<u>47</u> consults w/community providers - TB education	<u>46</u> consults w/community providers - TB education
<u>1040</u> positive TB test results reported	<u>1067</u> positive TB test results reported

Not So Fun Facts:

- It is the world's oldest and deadliest infectious disease killing over 1 million people annually.
- One quarter of the world's population has the TB bacteria in their body.
- TB cases in the US rose 15.6% from 2022 to 2023 and although 2024 data have not been published by the CDC yet it is looking like TB is continuing to rise in the US.
