, and access control.
- ll. Streets with an ADT of 2,000 or more shall be constructed to collector standards and shall not have residential driveway access. If circular driveways are used, the County Engineer may allow some lots to have residential driveway access in areas where the ADT exceeds 2,000.
- mm. The subdivision streets will be evaluated by Washoe County to determine if traffic calming is warranted. The spacing and type of traffic calming devices shall be determined at the time of final design.
- nn. Prior to the submittal of a final map, which includes Monkeyflower Drive, a traffic study shall be performed to determine if Monkeyflower Drive shall be constructed as a collector street or as a local residential street.
- oo. In accordance with the 2040 Regional Transportation Plan the paved portion of U.S. 395 which fronts the project shall be widened where necessary within NDOT right-of-way to produce a five-foot-wide attached bike lane, excluding signage and bike lane symbols, subject to NDOT approval and acceptance. The applicant shall dedicate additional right-of-way if necessary.
- pp. Twenty-foot-wide driveway access easements shall be granted to parcels 046-090-27 and 046-090-22 to allow for the development of uses permitted in the General Rural (GR) land use designation.
- qq. The intersections of Eastlake Boulevard and U.S. 395 and Pagni Lane and US 395 will be evaluated and the appropriate traffic mitigation device will be installed by the developer, with approval of NDOT. The installations will occur when the intersections meets warrants or are approved by NDOT, whichever event occurs first, if final maps remain to be recorded on the Sierra Reflections tentative map.
- rr. The High T intersection improvements at Pagni Lane and US 395 shall be completed prior to the opening of traffic onto St. James Parkway.
- ss. Sidewalks shall be constructed on both sides of the street and shall meet ADA requirements.
- tt. A 20' minimum setback is required between the back of the sidewalk and the front of the garage.

3. Washoe County Engineering Division – Utilities (County Code 422 & Sewer Ordinance)

The following utilities conditions are requirements of the Washoe County Engineering Division, which shall be responsible for determining compliance with these conditions.

Contact Information: Tim Simpson, P.E. (775) 954-4648

- a. The applicant shall conform to all conditions imposed by intergovernmental agreements required to provide sewer service to the subject project, and, if required, be a party to any such agreements.
- b. All fees shall be paid in accordance with all applicable ordinances adopted by Washoe County's Board of County Commissioners prior to the approval of each final map.
- c. Improvement plans shall be submitted and approved by the Engineering Division prior to approval of the final map. The design plans shall be in compliance with Washoe County Design Standards and be designed by a Professional Engineer licensed to practice in the State of Nevada.

- d. The applicant shall submit an electronic copy of the street and lot layout for each final map at initial submittal time. The files must be in a format acceptable to Washoe County.
- e. The applicant shall construct and/or provide the financial assurance for the construction of any on-site and off-site sanitary sewer collection systems prior to signature on each final map. The financial assurance must be in a form and amount acceptable to the Engineering Division.
- f. Approved improvement plans shall be used for the construction of on-site and off-site sanitary sewer collection system. The applicant shall be responsible to pay necessary inspection costs related to installation of the sanitary sewer.
- g. The sanitary sewer collection system must be offered for dedication to Washoe County along with the recordation of each final map.
- h. Easements and real property for all sanitary sewer collection systems and appurtenances shall be in accordance with Washoe County Design Standards and offered for dedication to Washoe County along with the recordation of each final map.
- i. Prior to the review of improvement plans, applicant shall submit an engineering analysis justifying the necessity of a sewer lift station as opposed to constructing gravity sewer service to the property.
- j. Any non-potable water used within this development shall require the applicant to prepare an update to the Washoe County South Truckee Meadows Effluent Management Plan and obtain any and all necessary permits with the State of Nevada.
- k. A master sanitary sewer report for the entire tentative map shall be prepared and submitted by the applicant's engineer at the time of the initial submittal for the first final map which addresses:
 - i. The estimated sewage flows generated by this project,
 - ii. Projected sewage flows from potential or existing development within tributary areas,
 - iii. The impact on capacity of existing infrastructure,
 - iv. Slope of pipe, invert elevation and rim elevation for all manholes,
 - v. Proposed collection line sizes, on-site and off-site alignment, and half-full velocities.
- l. No Certificate of Occupancy will be issued until all the sewer collection facilities necessary to serve each final map have been completed, accepted and engineer prepared as-built drawings are delivered to the utility. As-built must be professionally drafted by the owners engineer at the completion of the project and drawings must be in an electronic format acceptable to Washoe County.
- m. No permanent structures (including rockery or retaining walls, building's, etc.) shall be allowed within or upon any County maintained utility easement.
- n. A minimum 30-foot sanitary sewer and access easement shall be dedicated to Washoe County over any facilities not located in a dedicated right of way.
- o. A minimum 12-foot wide all weather sanitary sewer access road shall be constructed to facilitate access to off-site sanitary sewer manholes.

- p. The applicant must adhere to the most recent development agreements for the construction of Reach 3 & 4 of the Pleasant Valley Interceptor.

