NORTH LAKE TAHOE FIRE PROTECTION DISTRICT

BOARD OF DIRECTORS

RESOLUTION NUMBER 25-06

A RESOLUTION ADOPTING THE 2024 LAKE TAHOE NEVADA FIRE CODE, INCORPORATING THE 2024 INTERNATIONAL FIRE CODE, PRESCRIBING REGULATIONS TO PROTECT LIFE AND PROPERTY FROM FIRE, HAZARDOUS MATERIALS, AND EXPLOSIONS, PROVIDING FOR PERMITS, ESTABLISHING A BUREAU OF FIRE PREVENTION, AND DEFINING OFFICERS' POWERS AND DUTIES.

WHEREAS, Nevada Revised Statutes Chapter 474 authorizes a duly organized fire protection district to provide for the prevention and extinguishment of fires; and

WHEREAS, Nevada Revised Statutes Chapter 474 provides that a Board of Directors shall promulgate and enforce all regulations necessary for the administration and government of the district and for the furnishing of fire protection; and

WHEREAS, Nevada Revised Statutes Chapter 474 provides that a Board of Directors shall eliminate and remove fire hazards from the districts wherever practicable and possible, whether on private or public premises; and

WHEREAS, The Board of Directors of the North Lake Tahoe Fire Protection District (NLTFPD) does herewith find that the District has certain climatic, geologic, and topographical features that can have a deleterious or negative effect on the delivery of emergency services such as fire protection and emergency medical services; and

WHEREAS, The Board of Directors of the NLTFPD finds that local modifications and changes to the International Fire Code are reasonably necessary because of the following local climatic, geological, physical, and topographical conditions:

1. **Wildland-Urban Interface and Vegetative Fuels:** the District lies in a mountainous wildland-urban interface area of steep terrain, continuous and dry fuels, and urban development, all of which pose an increasing risk to wildfire spread and conflagration.
2. **Geological Hazards:** proximity to an active fault zone in the Lake Tahoe Basin, the area presents risks of infrastructure failure, including disruption of water, roads, power, and communications during emergencies.
3. **Climatic Conditions:** hot and dry late summer and fall conditions, combined with frequent southwest winds on south facing aspects, heighten the potential exposure of a wildfire ignition, spread, and season. Winter conditions also restrict fire access to not only roadways and properties but also access to fire hydrants and utilities.
4. **Access Limitations:** the topography of the area is generally steep, with most of the subdivisions and structures extending along creek drainages. This terrain may be difficult for firefighters to navigate during a response. Many of these subdivisions have roads that predate modern fire access standards, including steep and narrow roads; a lack of fire turnarounds; and encroachment of public easements. Winter conditions provide these conditions with even more difficult fire access and response.
5. **Environmental Constraints:** Lake Tahoe watershed protections of the area limit roadway improvements, limiting not only improvement in emergency vehicle access but also fuel reduction projects on public lands. These protections also restrict improvements and expansion on the public highways within the Basin. Incline Village and Crystal Bay have only three routes to leave the area. The Lake Tahoe Basin generally has one highway that goes around the Lake.
6. **Limitations of Firefighting Resources:** with only three staffed stations and a small full-time staff, the District relies on mutual aid in both response and in coverage. Mutual aid can be delayed by the lack of routes into the area, distance to the neighboring Fire Districts, and by the road conditions of the season.

WHEREAS, these factors necessitate adopting local amendments to the International Fire Code, including requirements for automatic fire sprinkler systems, to protect life, property, and the natural environment, and to maintain effective emergency response capabilities.

THEREFORE, BE IT RESOLVED:

The Board of Directors of the North Lake Tahoe Fire Protection District hereby adopts the following:

Section 1. ADOPTION OF THE 2024 INTERNATIONAL FIRE CODE.

The North Lake Tahoe Fire Protection District hereby adopts the 2024 International Fire Code (including Appendices A,B, C, D, I, N, and O published by the International Code Council, Inc., together with the 2024 Lake Tahoe Nevada Fire Code local amendments, which are incorporated as a standalone document that supplements and modifies the 2024 IFC as necessary to address local conditions. Three copies of both the 2024 IFC and the local amendments shall be filed with the Washoe County Clerk. From the effective date, the provisions of the 2024 IFC, as modified by the local amendments, shall govern within NLTFPD, including Incline Village and Crystal Bay, Nevada.

Section 2. ESTABLISHMENT AND DUTIES OF BUREAU OF FIRE PREVENTION.

The International Fire Code as adopted and amended herein shall be enforced by the Bureau of Fire Prevention in the Fire District of the North Lake Tahoe Fire Protection District, hereinafter "District", which is hereby established, and which shall be operated under the supervision of the Fire Chief of the Fire District.

The Fire Marshal in charge of the Bureau of Fire Prevention shall be appointed by the Chief of the Fire District on the basis of examination to determine his or her qualifications and shall retain employment as determined by District policy and procedure.

The Chief of the Fire District shall employ a Fire Marshal, Deputies, and Technical Inspectors, who shall be selected through an examination to determine their fitness for the position. The examination shall be open to members and non-members of the Fire District, and appointments made after examination shall retain employment as determined by District policy and procedure.

Enforcement Authority:

The Fire Chief, Fire Code Official and designated members of the Fire Prevention Bureau are hereby authorized and directed to enforce the provisions of the applicable codes. In the performance of their duties, such personnel may: Conduct inspections, investigations, and plan reviews; Enter premises at reasonable times to ensure compliance with fire and life safety requirements, consistent with applicable law; Issue notices of violation, orders to correct hazards, or other directives necessary to secure compliance; Coordinate with other governmental agencies as appropriate.

Violations of the Fire Code may be addressed through administrative citations, civil penalties, or referral to the appropriate legal authority for civil or criminal prosecution as warranted.

Section 3. REPEAL OF CONFLICTING ORDINANCES.

If any provision herein regarding fire safety conflicts or is inconsistent with former ordinances regarding that same issue, then in that event, the fire code official may enforce the new provision or continue to enforce the prior provision in that officials' sole discretion.

Section 4. VALIDITY.

The North Lake Tahoe Fire Protection District Board of Directors hereby declares that should any section, paragraph, sentence or word of this ordinance or of the International Fire Code as adopted and amended herein be declared for any reason to be invalid, it is the intent of the North Lake Tahoe Fire Protection District that it would have passed all other portions of this ordinance independent of the elimination here from of any such portion as may be declared invalid, the remainder of the resolution shall remain in force.

Section 5. DATE OF EFFECT.

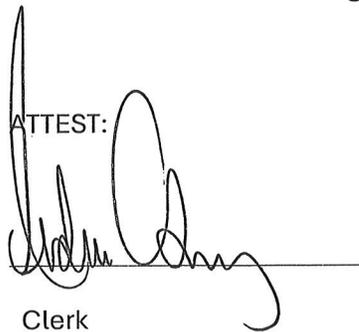

This ordinance shall take effect and be in force on January 1, 2026, after its approval and filing with the Washoe County Clerk, or as required by law.

Be it further resolved that the Board of Directors of the North Lake Tahoe Fire Protection District voted to accept this resolution as follows:

Passed and adopted this 15th day of October 2025 by the following vote:

NORTH LAKE TAHOE FIRE PROTECTION DISTRICT

BOARD OF DIRECTORS

RESOLUTION NUMBER 25-07

A RESOLUTION ADOPTING THE 2024 LAKE TAHOE NEVADA WILDLAND-URBAN INTERFACE CODE, INCORPORATING THE 2024 INTERNATIONAL WILDLAND-URBAN INTERFACE CODE, PRESCRIBING REGULATIONS TO PROTECT LIFE AND PROPERTY FROM FIRE, HAZARDOUS MATERIALS, AND EXPLOSIONS, PROVIDING FOR PERMITS, ESTABLISHING A BUREAU OF FIRE PREVENTION, AND DEFINING OFFICERS' POWERS AND DUTIES.

WHEREAS, Nevada Revised Statutes Chapter 474 authorizes a duly organized fire protection district to provide for the prevention and extinguishment of fires; and

WHEREAS, Nevada Revised Statutes Chapter 474 provides that a Board of Directors shall promulgate and enforce all regulations necessary for the administration and government of the district and for the furnishing of fire protection; and

WHEREAS, Nevada Revised Statutes Chapter 474 provides that a Board of Directors shall eliminate and remove fire hazards from the districts wherever practicable and possible, whether on private or public premises; and

WHEREAS, The Board of Directors of the North Lake Tahoe Fire Protection District (NLTFPD) does herewith find that the District has certain climatic, geologic, and topographical features that can have a deleterious or negative effect on the delivery of emergency services such as fire protection and emergency medical services; and

WHEREAS, The Board of Directors of the NLTFPD finds that local modifications and changes to the International Wildland-Urban Interface Code are reasonably necessary

because of the following local climatic, geological, physical, and topographical conditions:

1. **Wildland-Urban Interface and Vegetative Fuels:** the District lies in a mountainous wildland-urban interface area of steep terrain, continuous and dry fuels, and urban development, all of which pose an increasing risk to wildfire spread and conflagration.
2. **Geological Hazards:** proximity to an active fault zone in the Lake Tahoe Basin, the area presents risks of infrastructure failure, including disruption of water, roads, power, and communications during emergencies.
3. **Climatic Conditions:** hot and dry late summer and fall conditions, combined with frequent southwest winds on south facing aspects, heighten the potential exposure of a wildfire ignition, spread, and season. Winter conditions also restrict fire access to not only roadways and properties but also access to fire hydrants and utilities.
4. **Access Limitations:** the topography of the area is generally steep, with most of the subdivisions and structures extending along creek drainages. This terrain may be difficult for firefighters to navigate during a response. Many of these subdivisions have roads that predate modern fire access standards, including steep and narrow roads; a lack of fire turnarounds; and encroachment of public easements. Winter conditions provide these conditions with even more difficult fire access and response.
5. **Environmental Constraints:** Lake Tahoe watershed protections of the area limit roadway improvements, limiting not only improvement in emergency vehicle access but also fuel reduction projects on public lands. These protections also restrict improvements and expansion on the public highways within the Basin. Incline Village and Crystal Bay have only three routes to leave the area. The Lake Tahoe Basin generally has one highway that goes around the Lake.
6. **Limitations of Firefighting Resources:** with only three staffed stations and a small full-time staff, the District relies on mutual aid in both response and in coverage. Mutual aid can be delayed by the lack of routes into the area, distance to the neighboring Fire Districts, and by the road conditions of the season.

WHEREAS, these factors necessitate adopting local amendments to the International Wildland-Urban Interface Code (IWUIC), including requirements for automatic fire sprinkler systems, to protect life, property, and the natural environment, and to maintain effective emergency response capabilities.

THEREFORE, BE IT RESOLVED:

The Board of Directors of the North Lake Tahoe Fire Protection District hereby adopts the following:

Section 1. ADOPTION OF THE 2024 WILDLAND-URBAN INTERFACE CODE.

The North Lake Tahoe Fire Protection District hereby adopts the Wildland-Urban Interface Code A and B published by the International Code Council, Inc., together with the 2024 Lake Tahoe Nevada Wildland-Urban Interface Code local amendments, which are incorporated as a standalone document that supplements and modifies the 2024 IWUIC as necessary to address local conditions. Three copies of both the 2024 IWUIC and the local amendments shall be filed with the Washoe County Clerk. From the effective date, the provisions of the 2024 IWUIC, as modified by the local amendments, shall govern within NLTFPD, including Incline Village and Crystal Bay, Nevada.

Section 2. ESTABLISHMENT AND DUTIES OF BUREAU OF FIRE PREVENTION.

The Wildland-Urban Interface Code as adopted and amended herein shall be enforced by the Bureau of Fire Prevention in the Fire District of the North Lake Tahoe Fire Protection District, hereinafter "District", which is hereby established, and which shall be operated under the supervision of the Fire Chief of the Fire District.

The Fire Marshal in charge of the Bureau of Fire Prevention shall be appointed by the Chief of the Fire District on the basis of examination to determine his or her qualifications and shall retain employment as determined by District policy and procedure.

The Chief of the Fire District shall employ a Fire Marshal, Deputies, and Technical Inspectors, who shall be selected through an examination to determine their fitness for the position. The examination shall be open to members and non-members of the Fire District, and appointments made after examination shall retain employment as determined by District policy and procedure.

Enforcement Authority:

The Fire Chief, Fire Code Official and designated members of the Fire Prevention Bureau are hereby authorized and directed to enforce the provisions of the applicable codes. In the performance of their duties, such personnel may: Conduct inspections, investigations, and plan reviews; Enter premises at reasonable times to ensure compliance with fire and life safety requirements, consistent with applicable law; Issue notices of violation, orders to correct hazards, or other directives necessary to secure compliance; Coordinate with other governmental agencies as appropriate.

Violations of the Fire Code may be addressed through administrative citations, civil penalties, or referral to the appropriate legal authority for civil or criminal prosecution as warranted.

Section 3. REPEAL OF CONFLICTING ORDINANCES.

If any provision herein regarding fire safety conflicts or is inconsistent with former ordinances regarding that same issue, then in that event, the fire code official may enforce the new provision or continue to enforce the prior provision in that officials' sole discretion.

Section 4. VALIDITY.

The North Lake Tahoe Fire Protection District Board of Directors hereby declares that should any section, paragraph, sentence or word of this ordinance or of the International Fire Code as adopted and amended herein be declared for any reason to be invalid, it is the intent of the North Lake Tahoe Fire Protection District that it would have passed all other portions of this ordinance independent of the elimination here from of any such portion as may be declared invalid, the remainder of the resolution shall remain in force.

Section 5. DATE OF EFFECT.

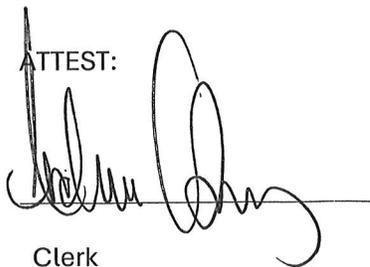

This ordinance shall take effect and be in force on January 1, 2026, after its approval and filing with the Washoe County Clerk, or as required by law.

