BACKGROUND

Williams Tank Lines is one of the largest for hire bulk carriers in California. The company operates over 100 units out of 9 different locations in California and 2 locations in Nevada.

After a severe traffic accident, Williams Tank Lines salvaged a 20 foot tow trailer that was damaged beyond serviceable repair. The tow trailer is located at the Reno-Sparks Terminal. Williams Tank Lines has offered this damaged trailer to the RPSTC to be used as a static training prop, which would be located at the Skills Training Area of the RPSTC.

The static tow trailer will be used by partner agencies, as well as other entities, to simulate tractor trailer accidents, Haz-Mat incidents, and other First Responder training.