Washoe County Health District

4. The following conditions are requirements of the Health District, which shall be responsible for determining compliance with these conditions. The District Board of Health has jurisdiction over all public health matters in the Health District. Any conditions set by the Health District must be appealed to the District Board of Health.

Contact: James English, 775.2610, jenglish@washoecounty.us

- a. Prior to any final grading or other civil site improvements, a complete water system plan and Water Project submittal for the referenced proposal must be submitted to Health District. The plan must show that the water system will conform to the State of Nevada Design, Construction, Operation and Maintenance Regulations for Public Water Systems, NAC Chapter 445A, and the State of Nevada Regulations Governing Review of Plans for Subdivisions, Condominiums, and Planned Unit Developments, NAC 278.400 and 278.410.
- i. The application for a Water Project shall conform to the requirements of NAC 445A.66695.
- ii. Two copies of complete construction plans are required for review. All plans must include an overall site plan, additional phases that will eventually be built to indicate that the water system will be looped, all proposed final grading, utilities, and improvements for the proposed application.
- b. Mass grading may proceed after approval of the Tentative Map and after a favorable review by this Health District of a grading permit application.
- i. The final map submittal shall include a Truckee Meadows Water Authority annexation and discovery with the mass grading permit.
- c. Improvement plans for the water system may be constructed prior to final map submittal only after Water Project approval by this Health District.
- i. For improvement plans approved prior to final map submittal, the Developer shall provide certification by the Professional Engineer of record that the improvement plans were not altered subsequent to final map submittal.
- ii. Any changes to previously approved improvement plans made prior to final map submittal shall be resubmitted to this Health District for approval per NAC 278.290 and NAC 445A.66715.

The WCHD requires the following to be submitted with the final map application for review and approval:

- d. Construction plans for the development must be submitted to this Health District for approval. The construction drawings must conform to the State of Nevada Regulations Concerning Review of Plans for Subdivisions, Condominiums and Planned Unit Developments, and any applicable requirements of this Health District.
- e. Prior to approval of a final map for the referenced project and pursuant to NAC 278.370, the developer must have the design engineer or a third person submit to the satisfaction this Health District an inspection plan for periodic inspection of the construction of the systems for water supply and community sewerage. The inspection plan must address the following and be included with the final map submittal:
- i. The inspection plan must indicate if an authorized agency, city or county is performing inspection of the construction of the systems for water supply and community sewerage;

- ii. The design engineer or third person shall, pursuant to the approved inspection plan, periodically certify in writing to this Health District that the improvements are being installed in accordance with the approved plans and recognized practices of the trade;
 - iii. The developer must bear the cost of the inspections; and
 - iv. The developer may select a third-person inspector but the selection must be approved by the Health District or local agency. A third-person inspector must be a disinterested person who is not an employee of the developer.
- f. Prior to final map approval, a "Commitment for Service" letter from the sewage purveyor committing sewer service for the entire proposed development shall be submitted to this Health District. The letter must indicate that the community facility for treatment will not be caused to exceed its capacity and the discharge permit requirements by this added service, or the facility will be expanded to provide for the added service.
 - g. A copy of this letter must be included with the final map submittal.
 - h. Prior to final map approval, a "Commitment for Water Service" letter from the water purveyor committing adequate water service for the entire proposed development must be submitted to this Health District.
 - i. A copy of this letter must be included with the final map submittal.
 - i. The final map submittal must include a letter from Nevada Division of Environmental Protection to the Health District certifying their approval of the final map.
 - j. The final map application packet must include a letter from Division of Water Resources certifying their approval of the final map.
 - k. Pursuant to NAC 278.360 of the State of Nevada Regulations Governing Review of plans for Subdivision, Condominiums, and Planned Unit Developments, the development of the subdivision must be carried on in a manner which will minimize water pollution.
 - i. Construction plans shall clearly show how the subdivision will comply with NAC 278.360.
 - l. Prior to approval of the final map, the applicant must submit to the Health District the final map fee.
 - m. All grading and development activities must be in compliance with the DBOH Regulations Governing the Prevention of Vector-Borne Diseases.

Truckee Meadows Fire Protection District

5. The following conditions are requirements of the Truckee Meadows Fire Protection District, which shall be responsible for determining compliance with these conditions.

Contact: Don Coon, (775)-326-6077, dcoon@tmfpd.us

- a. All final maps shall provide for all 2012 International Fire Code and the 2012 International Wildland Urban Interface Code, as amended and adopted by Washoe County and all applicable Nevada Revised Statutes requirements regarding fire flows, hydrant type, number and location, roadway widths, turnarounds, fuel break defensible space and applicable adopted ordinances of the fire protection district having jurisdiction at the time of the final map recordation.

Regional Transportation Commission (RTC)

6. The following conditions are requirements of the Regional Transportation Commission, which shall be responsible for determining compliance with these conditions.

Contact: Rebecca Kapuler, (775)-332-0174, rkapular@rtc.com

- a. The applicant will be required to accommodate for bike lanes and the shared use facility according to the 2040 Regional Transportation Plan along US395/South Virginia Street.