Be it further resolved that the Board of Directors of the North Lake Tahoe Fire Protection District voted to accept this resolution as follows:

INDEPENDENT AUDITORS' REPORT

To the Board of Trustees
Sun Valley General Improvement District
Sun Valley, Nevada

Report on the Audit of the Financial Statements

Opinions

We have audited the accompanying financial statements of the Sun Valley General Improvement District (the District) as of and for the year ended June 30, 2025, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the District as of June 30, 2025, and the changes in financial position, and its cash flows for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the District and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation in the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis and certain pension information be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States

of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise the District's basic financial statements. The other supplementary information listed in the table of contents is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with GAAS. In our opinion, the other supplementary information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated November 3, 2025, on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

SUN VALLEY GENERAL IMPROVEMENT DISTRICT

MANAGEMENT'S DISCUSSION AND ANALYSIS

JUNE 30, 2025

This section of the Sun Valley General Improvement District's (District) annual financial report provides an overview of the District's financial activities for the fiscal year ended June 30, 2025. This section should be read in conjunction with the District's financial statements, which immediately follow this section.

FINANCIAL HIGHLIGHTS

Key financial highlights for the fiscal year includes the following:

- The assets and deferred outflows of resources of the District exceeded its liabilities and deferred inflows of resources at June 30, 2024 by \$67,109,102, of which \$38,531,069, represents net position which is invested in capital assets.
- The District's total assets increased by \$10,838,021.
- The District's total liabilities decreased by \$957,412.
- The District's total customer charges increased \$1,136,207, or 12.6% from the previous year.

DISTRICT HIGHLIGHTS

- Board passed a 4.5% water increase pass through from TMWA and an additional 2% rate increase to all water base and consumption rates.
- Board passed a new flat rate billing structure of \$43 for residential sewer services.
- Board approved the sale of 5091 Prosser Way mobile home.
- The District updated both the Water and Sewer Master Plan.
- The District received several developer donations of water main lines from 5 Ridges Development Company for TMains and backbone, Village 1A, Phases 2, 4 and 6, from Sun Mesa for Phase 3 for water and sewer main lines, and Ulysses Development for the Sun Valley Apartments sewer main lines.
- Through the American Rescue Plan Act Grant in the amount of \$60,000 the District was able to install security cameras, bleachers and picnic tables at Gepford Park along with several other improvements at the Sun Valley Pool Complex and Highland Ranch Park.
- The District implemented Integrative Voice Response system for phone payments.
- Washoe County Community Support Recreation Fund Grant of \$90,000.
- Refurbished payment drop box with security enhancements.
- Joined and invested in the Local Government Investment Pool.
- Negotiated CIP interest with District Bank.
- Implemented a 4/10's work schedule.
- Completed Lead and Copper service line inventory; accepted by NNPH.

SUN VALLEY GENERAL IMPROVEMENT DISTRICT

MANAGEMENT'S DISCUSSION AND ANALYSIS

JUNE 30, 2025

As part of the District's preventative maintenance:

- Perform PMs on all District equipment and vehicles.
- PMs on all pumpstations.
- Flushed and cleaned the wastewater collection system.
- Flushed and cleaned the dead-end lines on the water distribution system.
- All parks were sprayed for weeds.
- Graffiti abatement at all parks.
- Maintenance on the District rentals.
- Raised Manholes and water valves with concrete rings.
- Updated Personnel Manual.
- Exercised Valves

Under the Capital Improvement Projects program

- Neighborhood Center new flooring
- Mary Hansen HVAC
- New roofing pool building and annex
- Public Works Director truck, service truck and dump truck
- PRV refurbishments
- Shop building improvements
- Distribution main flush out extension
- 4th Avenue TMain replacement
- Board room remodel
- GIS/GPS locations and mapping updates.
- TMWRF capital sewer improvements.

Staff completed training including:

- Financial Management Systems Training.
- Customer service training.
- Human Resource training.
- Nevada Recreation and Parks Society conference training.
- Harassment training.
- OSHA training.
- SDS training.
- The Safety Committee met bi-monthly to discuss issues and implementation.
- Management training.
- Map Optix training.
- Lifeguard training and certifications.
- CPR / First Aid training and recertifications.

SUN VALLEY GENERAL IMPROVEMENT DISTRICT

MANAGEMENT'S DISCUSSION AND ANALYSIS

JUNE 30, 2025

Additional Programs and Projects:

- Partnered with Washoe County Senior Services for Vets Day Celebration.
- The District donated \$5,000 dollars to Keep Truckee Meadows Beautiful for the "Annual Clean-up Day" participated in event with staff and equipment.
- The District continued its partnership with Washoe County Health Department and donated monies for garbage dumpsters for lot clean-ups.
- Month Long E-Waste Recycling Event – Partnered with Lifecycle Solutions.
- Partnered with Impala's car club and held a car show in our park.
- Easter egg hunt at Sun Valley Park.
- Free Senior Swim Tuesdays and Thursdays from 11am – 12pm
- Pool Season including a "Free Swim Day" – Sponsored by Robert & Norma Fink.
- Dive into summer – Community Resources Event

USING THIS ANNUAL REPORT

This annual report consists of three parts; Management's Discussion and Analysis, Financial Statements, and Required Supplementary Information. The Financial Statements also include notes that explain in more detail some of the information in the financial statements.

REQUIRED FINANCIAL STATEMENTS

The Financial Statements of the District report information about the District using generally accepted governmental accounting methods. These statements offer short- and long-term financial information about its activities. The Statement of Net Position includes all of the District's assets and obligations to creditors (liabilities). All of the current year's revenues and expenses are accounted for in the Statement of Revenues, Expenses, and Changes in Net Position. This statement measures the District's operations over the past year and can be used to determine whether the District has successfully recovered all its costs through its user fees and charges. The final required statement is the Statement of Cash Flows. The primary purpose of this statement is to provide information about the District's cash receipts and cash payments during the reporting period.

End of Year	<u>\$ 67,109,102</u>	<u>\$ 55,571,949</u>

SUN VALLEY GENERAL IMPROVEMENT DISTRICT

MANAGEMENT'S DISCUSSION AND ANALYSIS

JUNE 30, 2025

Operating revenues increased by 12.4% in 2025 compared to 2024.

Operating expenses increased by 9.7% in 2025 compared to 2024.

THE DISTRICT'S FUNDS

The District has five enterprise funds: water, wastewater, properties and garbage, acquisition, and parks and recreation. The water fund was established in 1967, with the acquisition fund being established in 1972. The wastewater fund was established in 1981. On April 10, 2007, the District created the properties and garbage fund to account for rental of District property and garbage franchise fees. On February 25, 2010, the District created the parks and recreation fund to operate the swimming pool and parks acquired from Washoe County. The funds are segregated for the purpose of carrying on specific activities or attaining certain objectives in accordance with special regulations, restrictions, or limitations. The enterprise funds account for operations that are financed and operated in a manner similar to private business enterprises, where the intent of the District is that the cost (expenses, including depreciation) of providing goods or service to the general public on a continuing basis be financed or recovered primarily through user charges. The acquisition, maintenance, and improvement of the physical plant facilities required to provide these goods and services are financed from existing cash resources, the issuance of bond (revenue or general obligation), federal grants, and other District funds. These funds are not considered to be financial reporting funds. For the financial statements, the financial activities of the District are presented as a single proprietary fund.

CAPITAL ASSETS

At June 30, 2025, the District's total capital assets are \$40,348,246 net of accumulated depreciation of \$40,129,083. There was an overall increase in capital assets in the current year of \$7,061,225, resulting from depreciation expense of \$1,604,028, additions of \$8,756,043, and net sales of \$90,790. See Note 3.

LONG-TERM DEBT

At June 30, 2025, total loans payable to the State of Nevada Revolving Fund for water system improvements were \$950,739. The District also has outstanding notes payable to the City of Sparks for sewer system improvements in the amount of \$866,438. See Note 4 for additional information.

CONTACTING THE DISTRICT'S FINANCIAL MANAGEMENT

This financial report was prepared for the benefit of the customers, bond investors, and the Board of Trustees of the Sun Valley General Improvement District and is intended to provide interested parties with a general overview of the Sun Valley General Improvement District's accountability for the financial resources it manages. For questions or additional information, please contact the Sun Valley General Improvement District at 775-673-2220.

SUN VALLEY GENERAL IMPROVEMENT DISTRICT

NOTES TO FINANCIAL STATEMENTS

JUNE 30, 2025

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the Sun Valley General Improvement District (the District) are prepared in accordance with accounting principles generally accepted in the United States of America (GAAP). The District applies all relevant Governmental Accounting Standards Board (GASB) pronouncements.

Reporting Entity

Sun Valley General Improvement District was created in 1965 and operates under NRS 318 by an elected board of trustees. The District, a quasi-municipal corporation, operates a water and sewer system, and recreational facilities for the benefit of individuals owning property or residing within its geographic boundaries. The District exercises no control over other governmental agencies and authorities as defined by the GASB and as such is the only entity reported in these financial statements. The District is located in Washoe County, Nevada. However, it is not included in the financial statements of Washoe County.

Basis of Presentation and Method of Accounting

The accounting system is organized and operated on a fund basis using the accrual basis of accounting. The District's financial statements have been prepared on the basis of the governmental proprietary fund concept as adopted by the GASB. The governmental proprietary fund concept provides that financial activities be presented as a single proprietary fund which includes enterprise funds. The District maintains the following divisions: Water Operations, Acquisition, Wastewater, Properties and Garbage, and Recreation, which are combined to present the District's single enterprise fund. The individual divisions include a self-balancing set of accounts recording cash and other financial resources, together with all related liabilities and residual equities or balances, and changes therein. They are segregated for the purpose of carrying on specific activities or attaining certain objectives in accordance with special regulations, restrictions, or limitations.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of enterprise funds are charges to customers for sales and services. Operating expenses of enterprise funds include the cost of sales and services, administrative expenses, and depreciation of capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

Nonexchange transactions, in which the District gives (or receives) value without directly receiving (or giving) equal value in exchange, include grants, entitlements, and donations. In accordance with GASB No. 33, *Accounting and Financial Reporting for Nonexchange Transactions*, revenues from grants, entitlements, and donations are recognized in the fiscal year in which all eligibility requirements have been satisfied.

Cash, Investments, and Equivalents

Cash, short-term investments, and restricted investments other than the District's negotiable certificates of deposit are stated at cost, which approximates current fair value. Negotiable certificates of deposit are stated at fair value.

SUN VALLEY GENERAL IMPROVEMENT DISTRICT

NOTES TO FINANCIAL STATEMENTS

JUNE 30, 2025

The District has no formal investment policy. All investments are made pursuant to NRS 355.170 and it has been board policy to hold all surplus funds in time certificates of deposit ranging from 30 days to four years. The District may only invest in the following types of securities:

- Certain "A" rated notes and bonds purchased by a registered broker-dealer that are issued by corporations organized and operating in the United States (U.S.) and that mature within five (5) years from the date of purchase; asset-backed securities and collateralized mortgage obligations rated "AAA" or higher by a nationally recognized rating service. These investments must not, in the aggregate, exceed 20% of the total portfolio at the time of purchase, nor include notes and bonds issued by any one corporation in excess of 25% of such investments.
- U.S. bonds and debentures maturing within ten (10) years from the date of purchase.
- Certain farm loan bonds.
- Bills and notes of the U.S. Treasury, maturing within ten (10) years from the date of purchase.
- Obligations of an agency of the U.S. or a corporation sponsored by the government, maturing within ten (10) years from the date of purchase.
- Obligations of state and local governments if, (1) the interest is exempt for federal income tax purposes, and (2) the obligation has been rated "A" or higher by a nationally recognized bond credit rating agency.
- Negotiable and nonnegotiable certificates of deposit from commercial banks and insured savings and loan associations.
- State of Nevada Local Government Pooled Investment Fund.
- Certain securities issued by local governments of the State of Nevada.
- Certain bankers' acceptances.
- Certain short-term paper issued by a corporation organized and operating in the U.S.
- Other securities expressly provided by other statutes, including repurchase agreements.
- Certain "AAA" rated mutual funds that invest in (1) securities issued by the Federal Government or agencies of the Federal Government, (2) Master, bank notes or other short-term commercial paper rated as "A-1" or "P-1" issued by a corporation or depository institution organized, licensed and operating in the United States and/or (3) Repurchase agreements that are fully collateralized by (1) and (2) above.

For purposes of the statement of cash flows, the District considers all cash and certificates of deposit, as well as investments with original maturities of three months or less when purchased as cash and cash equivalents.

Fair Value Measurements

Certain assets and liabilities are required to be reported at fair value. The fair value framework provides a hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities

SUN VALLEY GENERAL IMPROVEMENT DISTRICT

NOTES TO FINANCIAL STATEMENTS

JUNE 30, 2025

(Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of fair value hierarchy are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets.

Level 2 – Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly and fair value is determined through the use of models or other valuation methodologies including:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in markets that are inactive;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement. These unobservable inputs reflect the District's own assumptions about the inputs market participants would use in pricing the asset or liability (including assumptions about risk). These unobservable inputs are developed based on the best information available in the circumstances and may include the District's own data.

Restricted Assets

Amounts shown as restricted assets have been restricted by either bonds, by law, or by contractual obligations to be used for specified purposes, such as servicing bonded debt and construction of capital assets.

Receivables

Receivables consist mostly of water service and connection charges and taxes. Accounts receivable represent amounts billed directly by the District. The District presently has adequate legal remedies to enforce the collection of water service and connection charges and taxes. Any such amounts which may ultimately prove uncollectable should not be material in amount. However, due to recent changes by the state legislature to NRS 318 regarding the filing of liens by General Improvement Districts, the Board of Trustees adopted a policy whereby a reserve for uncollectible accounts was established for all past due amounts. Past due amounts are added to the Washoe County property tax rolls.

