Mr. Mike Robbins,

Our agency is in receipt of the quote provided by you on March 15, 2019. After review of the contract we have observed that there is no "Funding Out" clause that is generally required for all contracts entered into with Washoe County. We are truly motivated to move forward with working with Microgenics Corp. and ThermoFisher but would require the following language be added into the contract prior to our agency signing.

Funding Out - In the event the County fails to appropriate or budget funds for the purposes as specified in the Agreement, the County may terminate this Agreement at any time and the Contractor agrees to such termination without penalty. County shall endeavor to give Contractor as much written notice as possible before termination.

Please contact me directly should you have any questions, concerns or need for clarification of this request. Again, we are looking forward to developing this partnership and await your response.

Sincerely,

A handwritten signature in black ink, appearing to read "Joe Ingraham". The signature is fluid and cursive, with a long horizontal stroke extending to the right.