Inventory

Inventories consist of operating materials and supplies held for consumption and are recognized as an expense at the time inventory is used. The District carries inventory at the lower of cost or market, on a first-in, first-out (FIFO) basis.

SUN VALLEY GENERAL IMPROVEMENT DISTRICT

NOTES TO FINANCIAL STATEMENTS

JUNE 30, 2025

Prepaid Expenses

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid costs.

Capital Assets

All purchased capital assets are valued at cost where historical records are available and at an estimated historical cost where no historical records exist. Donated capital assets are valued at their estimated acquisition value on the date received.

The District defines capital assets as assets with an initial individual cost of more than \$5,000 and an estimated useful life in excess of one year. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend asset life are not capitalized. Depreciation is computed using the straight-line method over the estimated useful lives of the various classes of plant and equipment as follows:

<u>Capital Asset Description</u>	<u>Life (in Years)</u>
Storage tanks	33
Meters, service and transmission and distribution lines	33 - 40
Fire hydrants	33
Pumping equipment	15
Structure and improvements	5 - 30
Power operated equipment	3 - 10
Office furniture and equipment	5 - 10
Sewage treatment plant	40

Compensated Absences

District employees are entitled to certain compensated absences based on their length of employment. The employees may accumulate vacation pay up to a limit of 30 days. Employees are paid 100% of their accumulated vacation pay when they terminate their employment for any reason only if they have worked three months or more. Sick leave may be accumulated. Upon termination an employee who has five years of full-time employment shall be compensated for 40% of their total accrued sick leave up to a maximum of 1,000 hours of pay-out hours. The amount of accumulated compensated absences is \$280,032 at June 30, 2025.

Pensions

For purposes of measuring the net pension liability and deferred outflows/inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the District's Nevada Public Employees' Retirement System (NVPERS) plans (Plans) and additions to/deductions from the Plans' fiduciary net position have been determined on the same basis as they are reported by NVPERS.

SUN VALLEY GENERAL IMPROVEMENT DISTRICT

NOTES TO FINANCIAL STATEMENTS

JUNE 30, 2025

For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Deferred Outflows/Inflows of Resources

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, *deferred outflows of resources*, represents a consumption of net position that applies to a future period and so will *not* be recognized as an outflow of resources (expense/expenditure) until then. The District has one item which qualifies for reporting in this category. See pension disclosure in Note 6. In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, *deferred inflows of resources*, represents an acquisition of net position that applies to a future period and so will *not* be recognized as an inflow of resources (revenue) until that time. The District has one item which qualifies for reporting in this category. See pension disclosure in Note 6.

Net Position

The District's financial statements utilize a net position presentation. Net position comprises the various net earnings from operating and nonoperating revenues, expenses, and contributions of capital. Net position is classified in the following three components: net investment in capital assets, restricted, and unrestricted.

- Net investment in capital assets – This category groups all capital assets, including infrastructure, into one component of net position. Accumulated depreciation and the outstanding balances of debt that are attributable to the acquisition, construction, or improvement of these assets reduce the balance in this category.
- Restricted – This category represents the net position of the District with constraints placed on the use either by (1) external groups such as creditors, grantors, contributors or laws or regulations of other governments; or (2) law through constitutional provisions or enabling legislation. The District did not have any restricted net position at June 30, 2025.
- Unrestricted – This category represents the net position of the District, not restricted for any project or other purpose.

Use of Estimates

Management of the District has made certain estimates and assumptions relating to the reporting of assets and liabilities to prepare these financial statements in conformity with accounting principles generally accepted in the United States of America. Actual results could differ from those estimates.

Budgetary Principles

The District is required by state statute to conduct public hearings and subsequently adopt annual budgets for all its funds on or before June 1 for the ensuing year. Budgets for all funds are adopted on a basis

SUN VALLEY GENERAL IMPROVEMENT DISTRICT

NOTES TO FINANCIAL STATEMENTS

JUNE 30, 2025

consistent with generally accepted accounting principles. Budgeted amounts originally adopted may be amended by resolution of the Board of Trustees before year-end. Expenses may not legally exceed budgeted appropriations at the activity level, except for expenses related to long-term contracts for the purchase of utility service.

NOTE 2 - CASH AND INVESTMENTS

Cash and investments at June 30, 2024 consist of the following:

Cash on hand	\$ 3,700
Deposits with financial institutions	18,122,411
Investments	<u>13,741,967</u>
Total Cash and Investments	<u>\$ 31,868,078</u>

Cash and investments are reported on the Statement of Net Position as of June 30, 2025, as follows:

Cash	\$ 12,211,660
Imprest cash	3,700
Restricted cash in banks	<u>5,910,751</u>
	18,126,111
Investments	<u>13,741,967</u>
Total Cash and Investments	<u>\$ 31,868,078</u>

Investments

Nevada Revised Statutes (NRS 355.170) set forth acceptable investments for Nevada governments (see Note 1). The District is a voluntary participant in the State of Nevada Local Government Investment Pool (LGIP), which has regulatory oversight from the Board of Finance of the State of Nevada. The District does not have a formal investment policy that would further limit its investment choices nor further limit its exposure to certain risks as set forth below.

Interest Rate Risk

Interest rate risk is the risk that changes in market interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment, the greater the sensitivity of its fair value

is to changes in market interest rates. One of the ways that the District manages its exposure to interest rate risk is by purchasing a combination of shorter term and longer-term investments and by timing cash flows from maturities so that a portion of the portfolio is maturing or coming close to maturity evenly over time as necessary to provide the cash flow and liquidity needed for operations. Information about the sensitivity of the fair values of the District's investments, to market interest rate fluctuations is provided by the following table that shows the distribution of the District's investments by maturity.

SUN VALLEY GENERAL IMPROVEMENT DISTRICT

NOTES TO FINANCIAL STATEMENTS

JUNE 30, 2025

	Total	Remaining Maturity (Years)		
		Less than 1	1-5	6-10
First American Gov't MM Fund	\$ 38,925	\$ 38,925	\$ -	\$ -
Negotiable certificates of deposit	3,403,155	1,241,142	2,162,013	-
NV Local Government Investment Pool	10,299,887	10,299,887		
	<u>\$ 13,741,967</u>	<u>\$ 11,579,954</u>	<u>\$2,162,013</u>	<u>\$ -</u>

The approximate weighted average maturity of the investment in the LGIP as of June 30, 2025 was 49.5 days.

Credit Risk

Generally, credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. This is measured by the assignment of a rating by a nationally recognized statistical rating organization. The District's investment in a money market fund has a credit rating of AAA by Standard & Poor's. The District's investments in negotiable certificates of deposits do not have a rating requirement.

The District's investment in the LGIP is equal to its original investment plus monthly allocation of interest income, and realized and unrealized gains and losses, which is the same as the value of the pool's shares. The investments in the LGIP are carried at market.

Custodial Credit Risk

Custodial credit risk is the risk that in the event of a bank failure, the District's deposits may not be returned. Some of the District's bank deposits are covered by FDIC insurance and collateralized by the Office of the State Treasurer/ Nevada Collateral Pool.

Fair Value Measurement

The District categorizes its fair value investments within the fair value hierarchy established by generally accepted accounting principles. The District has the following recurring fair value measurements as of June 30, 2025:

	Fair Value	Fair Value Hierarchy		
		Level 1	Level 2	Level 3
Investments Measured at Fair Value:				
First American Gov't MM Fund	\$ 38,925	\$ 38,925	\$ -	\$ -

NOTE 5 – DEFERRED COMPENSATION PLAN

All permanent employees of the District are eligible to participate in a District sponsored deferred compensation plan (the Plan) created in accordance with Internal Revenue Code Section 457. The Plan provides for the deferral of a portion of the employees' compensation until retirement, termination, or certain other covered events. The funds are invested on behalf of the employees through an administrator in various instruments including mutual funds, money market funds, and others.

Benefit terms, including contribution requirements for the plan are established and may be amended by the Board of Directors. Employees are permitted to make contributions to the plan up to applicable Internal Revenue Code limits and are immediately vested in their own contributions and earnings on those contributions. The District matches contributions up to 6% of an employee's salary. During the year ended June 30, 2025, the District contributed \$58,591 to the plan. Currently, the District has minimal administrative involvement, does not perform the investing function for the plan and, therefore, is not considered to have fiduciary responsibility for the plan or hold the plan in a trustee capacity.

NOTE 6 - DEFINED BENEFIT PENSION PLAN

Plan Description

PERS administers a cost-sharing, multiple-employer, defined benefit public employees' retirement system which includes both Regular and Police/Fire members. PERS was established by the Nevada Legislature in 1947, effective July 1, 1948. The System is administered to provide a reasonable base income to qualified employees who have been employed by a public employer and whose earnings capacities have been removed or substantially impaired by age or disability. Benefit provisions under the Plans are established by State statute and District resolution. PERS issues publicly available reports that include a full description of the pension plans regarding benefit provisions, assumptions and membership information that can be found on the NVPERS website.

Benefits Provided

Benefits, as required by the Nevada Revised Statutes (NRS or statute), are determined by the number of years of accredited service at time of retirement and the member's highest average compensation in any 36 consecutive months with special provisions for members entering the system on or after January 1, 2010

SUN VALLEY GENERAL IMPROVEMENT DISTRICT

NOTES TO FINANCIAL STATEMENTS

JUNE 30, 2025

and July 1, 2015. Benefit payments to which participants or their beneficiaries may be entitled under the plan include pension benefits, disability benefits, and survivor benefits.

Monthly benefit allowances for members are computed as 2.5% of average compensation for each accredited year or service prior to July 1, 2001. For service earned on or after July 1, 2001, this multiplier is 2.67% of average compensation. For members entering the system on or after January 1, 2010, there is a 2.50% multiplier and for regular members entering the system on or after July 1, 2015, there is a 2.25% factor. The system offers several alternatives to the unmodified service retirement allowance which, in general, allow the retired employee to accept a reduced service retirement allowance payable monthly during his or her lifetime and various optional monthly payments to a named beneficiary after his or her death.

Regular members entering the System prior to January 1, 2010, are eligible for retirement at age 65 with five years of service, at age 60 with 10 years of service, or at any age with 30 years of service. Regular members entering the System on or after January 1, 2010, are eligible for retirement at age 65 with five years of service, or at age 62 with 10 years of service, or at any age with 30 years of service. Regular members who entered the System on or after July 1, 2015, are eligible for retirement at age 65 with five years of service, or at age 62 with 10 years of service, or at age 55 with 30 years of service, or at any age with 33 1/3 years of service.

The normal ceiling limitation on monthly benefits allowances is 75% of average compensation. However, a member who has an effective date of membership before July 1, 1985, is entitled to a benefit of up to 90% of average compensation. Members become fully vested as to benefits upon completion of five years of service.

Contributions

The authority for establishing and amending the obligation to make contributions and member contribution rates, is set by statute. New hires, in agencies which did not elect the Employer-Pay Contribution (EPC) plan prior to July 1, 1983, have the option of selecting one of two contribution plans. Contributions are shared equally by employer and employee. Employees can take a reduced salary and have contributions made by the employer (EPC) or can make contributions by a payroll deduction matched by the employer. The system's basic funding policy provides for periodic contributions at a level pattern of cost as a percentage of salary throughout an employee's working lifetime in order to accumulate sufficient assets to pay benefits when due. The system receives an actuarial valuation on an annual basis indicating the contribution rates required to fund the system on an actuarial reserve basis. Contributions actually made are in accordance with the required rates established by the Nevada Legislature. These statutory rates are increased/decreased pursuant to NRS 286.421 and 286.450.

The required contribution rate for the year ended June 30, 2025 was 33.50% for the EPC plan. The District's contributions were \$211,366 for the year ended June 30, 2025.

SUN VALLEY GENERAL IMPROVEMENT DISTRICT

NOTES TO FINANCIAL STATEMENTS JUNE 30, 2025

PERS Investment Policy

PERS' policies which determine the investment portfolio target asset allocation are established by the PERS Board. The asset allocation is reviewed annually and is designed to meet the future risk and return needs of the System.

The following was the PERS Board's adopted policy target asset allocation as of June 30, 2024:

Asset Class	Target Allocation	Long-Term Geometric Expected Real Rate of Return
U.S. stocks	34%	5.50%
International stocks	14%	5.50%
U.S. bonds	28%	2.25%
Private markets	12%	6.65%
Short-term investments	12%	0.50%
	100%	

Net Pension Liability

At June 30, 2025, the District reported a liability of \$2,422,737 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2024 and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The District's proportion of the net pension liability was based on the District's share of contributions in the PERS pension plan relative to the total contributions of all participating reporting units and members. At June 30, 2024, the District's proportion of the regular plan was .01341%, compared to its .01345% proportion measured as of June 30, 2023, a decrease of .00004.

Sensitivity of the Net Pension Liability to Changes in the Discount Rate

The following presents the net pension liability of the District calculated using the discount rate of 7.25%. The following also reflects what the District's net pension liability would be if it were calculated using a discount rate that is 1.00 percentage point lower (6.25%) or 1.00 percentage point higher (8.25%) than the current discount rate of 7.25%.

	1% Decrease in Discount Rate (6.25%)	Discount Rate (7.25%)	1% Increase in Discount Rate (8.25%)
Net Pension Liability	\$ 3,896,054	\$ 2,422,737	\$ 1,207,234

Pension Plan Fiduciary Net Position

Detailed information about the pension plan's fiduciary net position is available in the Annual Comprehensive Financial Report, available on the NVPERS website.

SUN VALLEY GENERAL IMPROVEMENT DISTRICT

NOTES TO FINANCIAL STATEMENTS

JUNE 30, 2025

Actuarial Assumptions

The System's net pension liability was measured as of June 30, 2024, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date.

The total pension liability was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Investment rate of return	7.25% per year.
Salary increases	4.20% to 9.10% depending on service.
Inflation rate	2.50% per year.
Productivity pay increase	0.50%
Other assumptions	Same as those used in the June 30, 2024 funding actuarial valuation.

Actuarial assumptions used in the June 30, 2024 valuation were based on the results of the experience study for the period July 1, 2016 through June 30, 2020.

The discount rate used to measure the total pension liability was 7.25% as of June 30, 2024. The projection of cash flows used to determine the discount rate assumed that employee and employer contributions will be made at the rate specified in statute. Based on that assumption, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments for current active and inactive employees. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Pension Expense, Deferred Outflows and Inflows of Resources Related to Pensions

For the year ended June 30, 2025, the District recognized pension expense of \$436,708. As of June 30, 2025, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Difference between expected and actual experience	\$ 513,975	\$ -
Changes in assumptions	156,330	-
Net difference between projected and actual earnings on pension plan assets	-	238,671
Changes in proportion	40,047	19,575
Contributions subsequent to the measurement date	211,366	-
	<u>\$ 921,718</u>	<u>\$ 258,246</u>

SUN VALLEY GENERAL IMPROVEMENT DISTRICT

NOTES TO FINANCIAL STATEMENTS

JUNE 30, 2025

The District's contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ending June 30, 2026. Other amounts reported as deferred outflows of resources and (deferred inflows) of resources related to pensions will be recognized in pension expense as follows:

Years Ending June 30	Amount
2026	\$ 80,633
2027	312,838
2028	21,338
2029	(1,205)
2030	38,502
	<u>\$ 452,106</u>

NOTE 7 - RISK MANAGEMENT

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The District maintains commercial insurance coverage covering each of those risks of loss. Management believes such coverage is sufficient to preclude any significant uninsured losses to the District. Settled claims have not exceeded this commercial coverage in any of the past three fiscal years.

NOTE 8 – CONSTRUCTION COMMITMENTS

The District has active construction projects as of June 30, 2025. At year-end, the District's commitments with contractors are as follows:

Project	Remaining Commitments	Estimated Completion
5 Ridges Project 1	\$ 234,154	December 2025
5 Ridges Project 4	912,935	June 2027
Ladera Phases 2 & 3	460,368	December 2025
	<u>\$ 1,607,457</u>

**INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL
OVER FINANCIAL REPORTING AND ON COMPLIANCE AND
OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS
PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS**

To the Board of Trustees
Sun Valley General Improvement District
Sun Valley, Nevada

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, the financial statements of Sun Valley General Improvement District (the District) as of and for the year ended June 30, 2025, and the related notes to the financial statements, which collectively comprise Sun Valley General Improvement District's basic financial statements, and have issued our report thereon dated November 3, 2025.

Report on Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

**INDEPENDENT AUDITORS' REPORT ON COMPLIANCE
WITH REVENUE BOND RESOLUTIONS**

To the Board of Trustees
Sun Valley General Improvement District
Sun Valley, Nevada

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, the basic financial statements of the Sun Valley General Improvement District (the District) as of and for the year ended June 30, 2025, and the related notes to the financial statements, which collectively comprise Sun Valley General Improvement District's basic financial statements, and have issued our report thereon dated November 3, 2025.

In connection with our audit, nothing came to our attention that caused us to believe that Sun Valley General Improvement District failed to comply with the terms, covenants, and provisions of the bond resolutions on the bonds outstanding of Sun Valley General Improvement District as of June 30, 2025, insofar as they relate to accounting matters. However, our audit was not directed primarily toward obtaining knowledge of such noncompliance. Accordingly, had we performed additional procedures, other matters may have come to our attention regarding Sun Valley General Improvement District's noncompliance with the above-referenced terms, covenants, provisions, or conditions of the bond resolutions, insofar as they relate to accounting matters.

This report is intended solely for the information and use of the Board of Trustees and management of Sun Valley General Improvement District and is not intended to be and should not be used by anyone other than these specified parties.

TO THE CITIZENS AND THE HONORABLE BOARD OF TRUSTEES OF THE WASHOE COUNTY SCHOOL DISTRICT

The Annual Comprehensive Financial Report (ACFR) of the Washoe County School District (the "District") for the fiscal year ended June 30, 2025, is hereby submitted in accordance with Nevada Revised Statutes (NRS) 354.624. This report represents the District's compliance with State law, which requires the District to provide for an annual audit of its financial statements by an independent firm of certified public accountants, conducted in accordance with generally accepted auditing standards.

This report consists of management's representations concerning the finances of the Washoe County School District. Responsibility for both the accuracy of the data and the completeness and fairness of the presentation, including all disclosures, rests with District's management. To provide a reasonable basis for making these representations, the District maintains a comprehensive internal control structure that uses policies and procedures established by the Office of Business and Financial Services and is designed to compile sufficient and reliable information for the preparation of the financial statements. This ACFR has been prepared by the Office of Business and Financial Services and to the best of our knowledge and belief the data contained in the report is accurate in all material respects and presents fairly the financial position of the various funds of this organization, including all disclosures necessary to understand the District's activities.

The District's financial statements have been audited by the accounting firm of Crowe LLP, a firm of licensed certified public accountants. The goal of the independent audit is to provide reasonable assurance that the financial statements of the District for the fiscal year are free of material misstatements. The audit was designed and conducted to meet the requirements set forth in state statutes. Based upon the audit, Crowe LLP has issued an unmodified ("clean") opinion on the District's financial statements for the year ended June 30, 2025. The Independent Auditor's Report is located on pages 1-4 in the financial section of this report.

Generally accepted accounting principles also require that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of the Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement the MD&A and should be read in conjunction with it. The District's MD&A begins on page 5 immediately following the Independent Auditor's Report.

The ACFR is presented in four sections:

1. Introductory Section – the Introductory Section is unaudited and includes this letter of transmittal, the District's organizational chart, list of principal officials and the GFOA Certificate of Achievement for fiscal year 2022-23.

2. Financial Section – the Financial Section includes the Independent Auditor's Report, Management's Discussion and Analysis (MD&A), the basic financial statements and related footnotes, combining and individual statements for major and non-major funds and other schedules that provide detailed information relative to the basic financial statements.

3. Statistical Section - the Statistical Section is unaudited and includes selected financial and demographic information, generally presented on a multi-year basis.

4. Compliance Section - the Compliance Section includes the auditor's report on the internal control structure and compliance with laws and regulations as required by Government Auditing Standards.

Profile of Washoe County School District

History, Population, and Geography

Prior to the creation of the Washoe County School District, there were 17 separate school districts within the County lines. Most had only one school per district but the two largest Districts – Reno School District and Sparks School District – had more. Between 1912 and 1955, fifteen schools were built in Reno/Sparks; ten remain in use today as schools, administrative offices, or other business dwellings.

Area districts throughout the state were consolidated into countywide districts as a result of legislation enacted in 1956 that created school districts with boundaries conterminous with the state's sixteen counties and Carson City. As such, all public educational services provided by the District are restricted to the boundaries of Washoe County. With an enrollment of more than 59,000 students this year, Washoe County School District is the among the 75 largest school districts in the nation.

Washoe County, located in the northwestern part of the State of Nevada, is the second most populous county (507,280 in 2024) in the State of Nevada covering an area of 6,342 square miles with the county seat in the City of Reno. Other communities in the county are Gerlach, Sparks, Wadsworth and Incline Village at Lake Tahoe.

Structure

The governing board of the District consists of seven trustees – five represent political divisions of the county and two are "at-large". Members are elected by the public for overlapping four-year terms to serve as the stewards and guardians of the District's values, vision, mission and resources. The legal power, duties and responsibilities of the Board of Trustees are defined by NRS and Board Policy.

The Superintendent of Schools is responsible to the Board of Trustees for the general efficiency of the school system including instruction, student services, personnel, finance, administration, and all other phases of District operations. In addition, the superintendent develops policy for constructive relations between schools and the community, and assures programs are responsive to current and future student needs, and compatible with community expectations. The District is focused on creating an education system where all students achieve academic success, develop personal and civic responsibility, and achieve career and college readiness for the 21st century.

During the fiscal year ended June 30, 2025, the District operated 103 schools including 66 elementary schools, 18 middle schools including a K-8 school, and 14 comprehensive high schools, plus five alternative schools including an online school and one school for mentally fragile students. The District also operates an adult achievement school. The District also sponsors seven charter schools, which are independently funded and receive a share of local and state education funding.

Local economy

Due to Washoe County's favorable climate, diversification of the regional economy, close proximity to major markets in the western U.S. and low tax structure, the general economy of Washoe County experienced strong growth after the Great Recession in 2011 and has also rebounded since the COVID-19 pandemic.

Residential and commercial development in the county has remained strong, and as a result of both new development and appreciation of existing homes, the taxable assessed property value within Washoe County increased 9.9% from \$29.91 billion in Fiscal Year 2023-24 to \$32.87 billion in Fiscal Year 2024-25. The influx of companies, and startup of many others, has resulted in a strong recovery in the region and county. Over the same period, Washoe's County's population also increased 1.9% from 498,022 to 507,280. Washoe County has continued to diversify its economy, becoming less dependent on the gaming sector. Median household income in Washoe County remains above the national average.

Student enrollment

Through much of the last decade, the District's enrollment remained relatively flat at between 63,000 and 64,000 students. The COVID-19 pandemic led to a significant decrease in enrollment to 61,673, as many families homeschooled their children and chronic absenteeism also led to many students being unenrolled. Although enrollment recovered somewhat in 2021, over the last three school years, enrollment has declined approximately 1% each year, falling from 62,353 students as of the District's count day in 2021 to 59,677 in 2024. This trend mirrors national and state trends of declining birth rates, but Washoe County's lack of affordable housing has further exacerbated a decline in family sizes, resulting in fewer school-aged children per household.

Financial Controls and Budget Process

The internal controls employed by the District are designed to provide reasonable assurance that assets will be safeguarded against loss from unauthorized use or disposition, and that financial records will be reliable for use in preparing financial statements and determining accountability for assets. The accounting system provides controls to assure compliance with the budget. Budgetary control is maintained at the functional level. Budgetary control is further enhanced through the use of encumbrance accounting.

State statutes require school districts to submit a tentative budget for the ensuing fiscal year to the Nevada Department of Taxation by April 15. The Department of Taxation notifies the District whether or not the budget is in compliance with the law and related regulations. The District must adopt a final budget no later than June 8, which is then filed with the Department of Taxation. State statutes also allow for local government entities to file amended final budgets within 30 days of the end of a legislative session to account for the impacts of new laws or budgetary changes made by the State.

In addition to the comprehensive internal control policies and procedures established and used by the Office of Business and Financial Services, the District has an Internal Audit Department which reports functionally to the Board of Trustees. The department has full and independent access to the Audit Committee of the Board of Trustees and is authorized to review all areas of the District with full, free, and unrestricted access to all activities, records, property, and personnel as may be required.

Long-Term Financial Planning

Long-term financial planning is a key aspect of the District's budgeting and capital planning process. As a part of its budget process, the District uses a four-year financial plan to model different economic and budget scenarios when preparing the annual budget and in the labor negotiations process. Due to its emphasis on priority based budgeting and multi-year planning, this fiscal year, the General Fund experienced a surplus of \$3.1 million. This is the seventh straight year that the General Fund's fund balance has increased. The unrestricted portion of the General Fund's fund balance as of June 30, 2025, represented 11.2 percent of actual expenses and transfers out, just shy of the target fund balance of 12.0 percent.

Because the District operates 103 schools, capital planning for the future remains a key focus of the District. In December 2023, the Board of Trustees approved a detailed Facilities Modernization Plan (FMP) that makes recommendations for the repair, upgrade and future state of each school and sets the course for future school projects over the next 15 years. The FMP calls for the consolidation of 8-12 schools in the future to modernized facilities in response to falling enrollment and underutilization of many current schools. The District has already rebuilt one elementary school and two middle schools over the last several years, and there are plans for multi-million-dollar modernization projects for four schools in the next two years. The District also submits a statutorily required five-year Capital Improvement Plan by August 1 of each year.

Major Initiatives

In 2024, the District embarked on a new strategic planning process after several interim strategic plans were adopted during and in the immediate aftermath of the COVID-19 pandemic. After a multi-month series of stakeholder meetings and Board reviews, the new strategic plan was adopted by the Board on June 13, 2024. Its primary aim is to align all stakeholders with a shared vision, common goals and unified direction for our district's educational efforts. The new strategic plan outlines five new goals: Strong Start for Every Child, Student Voice and Advocacy, Safety and Belonging, Academic Growth and Achievement, and Empowering All Learners for Their Future. The District regularly updates the Board on progress achieved against strategic plan goals and metrics.

During the 2024 legislative session, due to significant growth of State Education Fund revenues during last biennium, the State passed a budget that increased statewide funding for the K-12 education system by approximately \$1 billion per year. As a result, the District's General Fund revenues increased by \$108.5 million this fiscal year and weighted funding for At-Risk and English Learners also increased substantially. During this fiscal year's budget process, the Board allocated a portion of this funding to add 135 new positions, and more than 100 positions that were previously funded by grants or federal stimulus funding that would have been deleted were preserved and stabilized. The District has funded a new districtwide academic assessment system (iReady), placed an increased emphasis on the science of reading, has increased staffing and resources to combat chronic absenteeism and mental health challenges, and in 2025 also conducted a comprehensive organizational assessment of central office staffing and organizational structures to realign services.

As a result of these investments and efforts, the District has already seen recent, historic gains in academic performance. This fiscal year, English Language Arts proficiency levels, as measured by Smarter Balanced Assessment Consortium (SBAC) testing, showed an overall improvement for grades 3-8 of 3.4 percent (from 40.9 percent to 44.3 percent) and math proficiency increased overall by 2.7 percent. This was the largest one-year increase in the District's history. Separately, the State Department of Education also assigns 1- to 5-star ratings to all public schools. The number of 5-star elementary schools in the District doubled, and the number of 1-star elementary schools was reduced by 50 percent during the 2024-25 school year. District-wide at all school levels, 83 schools (71 percent) improved their index points compared to last year, with 47 schools (40 percent) improving by more than 10 points.

As mentioned above, the District's Facilities Modernization Plan was received and approved by the Board of Trustees in late 2023. The plan lays out a 15-year program of projects which will modernize every existing school within the district with a priority given to efficiency and equity. Separately, the District has funded and began implementation of a new, modern Enterprise Resource Planning (ERP) system in 2025. The ERP system encompasses both the District's accounting and human resources management systems. The target go-live date for the new ERP system is July 1, 2027.

Relevant Financial Policies

Key Financial Policies

In March 2018, the Board of Trustees approved major revisions to two existing Board policies related to finances, and adoption of a new policy regarding budgetary compliance and periodic financial reporting. These policies were updated and reaffirmed by the Board in February 2022. Key tenets of the District's financial policies include a target fund balance for the General Fund of 12% of total appropriations and a requirement for a structurally balanced budget for the General Fund.

Other Matters

The District's Amended Final Fiscal Year 2025-26 budget was approved by the Board in June 2025. Because of flat revenues, ongoing budgeted revenues were \$2.1 million less than ongoing expenditures, requiring use of the fund balance of the General Fund to cover the gap. On its unofficial count day in 2025, actual enrollment was slightly higher than budgeted, resulting in additional teacher positions being funded.

Awards and Acknowledgements

The Government Finance Officers Association of the United States and Canada (GFOA) awarded the Certificate of Achievement for Excellence in Financial Reporting to the District for its Annual Comprehensive Financial Report for the fiscal year ended June 30, 2024. This is the twenty-fifth year that the District has received this prestigious award. In order to be awarded a Certificate of Achievement, a governmental unit must publish an easily readable and efficiently organized Annual Comprehensive Financial Report. The report must satisfy both generally accepted accounting principles and applicable legal requirements. A Certificate of Achievement is valid for one year. We believe that our current ACFR continues to meet the Certificate of Achievement program requirements, and we are submitting it to GFOA to determine its eligibility for another certificate.

Prior to this award, the District only applied for the Association of School Business Officials International (ASBO) Certificate of Excellence in Financial Reporting award and received this award for eight consecutive years.

Washoe County School District received the Award for Outstanding Achievement in Popular Annual Financial Reporting (PAFR) from the Government Finance Officers Association of the United States and Canada (GFOA) for the fiscal year ended June 30, 2024, for the ninth consecutive year. The Award for Outstanding Achievement in Popular Annual Financial Reporting is a prestigious national award recognizing conformance with the highest standards for preparation of state and local government popular reports. To receive this award a governmental unit must publish a Popular Annual Financial Report, whose contents conform to program standards of creativity, presentation, understandability, and reader appeal. An award is valid for one year.

The preparation of this report on a timely basis was made possible through the dedicated services of the entire accounting staff of the Office of Business and Financial Services. Through their efforts, the report and its contents were compiled into an easily readable and efficiently organized document. Special thanks to the Board of Trustees for their direction and support provided in the planning and conducting of the financial operations of the District in a progressive and prudent manner.

Respectfully submitted,

*Washoe County
School District*

INDEPENDENT AUDITOR'S REPORT

Board of Trustees
Washoe County School District
Reno, Nevada

Report on the Audit of the Financial Statements***Opinions***

We have audited the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Washoe County School District, as of and for the year ended June 30, 2025, and the related notes to the financial statements, which collectively comprise Washoe County School District's basic financial statements as listed in the table of contents.

In our opinion, the accompanying financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Washoe County School District, as of June 30, 2025, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States (*Government Auditing Standards*). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Washoe County School District, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Emphasis of Matter

As discussed in Note 13 to the financial statements, the District implemented Governmental Accounting Standards Board (GASB) Statement No. 101, *Compensated Absences*. This resulted in a restatement of the beginning governmental activities net position of \$4,662,097. Our opinions are not modified with respect to this matter.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

(Continued)

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Washoe County School District's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and *Government Auditing Standards*, we

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Washoe County School District's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Washoe County School District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis, the Schedule of the District's Proportionate Share of the Net Pension Liability, the Schedule of District Contributions to Public Employees' Retirement System of the State of Nevada, the Schedule of Changes in the Net Other Postemployment Benefits Liability and Related Ratios, and the Schedule of District Contributions for Other Postemployment Benefits as listed in the table of contents, be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

(Continued)

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Washoe County School District's basic financial statements. The combining and individual fund statements and schedules for the year ended June 30, 2025 are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements for the year ended June 30, 2025 and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual fund statements and schedules for the year ended June 30, 2025 are fairly stated, in all material respects, in relation to the basic financial statements as a whole for the year ended June 30, 2025.

Other Information

Management is responsible for the other information included in the annual report. The other information comprises the introductory and statistical sections but does not include the basic financial statements and our auditor's report thereon. Our opinions on the basic financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated October 30, 2025 on our consideration of Washoe County School District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of Washoe County School District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Washoe County School District's internal control over financial reporting and compliance.

**Washoe County School District
MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE FISCAL YEAR ENDED JUNE 30, 2025**

The management of the Washoe County School District (the District) offers the readers of the District's financial statements this narrative overview and analysis of the financial activities of the District for the fiscal year ended June 30, 2025. This narrative should be read in conjunction with the transmittal letter presented in the introductory section of this report and the financial statements and notes following this section to enhance the understanding of the financial information presented.

FINANCIAL HIGHLIGHTS

- The General Fund had a surplus of \$3,076,816, as the amount of revenues exceeded expenditures and other uses. This is the seventh consecutive year that the General Fund has ended the fiscal year with a surplus. The primary reason for this year's surplus is higher-than-expected revenues, primarily investment income and base per-pupil state funding.
- As a result, the General Fund's total ending fund balance as of June 30, 2025, was \$74.159 million. The unrestricted portion of the fund balance (\$72.326 million) represents 10.4% of total actual expenditures and transfers out, just shy of the District's fund balance target of 12.0%.
- The District has continued to invest in modernizing its older facilities in accordance with its Facilities Modernization Plan (FMP). Outstanding general obligation debt increased by a net of \$148.198 million. The additional debt issued in FY25 will be used to fund construction of a new Stead Elementary School, a rebuild of the District's Central Transportation Yard, the modernizations of Reed High School and Mathews Elementary School, and demolition of the old Vaughn Middle School.

OVERVIEW OF THE FINANCIAL STATEMENTS

This discussion and analysis are intended to serve as an introduction to the District's basic financial statements. The basic financial statements are comprised of three components: government-wide financial statements, fund financial statements, and the notes to the basic financial statements. Additionally, supplemental information to the financial statements is contained in this report.

Government-Wide Financial Statements

The *government-wide financial statements* are designed to provide an overview of the District's finances in a manner similar to a private-sector business.

The *Statement of Net Position* presents information on all the District's assets, deferred outflows of resources, liabilities, and deferred inflows of resources with the net difference reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the District is improving or deteriorating.

The *Statement of Activities* presents information showing how the District's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of the related cash flows. Thus, revenues and expenses are reported in the statement for some items that will only result in cash flows in future fiscal periods.

Both government-wide financial statements distinguish functions that are supported by taxes and intergovernmental revenues (*governmental activities*) from other functions that are intended to

**Washoe County School District
MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE FISCAL YEAR ENDED JUNE 30, 2025**

recover all or a significant portion of their costs through user fees and charges (*business-type activities*).

Fund Financial Statements

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The District, like other government agencies, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. The District's funds can be divided into three categories: governmental funds, proprietary funds and fiduciary funds.

Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide statements described above. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements. To provide a better understanding of the relationship between the fund statements and the government-wide statements, both the governmental funds balance sheet and governmental funds statement of revenues, expenditures and changes in fund balance provide reconciliations between the two statement types.

The focus of the governmental fund statements is on major funds. A fund may qualify as a major fund if the revenues or expenditures, assets or liabilities meet specific criteria when compared to similar funds or the government as a whole. In addition, the District may elect to report funds as major even when they do not meet the criteria, for purposes of public interest.

The District has 53 individual governmental funds, of which five qualify as major funds: the General Fund, Debt Service Fund, the 2024A Extended Bond Rollover Fund, the 2024B Extended Bond Rollover Fund, and the 2025A WC-1 Bond Fund. The District has also chosen to categorize two additional funds as major funds: the WC-1 Sales Tax Revenue Fund and Special Education Fund. These funds are disclosed separately in the governmental funds balance sheet and in the governmental funds statement of revenues, expenditures and changes in fund balance. The remaining 48 non-major governmental funds are combined into a single aggregated presentation in these statements. Individual fund data for each of the non-major funds is reported in combining statements in the supplementary information section of this report.

In accordance with state statutes, the District adopts an annual appropriation budget for each of its governmental funds and makes amendments to that budget periodically. A budgetary comparison is provided for each of the District's governmental funds to demonstrate compliance with the budget and is included in the fund financial statements.

Proprietary funds are comprised of enterprise funds and internal service funds. Enterprise funds are used to report an activity where a fee is charged to external users. The District's sole enterprise fund, the Nutrition Services Enterprise Fund, is used to account for the nutrition services operation of the District. Internal service funds are used to accumulate and allocate costs internally among the District's various programs and functions. The District uses three internal service funds to account for its self-insurance of property and casualty, employees' health care and workers' compensation. Because internal service fund operations primarily benefit governmental funds, they are included in the governmental activities column in the government-wide statements.

The proprietary fund financial statements present all three internal service funds in a single, aggregated column along with the enterprise fund in a separate column. Individual fund data for

**Washoe County School District
MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE FISCAL YEAR ENDED JUNE 30, 2025**

the internal service funds and the enterprise fund is provided in the combining statements in the supplementary information section of this report.

Fiduciary funds account for resources held for other governments or individuals outside of the District. As their resources do not support District activities, they are not included in the government-wide statements. The District has two custodial funds: the Nevada Interscholastic Athletic Association Fund for all school districts in Nevada, and the Education Alliance 501(c) Fund, which was recategorized this year from a special revenue fund to be a fiduciary fund. Additionally, the District has two trust funds: the Private Purpose Scholarship Trust Fund and the Other Postemployment Benefits (OPEB) Trust Fund. Additional information on the OPEB Trust Fund can be found in the separate audited financial statements prepared for the OPEB Trust Fund.

Notes to the Financial Statements

The notes provide descriptions of the accounting and finance-related policies underlying amounts in the financial statements, more details about or explanations of amounts in the financial statements, and additional information necessary to understand the District's activities.

Required Supplementary Information

The required supplementary information provides four schedules related to pension liabilities, OPEB liabilities and District contributions towards each. These schedules are the Schedule of the District's Proportionate Share of the Net Pension Liability, the Schedule of the District Contributions to the Public Employees' Retirement System of the State of Nevada, the Schedule of Changes in Net Other Postemployment Benefits Liability and Related Ratios, and the Schedule of District Contributions for Other Postemployment Benefits.

Other

Supplementary information, including combining and individual fund statements and schedules providing budget to actual comparisons, is presented after the government-wide financial statements. These schedules test compliance with budgetary constraints and management directives to enhance accountability at the fund and function level. In addition, unaudited statistical information is provided on a ten-year basis, as available, for trend analysis and to provide a historical perspective.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

To enhance analysis, comparative information is provided for assets, deferred outflows of resources, liabilities, deferred inflows of resources, net position, revenues and expenses, a comparative summarized statement of net position is presented in the following table.

**Washoe County School District

Total net position	\$ (26,615,477)	\$ (97,125,652)	\$ 10,130,919	\$ 6,592,218	\$ (16,484,558)	\$ (90,533,434)

For more detailed information see the government-wide statement of net position and the notes to the financial statements.

Net position

The District's total assets and deferred outflows are less than the total liabilities and deferred inflows by \$16.485 million as of June 30, 2025. The net position increased by \$74.049 million from the prior year. There are many changes within the funds that impact the net position, the most significant of which are noted below:

- The largest factor contributing to the increase of the net position is the District's capital assets, with a net value of \$1.577 billion, which increased by \$155.950 million over the prior year. These positive changes are partially offset by the \$148.198 million increase in General Obligation Debt.
- Cash and investments, a component of current and other assets, increased by \$119.499 million. This was offset by a \$51.687 million decrease in receivables from other governments, due to the timing of distributions from the state and federal government, so that total current assets increased by \$70.089 million.
- Long-term liabilities increased by \$170.535 million due primarily to an increase of \$145.880 million for bonds payable and an increase to net pension liabilities of \$34.395 million. These costs were partially offset by decreases of \$6.684 million of Other Post-Employment Benefits (OPEB) liability, \$1.856 million in long term claims, and other sundry changes.

Overall, the District's net position is -\$16.485 million, but this is due to the recording of \$948.630 million of long-term pension liabilities. Even though the District's pension costs will be paid over many years, Generally Accepted Accounting Principles (GAAP) require the computation and reporting of these liabilities. The same is true for the District's long-term debt of \$1.325 billion, which will be paid over the next 30 years.

For more detailed information see the government-wide statement of net position and the notes to the financial statements.

Revenues and expenses of the District are depicted by type of activity in the above table. Total revenues decreased by \$11.532 million. This was primarily due to a decrease of \$38.764 million in operating grants and contributions, which is largely a reflection of the District's drawdown on its allocation of pandemic-related federal stimulus funding. State aid, primarily base per-pupil funding from the State, increased by \$19.954 million.

Total expenses decreased by \$36.262 million. There are two primary drivers of this reduction. The first is a decrease of \$14.356 million in business-type activities, which reflects decreased costs for the nutrition services program, while governmental activities showed an decrease in expenses of \$21.906 million. These changes are explained in later sections.

Revenues

Overall, total revenues for Governmental Activities decreased \$11.523 million compared to last fiscal year. Operating grants and contributions decreased \$38.764 million, as the District has spent down almost all of its remaining allocation of federal stimulus funding, which is known as Elementary and Secondary School Emergency Relief (ESSER). The District's total allocation, which it began receiving in 2020-21, was \$121.577 million. In FY24, the District received \$42.347 million of ESSER funding as reimbursement of expenses, while in FY25, it received \$9.493 million.

At the same time, State aid to the District increased by \$19.955 million. This consists almost entirely of adjusted base per-pupil funding received by the District from the State Education Fund. Base per-pupil funding is recorded in the General Fund and is used to pay for the general education of all students. The District also receives "weighted funding" in the categories of English Learners, At-Risk, and Gifted and Talented to support additional programs for these students, as well as Special Education funding.

Other major revenue sources consist of:

- The District receives property tax revenues from the County Treasurer attributable to the \$0.3885 debt rate assessed in Washoe County. These revenues increased \$5.026 million, or 5.9%.
- WC-1 sales tax revenue increased by \$1.420 million, from \$65.027 to \$66.446 million or 2.2%. This tax is imposed on sales of tangible personal property in Washoe County at a rate of 0.54 percent to fund capital projects for the Washoe County School District.
- Investment earnings of all governmental funds increased \$7.017 million, due to the investment of the District's cash in longer-term securities at higher yields.

Expenses

Total governmental expenses decreased from the prior fiscal year by \$21.906 million, or 2.2%.

Instruction expenses accounted for \$575.294 million, or 59.3% of all governmental expenses, with 74.2% of instruction dollars spent for regular and special instruction.

The remaining \$394.491 million, or 40.7%, of governmental expenses were used to support the students and instructional staff and operate and maintain the District. The largest support expenses were operation and maintenance totaling \$120.408 million, or 12.4% of all expenses; central services of \$51.973 million, or 5.4%; student support of \$54.546 million, or 5.6%; school administration totaling \$47.990 million, or 5.0%; and interest on long-term debt of \$47.811 million, or 4.9%.

Business-type activities

The Nutrition Services Enterprise Fund is the District's sole business-type activity. The fund's net position as of June 30, 2025, was \$10.131 million, an improvement of \$3.539 million over last fiscal year.

In FY25, the federal government discontinued funding of universal free meals at schools, which it had begun after the COVID-19 pandemic. This change, which necessitated going back to charging students for breakfast and lunch unless they met federal income levels to qualify for free

**Washoe County School District
MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE FISCAL YEAR ENDED JUNE 30, 2025**

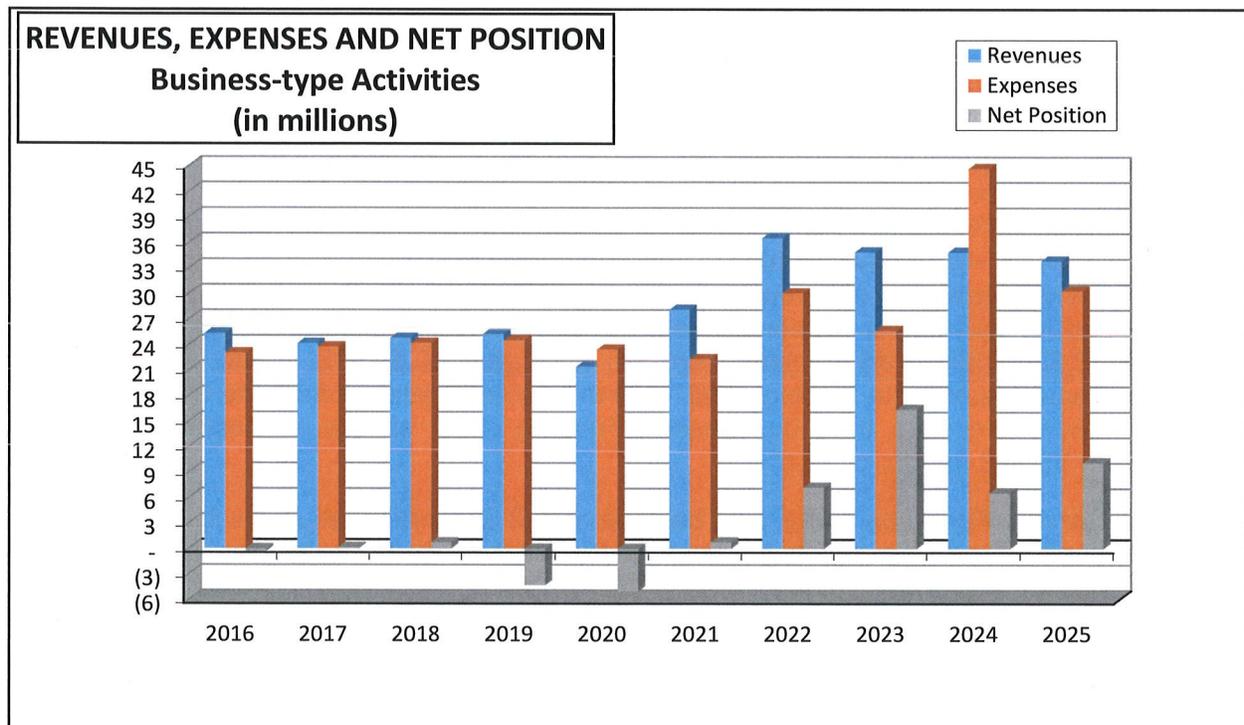

The Nutrition Services Enterprise Fund is the District's sole business-type activity. The fund's net position as of June 30, 2025, was \$10.131 million, an improvement of \$3.539 million over last fiscal year.

In FY25, the federal government discontinued funding of universal free meals at schools, which it had begun after the COVID-19 pandemic. This change, which necessitated going back to charging students for breakfast and lunch unless they met federal income levels to qualify for free or reduced meals, greatly impacted operations and financial performance. With the end of universal free meals, the District saw a decrease in the number of total meals served from 8.307 million meals in FY24 (46,931 daily average) to 7.238 million meals served in FY25 (38,917 daily average).

As a result of reduced federal meal subsidies and the overall decrease in meals served, total revenues for this fund decreased from the prior year by \$0.995 million. Meal charges (i.e., for meals to students not qualifying for free and reduced lunch) increased by \$3.906 million but that was offset partially by a decrease in federal reimbursements. A one-time state grant of \$1.917 million in FY24, which was not duplicated in FY25, also accounts for reduced enterprise fund revenues in FY25.

Total expenses of the fund decreased \$14.355 million in FY25. Costs for food and supplies decreased by \$2.376 million to \$14.460 million, which reflects a reduction in food quantities ordered due to lower meal participation in FY25. The other reason for the decrease in expenses relates to the calculation of the fund's proportionate share of the District's net pension liability. During the year ended June 30, 2024, the District calculated the Nutrition Services Fund's long-term pension liability to be \$13.094 million, an increase of \$9.166 million. After accounting for deferred outflows of resources and deferred inflows of resources, the fund's long-term pension expense for the year ended June 30, 2025 decreased \$3.197 million.

A ten-year history of fund activity follows:

**Washoe County School District
MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE FISCAL YEAR ENDED JUNE 30, 2025**

FINANCIAL ANALYSIS OF THE DISTRICT'S MAJOR FUNDS

The Washoe County School District uses fund accounting and budgetary integration to ensure and demonstrate compliance with finance-related legal requirements.

Governmental funds. The focus of the Washoe County School District's governmental funds is to provide information on current inflows, outflows, and balances of spendable resources. Such information is useful in assessing the District's current funding requirements. Unassigned fund balance may serve as a useful measure of net resources available for spending at the end of the fiscal year.

The District's governmental funds reported combined ending fund balances of \$690.100 million, an increase of \$69.196 million from the prior year.

General Fund. As of June 30, 2025, the total fund balance was \$74.159 million, compared to \$71.082 million in the prior year; an increase of \$3.077 million. This is the seventh consecutive year the District has had a surplus, the result of effective multi-year budgeting efforts to prevent deficit spending. As a gauge of the General Fund's liquidity and level of reserves, the District measures the unrestricted portion of total fund balance to total fund expenditures and transfers out. This year's total unrestricted fund balance of \$72.326 million represents 11.2% of total fund expenditures and transfers out.

Listed below are the key factors in fund balance changes during the fiscal year.

- Total General Fund revenues increased from \$633.199 million to \$651.072 million, an increase of \$17.873 million, or 2.8%. While the District's base per-pupil amount increased 5.0% from \$9,243 to \$9,705 per pupil, this was offset by a decrease in enrollment of more than 800 students.
- Total expenditures of \$554.775 million increased from the prior year by \$21.100 million, or 3.95%. The increased expenditures were mainly due to cost of living increases and merit increases for employees, most of which were funded by the General Fund.
- The excess of revenues over expenditures was \$96.297 million. However, transfers out to other funds were \$93.300 million, including a transfer of \$80.661 million to the Special Education Fund.

The Special Education Fund accounts for resources (state-aid and transfers from the General Fund) used to provide special education to eligible students. In 1993, the Nevada State Legislature enacted legislation that requires the special education program (previously accounted for in the General Fund) to be accounted for in a separate special revenue fund. Although reported separately, any deficiencies of revenues under expenditures in the Special Education Fund are compensated for by transfer of monies from the General Fund. Resources and expenditures totaled \$118.138 million, an increase from the prior year of \$9.672 million, or 8.9%. Fund resources consisted of State funding of \$37.476 million and transfers from the General Fund of \$80.661 million. Transfers from the General Fund to cover special education expenditures increased by \$8.983 million, or 12.5%.

The Debt Service Fund has a total fund balance of \$88.533 million, all of which is restricted for the payment of debt service and capital projects. Pursuant to state law, the District must maintain a debt service fund balance of at least 25% of the amount of principal and interest payments due on all the outstanding general obligation debt within the next fiscal year. The statutorily required reserve amount for the fiscal year ended June 30, 2025, is \$30.241 million. The District's actual debt service fund balance is thus roughly 2.9 times the minimum amount required by law. The

**Washoe County School District
MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE FISCAL YEAR ENDED JUNE 30, 2025**

fund balance increased by \$8.485 million from the prior fiscal year. Total property taxes increased by \$5.026 million, and interest earnings increased by \$0.743 million.

The WC-1 Sales Tax Revenue Fund is used to account for capital projects paid for with funds generated by the November 2016 WC-1 ballot measure imposing a sales and use tax of 0.54% to fund capital projects for the acquisition, construction, repair, and renovation of school facilities. Monies received that exceed the amount needed for payment of debt service may be used for pay-as-you-go projects. Sales tax revenues from this source totaled \$69.610 million, a very small increase over the prior year. Expenditures of approximately \$51.851 million included partial funding of construction of the new Debbie Smith Career and Technical Education (CTE) High School, modernization of the Central Transportation Yard and design of a new elementary school at the current Pine Middle School site. The fund also transferred \$35.331 million for debt service payments to the Debt Service WC-1 Fund. The ending fund balance decreased by \$17.571 million, from \$75.469 million to \$57.898 million.

The 2024A Extended Bond Rollover Fund is used to account for bond proceeds of a \$130 million general obligation bond issued in May 2024. During FY25, expenditures of \$70.413 million included \$59.960 million for the rebuild of E. Otis Vaughn Middle School, \$4.381 million for information technology infrastructure projects at schools, and \$3.890 million of carpentry projects. The ending fund balance of \$72.805 million consists of unspent bond funds and investment income, which will be needed for completion of the above project in future years.

The 2024B Extended Bond Rollover Fund is used to account for bond proceeds of a general obligation bond issued in October 2024 in the amount of \$115.515 million. Projects to be funded by this bond include the construction of the new Stead Elementary School, improvements to the Getto Central Transportation Yard, the demolition of the old E. Otis Vaughn Middle School and furnishings and equipment for the new E. Otis Vaughn Middle School. During FY25, expenditures of approximately \$17.415 million included \$0.552 million to pay for underwriting fees and other costs of issuance and \$14.508 million for the construction of the new Stead Elementary School. The ending fund balance of \$97.839 million consists of unspent bond funds and investment income, which will be needed for completion of the above project in future years.

The 2025A WC-1 Bond Fund is used to account for bond proceeds of a general obligation bond that pledges future sales taxes for payment of debt service. This bond was issued in March 2025 in the amount of \$100.0 million. The proceeds of the bonds will be used primarily to finance the construction of the modernizations of Reed High School and Mathews Elementary School, and the design of various future modernization projects. During FY25, expenditures of approximately \$2.166 million consisted of \$1.076 million for payment of underwriting fees and other costs of issuance and \$1.090 million for construction of the modernization of Reed High School. The ending fund balance of \$101.358 million consists of unspent bond funds and investment income, which will be needed for completion of the above project in future years.

Proprietary funds. The proprietary fund financial statements provide the same type of information found in the government-wide financial statements, but in more detail.

The District's self-insured Property and Casualty, Health Insurance, and Workers' Compensation Internal Service Funds have a combined net position balance of \$38.1 million, an increase of \$2.6 million from the prior fiscal year.

The Property and Casualty Fund had an ending net position of \$6.564 million compared to \$4.281 million in the prior fiscal year. The \$2.283 million increase in the net position in the Property and

**Washoe County School District
MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE FISCAL YEAR ENDED JUNE 30, 2025**

Casualty Fund is primarily due to \$1.110 million of decreased claims and other costs and \$1.479 million of increased revenues.

The Health Insurance Fund had an ending net position of \$25.091 million compared to \$31.564 million in the prior fiscal year. The \$6.473 million decrease in net position for the Health Insurance Fund is attributable to a \$19.904 million increase of premiums and claims costs, which reflects increased utilization of services by active and retired members of the plan and rising medical costs. This was partially offset by increased revenues of \$12.181 million due to an increase in both the number of participants in the plan and health insurance rates.

The Workers' Compensation Fund had an ending net position of \$2.837 million compared to \$2.207 million in the prior year. The \$0.630 million increase in net position in the Worker's Compensation fund is primarily due to operating revenues exceeding budget by \$0.274 million, a reduction in claims and administrative costs of \$0.126 million compared to last fiscal year, and \$0.249 of investment earnings above budget.

The District's net position in both the Property and Casualty Fund and Workers Compensation funds provides for an actuarially sound level of reserves at more than a 75% confidence level.

GENERAL FUND COMPARISON TO ACTUAL RESULTS

In accordance with State statutes, the District adopts its original budget on or before June 8 of the prior fiscal year. During a legislative year, the District is allowed to adopt an amended final budget within 30 days of the legislative adjournment, which then becomes the original budget. The District is also required to amend the budget by January 1 of the fiscal year to reflect the first quarter average daily enrollment count. During the fiscal year, the Chief Financial Officer is authorized to transfer appropriations between accounts and funds, subject to subsequent approval by the Board of Trustees. The District may also augment the budget by a majority vote of the Board if anticipated additional resources become available during the fiscal year.

Original Budget Compared to Final Budget

The District augmented the FY25 General Fund budget on December 10, 2024 by \$10.397 million, to reflect an unbudgeted increase in beginning fund balance of \$4.059 million and an increase of \$6.338 million in anticipated per-pupil funding.

The District also adjusted the FY25 General Fund budget on June 6, 2025. There was a net increase to total expenditures of \$3.0 million from available beginning fund balance. This augmentation was to ensure compliance with relevant Nevada Revised Statutes and was approved by the Board of Trustees.

Final Budget Compared to Actual Results

Total actual revenues in the year ended on June 30, 2025 exceeded the Final Budget by \$6,624,539, or 1.0%. Within the category of local sources, investment earnings and unrealized investment gains exceeded the budget by \$4.260 million. State sources, consisting of State Education Fund revenues, were \$1.662 million greater than budgeted, as enrollment declines throughout the fiscal year were less than projected.

Total actual expenditures were 98.8% of budgeted revenues, resulting in a positive variance (expenditures were less than budgeted) of \$6.795 million. Actual salary and benefits were \$8.586 million less than budgeted. The District achieved salary savings during the fiscal year due

**Washoe County School District
MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE FISCAL YEAR ENDED JUNE 30, 2025**

to vacancies and turnover of personnel, but most District employees received cost-of-living salary increases of 2.0%, as well as receiving annual merit increases. Significant savings were achieved in purchased services (\$0.749 million) and supplies (\$4.724 million).

However, transfers out to other funds were \$5.382 million greater than budgeted, due to transfers to capital project funds for future textbook adoptions, bus purchases, and a new Enterprise Resource Planning (ERP) system for the District.

Overall, the General Fund's total sources exceeded uses by \$3.077 million, compared to a budgeted shortfall of \$4.990 million. The \$3.077 million surplus represents a relatively modest variance of 0.5% to total budgeted uses (combined expenditures and transfers out).

CAPITAL ASSETS

The District's investment in capital assets for its governmental and business-type activities as of June 30, 2025 amounts to \$1.571 billion (net of accumulated depreciation). This investment in capital assets includes land, buildings, improvements other than buildings, machinery and equipment, and construction in progress. Net capital assets increased during the current fiscal year by \$153.779 million.

	<u>2025</u>		<u>2024</u>		<u>Change</u>

DEBT ADMINISTRATION

The District's outstanding debt increased by a net amount of \$148.198 million during the current fiscal year. This is attributable to the issuance of \$210.515 million in long-term general obligation bond debt. Decreases resulted from \$62.317 million in debt principal payments.

WASHOE COUNTY SCHOOL DISTRICT OUTSTANDING DEBT

	<u>2025</u>	<u>2024</u>
General obligation bonds	\$ 1,390,020,000	\$ 1,239,740,000

fund balances of the two debt service funds were \$109.029 million, which as noted previously is well in excess of the statutorily required level of reserves of \$30.241 million.

In February 2025, Standard & Poor's and Moody's Investors Service affirmed their ratings of AA and Aa3, respectively, of the District's general obligation bonds.

Additional information on the District's long-term debt can be found in Note 6 of this report.

FUTURE CONSIDERATIONS AND NEXT YEAR'S BUDGET

The District's Board of Trustees approved an amended final budget for Fiscal Year 2025-26 on June 24, 2025. The District's combined budget, less interfund transfers, totaled \$1.408 billion. Due to flat increases in base per-pupil funding in FY26, combined with falling enrollment, the preliminary deficit of the General Fund at the start of the budget process was estimated to be \$9.67 million. The Board approved many budget reductions during the FY26 budget process, but at the end of the budget process, there remained a \$2.09 million shortfall between ongoing revenues and ongoing expenditures within the General Fund budget. This was covered by drawing down on the General Fund's fund balance.

The District continues to address falling enrollment in the District, which is caused by both demographic factors such as falling birth rates and construction of additional charter schools in the county. In September 2025, the Board of Trustees received a presentation on preliminary budget trends for the 2026-27 budget. Due both to decreasing enrollment and nominal increases in State funding in 2026-27, a preliminary deficit in the General Fund was projected at \$8.30 million. Additional measures to reduce this deficit will be presented later in the budget process.

REQUESTS FOR INFORMATION

**WASHOE COUNTY SCHOOL DISTRICT
RECONCILIATION OF THE GOVERNMENTAL FUNDS
BALANCE SHEET TO THE STATEMENT OF NET POSITION
JUNE 30, 2025**

Total fund balances for governmental funds		\$ 690,099,665
Amounts reported for governmental activities in the Statement of Net Position are different because:		
Capital assets used in governmental activities are not financial resources and therefore are not reported in the governmental funds.		
Land and construction in progress	\$ 231,534,893	
Capital assets subject to depreciation	2,001,958,597	
Less accumulated depreciation	<u>(662,789,972)</u>	
		1,570,703,518
Other deferred outflows used in governmental activities are not financial resources and therefore are not reported in the governmental funds.		
Deferred debt charges	26,773,084	
Less accumulated amortization	<u>(19,033,938)</u>	
		7,739,146
Deferred inflows and outflows of resources related to pension are applicable to future periods and, therefore, are not reported in the funds.		
Deferred outflows of resources related to pension	369,959,921	
Deferred inflows of resources related to pension	<u>(114,912,395)</u>	
		255,047,526
Deferred inflows and outflows of resources related to OPEB are applicable to future periods and, therefore, are not reported in the funds.		
Deferred outflows of resources related to OPEB	43,079,895	
Deferred inflows of resources related to OPEB	<u>(110,062,327)</u>	
		(66,982,432)
Long-term liabilities, including bonds payable and net pension liability are not due and payable in the current period and therefore are not reported in the governmental funds.		
General obligation bonds payable	(1,390,020,000)	
Bond premium	(154,644,729)	
Less accumulated amortization	50,738,545	
Other long-term debt payable	(2,630,000)	
Net pension liability	(935,337,650)	
Net OPEB liability	(27,135,267)	
Compensated absences	<u>(48,942,549)</u>	
		(2,507,971,650)
Interest payable		(9,793,476)
Internal service funds are used by management to charge the costs of certain activities to individual funds. Net position of the internal service funds are reported with governmental activities.		
		<u>34,542,226</u>
Total net position of governmental activities		<u><u>\$ (26,615,477)</u></u>

The notes to the financial statements are an integral part of this statement.

**WASHOE COUNTY SCHOOL DISTRICT
RECONCILIATION OF THE GOVERNMENTAL FUNDS STATEMENT OF REVENUES, EXPENDITURES
AND CHANGES IN FUND BALANCE TO THE STATEMENT OF ACTIVITIES
YEAR ENDING JUNE 30, 2025**

Net change in fund balances - governmental funds	\$	69,195,724
Amounts reported for governmental activities in the Statement of Activities are different because:		
Capital outlays to purchase or build capital assets are reported in governmental funds as expenditures. However, for governmental activities those costs are shown in the Statement of Net Position and allocated over their estimated useful lives as annual depreciation expenses in the Statement of Activities.		
Expenditures for capital assets	\$ 219,785,813	
Less current year depreciation	<u>(65,776,510)</u>	154,009,303
Loss on disposal of assets reported on Statement of Activities differs from the amount reported in the governmental funds due to capital assets not being reported in governmental funds.		(230,465)
Interest on long-term debt in the Statement of Activities differs from the amount reported in the governmental funds because interest is recorded as an expenditure in the funds when it is due and thus requires current financial resources. In the Statement of Activities, however, interest expense is recognized as the interest accrues, regardless of when it is due.		(3,100,408)
Issuance of long-term debt (e.g. refunding debt) provides current financial resources to the governmental funds, while the repayment of the principal consumes the current financial resources of governmental funds.		
Bonds issued	(210,515,000)	
Bond premium issued	(3,641,655)	
Bond premium amortization	7,313,145	
Payment of principal	<u>62,317,000</u>	(144,526,508)
Some expenses reported in the Statement of Activities do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds. Conversely, some expenses reported in the Statement of Activities last year are reported as expenditures in the governmental funds this year.		
Change in long-term compensated absences	(3,425,274)	
Change in other postemployment benefits net liability	<u>11,458,590</u>	8,033,316
District pension contributions are reported as expenditures in the governmental funds when made. However, they are reported as deferred outflows of resources in the Statement of Net Position because the reported net pension liability is measured a year before the District's report date. Pension expense, which is the change in the net pension liability adjusted for changes in deferred outflows and inflows of resources related to pensions, is reported in the Statement of Activities.		
Pension expense	<u>(4,699,298)</u>	(4,699,298)
Internal service funds are used by management to charge the costs of certain insurance activities to individual funds. The change in net position of the internal service funds is reported with governmental activities.		<u>(3,509,391)</u>
Change in net position of governmental activities	\$	<u><u>75,172,275</u></u>

The notes to the financial statements are an integral part of this statement.

School District**

**WASHOE COUNTY SCHOOL DISTRICT
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2025**

NOTE 1 – Summary of Significant Accounting Policies:

The accompanying financial statements of the Washoe County School District, Washoe County, Nevada (the "District") have been prepared in accordance with accounting principles generally accepted in the United States of America (GAAP), as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the standard-setting body for governmental accounting and financial reporting. The GASB periodically updates its codification of existing Government and Financial Reporting Standards which, along with subsequent GASB pronouncements (Statements and Interpretations), constitutes GAAP for governmental units.

Reporting Entity:

The District is organized under terms of legislation enacted in 1956 creating the countywide school districts. The governing board consists of seven members elected by the voters in the district for four-year terms and has authority to adopt and administer budgets. The District receives funding from Local, State, and Federal government sources and must comply with the related requirements of these funding source entities. However, the District is not included in any other governmental "reporting entity," since trustees are elected by the public, it is a legally separate government and it is fiscally independent of any other governmental entity. In addition, the District is not financially accountable for any other entity.

Basic Financial Statements – Government-Wide Statements:

The basic financial statements include both government-wide (based on the District as a whole) and fund financial statements. The reporting focus is on either the District as a whole or major individual funds and nonmajor funds in the aggregate (within the fund financial statements).

The government-wide financial statements (the Statement of Net Position and the Statement of Activities) report information on all of the nonfiduciary activities of the District. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support. For the most part, the effect of interfund activity has been removed from these statements. Interfund activities relating to services provided and used between functions are not eliminated. Elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

In the government-wide Statement of Net Position, the consolidated financial position of the District is presented at year-end, in separate columns, for both governmental and business-type activities, and is reflected on a full accrual, economic resource basis that recognizes all long-term assets and receivables as well as long-term debt and obligations. The District's net position is reported in three parts – net investment in capital assets; restricted net position; and unrestricted net position. The District first utilizes restricted resources to finance qualifying activities, then unrestricted resources, as they are needed.

The government-wide Statement of Activities reports both the gross and net cost of each of the District's functions. The functions are also supported by the general revenues (Ad Valorem taxes, State Education Fund revenues, Sales Tax, Government Services Tax and interest income not legally restricted for specific programs, etc.). The Statement of Activities reduces gross expenses (including depreciation) by related program revenues and operating grants. Program revenues include charges for services, operating grants and contributions,

**WASHOE COUNTY SCHOOL DISTRICT
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2025**

capital grants and contributions, and investment earnings legally restricted to support a specific program. Program revenue must be directly associated with the function. Operating grants include operating-specific and discretionary grants. The net costs (by function) are normally covered by general revenue.

Basic Financial Statements – Fund Financial Statements:

The financial transactions of the District are reported in individual funds in the fund financial statements. Each fund is accounted for by providing a separate set of self-balancing accounts that comprise its assets, liabilities, deferred outflows of resources, deferred inflows of resources, fund equity, revenues and expenditures/expenses. District resources are allocated to and accounted for in individual funds based upon the purposes for which they are intended and the means by which spending activities are controlled. Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements.

The emphasis in the fund financial statements is on the major funds in the governmental and business-type activity categories. Nonmajor governmental funds are summarized into a single column. GASB Statement No. 34 *Basic Financial Statements—and Management's Discussion and Analysis—for State and Local Governments* sets forth criteria for the determination of major funds. District management may electively add funds as major funds when it is determined the funds have specific community or management focus. Major individual governmental and business-type funds are reported as separate columns in the fund financial statements.

The focus of the governmental funds' measurement in the fund statements is upon determination of financial position and changes in financial position (sources, uses, and balances of financial resources) rather than upon net income.

The focus for proprietary fund measurement is upon determination of operating income, changes in net position, financial position, and cash flows. Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses. The generally accepted accounting principles applicable are those similar to businesses in the private sector.

The District's internal service funds are presented in the proprietary fund's financial statements. Because the principal users of the internal services are the District's governmental activities, the financial statements of the internal service funds are consolidated into the governmental column when presented in the government-wide financial statements. To the extent possible, the costs of these services are reported in the appropriate functional activity.

The District's fiduciary funds are presented in the fiduciary fund financial statements by type. Since, by definition, these assets are held for the benefit of third parties and cannot be used to address activities or obligations of the District, these funds are not incorporated into the government-wide statements.

**WASHOE COUNTY SCHOOL DISTRICT
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2025**

The District uses the following funds:

Major Funds:

Governmental Funds:

- **General Fund** – The General Fund is the general operating fund of the District and accounts for all revenues and expenditures of the District not encompassed within other funds. All general tax revenues and other receipts that are not allocated by law or contractual agreement to some other fund are accounted for in this fund. General operating expenditures and the capital improvement costs that are not paid through other funds are paid from the General Fund.
- **2025A WC-1 G.O. Bonds Fund** – The 2025A WC-1 G.O. Bonds Fund is a capital projects fund which accounts for the proceeds of this related bond issuance. The proceeds are being used for school design, site acquisitions planning and school construction.
- **WC-1 Sales Tax Revenue Fund** – The WC-1 Sales Tax Revenue Capital Projects Fund accounts for the resources accumulated from the sales tax increase approved by the voters of Washoe County in 2016 to be used for school construction and improvement.
- **Special Education Fund** – The Special Education Fund is a special revenue fund which accounts for transactions of the District relating to educational services provided to children with special needs supported by state and local sources. The revenues of the fund consist of distributions from the State Education Fund. Expenses not covered by the State are covered by a transfer from the General Fund.
- **Debt Service Fund** – The Debt Service Fund accounts for the resources accumulated and payments made for principal and interest on long-term general obligation debt and other debt of governmental activities other than those reported in the Debt Service – WC1 Fund.
- **2024A Extended Bond Rollover Fund** – The 2024A Extended Bond Rollover Fund is a capital projects fund which accounts for the proceeds of this related bond issuance. The proceeds are being used for school design, site acquisitions planning and school construction.
- **2024B Extended Bond Rollover Fund** – The 2024B Extended Bond Rollover Fund is a capital projects fund which accounts for the proceeds of this related bond issuance. The proceeds are being used for school design, site acquisitions planning and school construction.

Proprietary Funds:

- **Enterprise Fund** – The District’s sole enterprise fund, the Nutrition Services Enterprise Fund, is used to account for the nutrition services operation of the District.

**WASHOE COUNTY SCHOOL DISTRICT
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2025**

Additionally, the District reports the following fund types:

Internal Service Funds:

- The Internal Service Funds account for the financing of services provided by one department to other departments of the District on a cost-reimbursement basis. Currently, there are three District Internal Service Funds:

Property and Casualty – accounts for self-insurance claims and fees to provide property and liability insurance.

Health Insurance – accounts for the self-funded health plan and other contractual insurance plans such as vision, dental and life insurance.

Workers' Compensation – accounts for the self-insurance claims and fees to provide workers' compensation.

Fiduciary Funds:

- **Private Purpose Scholarship Trust Fund** – accounts for resources legally held in trust for use for scholarships.
- **Other Post-employment Benefits Trust Fund** – accounts for investments held in an irrevocable trust, to be used for providing the benefits agreed to in connection with the District's Other Post-employment Benefits plan.
- **Custodial Funds** – account for funds held in custody by the District for the Nevada Interscholastic Athletic Association or the Education Alliance 501(c)3.

Measurement Focus/Basis of Accounting:

The measurement focus describes the types of transactions and events that are reported in a fund's operating statement. Basis of accounting refers to the point at which revenues or expenditures/expenses are recognized and reported in the financial statements. Basis of accounting relates to the timing of the measurements made, regardless of the measurement focus applied.

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund and fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of the related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue when all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized when they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers property tax revenues to be available if they are collected within 60 days of the end of the current fiscal period, all grant and remaining non-grant revenues to be available if they are collected within 80 days of the

**WASHOE COUNTY SCHOOL DISTRICT
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2025**

end of the current fiscal period. When revenues are due but will not be collected within the availability period, the receivable is recorded and an offsetting deferred inflow of resources account is established. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Most major sources of revenue reported in governmental funds are susceptible to accrual under the modified accrual basis of accounting. Below is a summary of revenue recognition policies for all major revenue sources.

Type of Revenue	Accrued When Measurable and Available	Recognized When Received	Accrued When Earned
AD VALOREM TAXES	X		
GOVERNMENT SERVICES TAXES	X		
WC-1 SALES TAX REVENUES	X		
PUPIL-CENTERED FUNDING PLAN (STATE REVENUE)	X		
INTEREST			X
GRANTS-IN-AID	X		
MISCELLANEOUS REVENUE		X	

Proprietary Funds:

Proprietary Funds are accounted for on a flow of economic resources measurement focus and use the accrual basis of accounting. Under this method, revenues are recorded when earned and expenses are recorded at the time liabilities are incurred. Accrued liabilities include provisions for claims reported and claims incurred, but not reported. The provision for reported claims is determined by estimating the amount which will ultimately be paid. The provision for claims incurred but not yet reported is estimated based on District experience since the inception of the program.

Fiduciary Funds:

The accounting records for the Other Post-employment Benefits Trust Fund, Private Purpose Scholarship Trust Fund, and Custodial Funds, and they are maintained on the economic resources measurement focus and accrual basis of accounting.

Budgets and Budgetary Accounting:

The District follows these procedures in establishing the budgetary data reflected in the financial statements:

- (1) Prior to April 15, the Superintendent submits to the Board of Trustees and to both the Nevada Department of Taxation and Department of Education, a tentative budget for the fiscal year commencing the following July 1. The tentative budget includes proposed expenditures and the means of financing them.

**WASHOE COUNTY SCHOOL DISTRICT
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2025**

- (2) Prior to the third Wednesday in May, a minimum of seven days' notice of public hearing on the final budget is published in a local newspaper. Public hearings are conducted prior to the adoption of the budget to obtain taxpayer comments.
- (3) On or before June 8, the budget is legally adopted by a majority vote of the Board of Trustees.
- (4) On or before January 1, the Board of Trustees adopts an amended final budget reflecting any adjustments necessary as a result of the complete count of students.
- (5) NRS provides that the Board of Trustees may augment the budget for a fund that receives property tax revenues at any time by a majority vote of the Board provided the Board publishes notice of intention to act, in a newspaper of general circulation in the county at least three days before the date set for adoption of the resolution. Augmentations of other funds require that the governing body adopt a resolution by majority vote at a regular meeting and submit the resolution to the Nevada Department of Taxation.
- (6) The legal level of budgetary control is at the function level for the General Fund, Special Revenue Funds and Capital Projects Funds, and the sum of operating and non-operating expenses in the Enterprise and Internal Service Funds. State statute does not require that debt service payments be limited by the budget.
- (7) The Chief Financial Officer is authorized to transfer appropriations within functions without Board of Trustee's approval and between functions or programs within a fund if amounts do not exceed the original budget. The Board of Trustees is advised of the transfer and the transfer is recorded in the minutes. The Board of Trustees' approval is required for transfers of appropriations between funds or from the contingency account.
- (8) Formal budgetary integration is employed as a management control device for the General Fund, Special Revenue Funds, Debt Service Fund, Enterprise Fund, Internal Service Funds and Capital Projects Funds. Such funds have legally adopted annual budgets which lapse at year-end. The ensuing year's budget is augmented to provide for the payment of prior year encumbrances. The prior year encumbrances, where applicable, have been included in the Original Budget column of the financial statements.
- (9) All budgets are adopted on a basis consistent with accounting principles generally accepted in the United States of America for all funds except for the Private Purpose Scholarship Trust Fund and Custodial Funds, which do not require budgets.

All budgets presented in the accompanying supplementary information reflect the original budget and final budget (which has been adjusted for legally authorized revisions of the annual budgets during the year). Appropriations, except encumbrances and unexpended grant appropriations, lapse at the end of each fiscal year.

**WASHOE COUNTY SCHOOL DISTRICT
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2025**

Cash and Investments:

Cash balances from all funds are combined and, to the extent practicable, invested as permitted by law. The District uses a registered investment advisor to invest pooled monies on a discretionary basis. The District also has deposited a portion of the Workers Compensation cash balance in the State of Nevada Local Government Investment Pool (LGIP). Interest earned on investments is allocated to certain funds pursuant to Nevada Revised Statutes.

Investments are recorded at fair value in accordance with GASB Statement No. 72, *Fair Value Measurements and Application*. Accordingly, the change in fair value of investments is recognized as an increase or decrease to investment assets and investment income.

Pursuant to NRS 355.170, 355.171 and 355.175, the District may invest in the following types of securities:

- United States bonds and debentures maturing within ten (10) years from the date of purchase.
- Certain farm loan bonds.
- Securities of the United States Treasury, United States Postal Service, or the Federal National Mortgage Association maturing within ten (10) years from the date of purchase.
- Negotiable certificates of deposit from commercial banks and insured savings and loan associations, and credit unions.
- Certain securities issued by local governments of the State of Nevada.
- Certain bankers' acceptances, commercial paper issued by a corporation organized and operating in the United States, and money market mutual funds.
- Certain obligations of state and local governments.
- State of Nevada Local Government Investment Pool.
- Certain "AAA" rated mutual funds that invest in federal securities.
- Corporate notes or bonds maturing within five (5) years from the date of purchase.
- Collateralized mortgage obligations.
- Asset-backed securities.
- Other securities expressly provided by other statutes, including repurchase agreements and collateralized investment contracts.

**WASHOE COUNTY SCHOOL DISTRICT
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2025**

Statements of Cash Flows:

For purposes of the statements of cash flows, the District considers all short-term highly liquid instruments purchased with an original maturity of three months or less to be cash equivalents.

Inventories:

Inventories for the General Fund, the Government Tax Services Fund, and the Nutrition Services Enterprise Fund are maintained on a consumption basis of accounting, where items are purchased for inventory and charged to the budgetary accounts as the items are consumed. Inventories are stated at cost for the General Fund and Government Tax Services Fund, and the lower of cost or market for the Nutrition Services Enterprise Fund, except for inventories of commodities which are stated at fair value, using the first-in, first-out (FIFO) method of valuation.

Capital Assets:

Capital assets, including land, buildings, machinery and equipment, are reported in the government-wide financial statements. The District defines capital assets as assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of one year. If purchased or constructed, all capital assets are recorded at historical cost or estimated historical cost. Donated capital assets are valued at their acquisition value as of the date of donation. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend the assets' lives are not capitalized. Major outlays for capital assets and improvements are capitalized as projects are constructed.

Capital assets are depreciated using the straight-line method over the following estimated useful lives:

	<u>Years</u>
Building/Land Improvements	7 - 50
Vehicles/Buses	8 - 10
Machinery and Equipment	5 - 20

Receivables:

Receivables represent amounts due to the District at June 30, which will be collected sometime in the future. In the government-wide financial statements, a corresponding amount is recorded as revenue. In the governmental fund financial statements, the portions considered "available" (i.e., received by the District within approximately 80 days after year-end) are recorded as revenue; the remainder is recorded as deferred inflows of resources, unavailable revenue. Receivables in proprietary fund types have arisen in the ordinary course of business.

Allowance for Uncollectible Receivables:

The District has not established an allowance for uncollectible receivables since prior experience has shown that uncollectible receivables are not significant.

**WASHOE COUNTY SCHOOL DISTRICT
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2025**

Accrued Liabilities:

Accrued liabilities consist principally of teacher, administrator, and other District employee salaries and benefits relating to the school program year ended June 30, 2025, but not yet paid.

Pensions:

For purposes of measuring the net pension liability and pension expense, information about the fiduciary net position of the Public Employees' Retirement System of the State of Nevada (PERS) Base Plan (Base Plan) and additions to/deductions from Base Plan's fiduciary net position have been determined on the same basis as they are reported by the Base Plan. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Other Post-Employment Benefits (OPEB):

The District provides other post-employment benefits (OPEB) for eligible employees through the Washoe County School District Retiree Health Benefits Plan (WCSDRHP), the State of Nevada's Public Employees' Benefits Plan (NPEBP), and the Washoe County School District Retiree Life Insurance Plan. All three plans are single-employer defined benefit OPEB plans. The plans are administered through the Washoe County School District OPEB Trust Fund. The District's net OPEB liability is measured as of June 30, 2025, and the total OPEB liabilities used to calculate the net OPEB liability are determined by an actuarial valuation as of June 30, 2025.

Deferred Outflows and Deferred Inflows of Resources:

In addition to assets, the Statement of Net Position reports a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to future periods and so will not be recognized as an outflow of resources (expense/expenditure) until then. The District reports amounts related to pensions, other post-employment benefits, and deferred debt retirement charges on the government-wide Statement of Net Position and amounts related to pensions and other post-employment benefits on the proprietary funds' Statement of Net Position as deferred outflows of resources.

In addition to liabilities, the Statement of Net Position and Balance Sheets report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to future periods and so will not be recognized as an inflow of resources (revenue) until that time. The District reports amounts related to pensions, other post-employment benefits, and deferred revenues on the Government-wide Statement of Net Position and unavailable revenues on the Governmental Funds Balance Sheet as deferred inflows of resources. The District reports amounts related to pensions and other post-employment benefits on the proprietary funds' Statement of Net Position as deferred outflows and inflows of resources.

**WASHOE COUNTY SCHOOL DISTRICT
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2025**

Expenditures:

Expenditure data is characterized by major program classifications pursuant to the provisions of the National Center for Education Statistics handbook entitled *Financial Accounting for Local and State School Systems* as modified by the State of Nevada. Below is a brief description of these program classifications.

Regular programs are activities that provide students in pre-kindergarten through grade 12 with learning experiences to prepare them for further education or training and for responsibilities as citizens, family members, and workers.

Special programs include activities for elementary and secondary students (pre-kindergarten through grade 12) receiving special education and related services. These services are related to mental retardation, orthopedic impairment, emotional disturbance, developmental delay, specific learning disabilities, multiple disabilities, hearing impairment, other health impairments, visual impairments including blindness, autism, deaf-blindness, traumatic brain injury, and speech or language impairments. Special programs include students receiving services related to gifted and talented programs.

Vocational programs are activities delivered through traditional comprehensive and vocational-technical high schools or recognized charter schools that prepare students to meet challenging academic standards as well as industry skill standards while preparing students for broad-based careers and further education beyond high school.

Other instructional programs are activities that provide students in pre-kindergarten through grade 12 with learning experiences in English for speakers of other languages, alternative and at risk education programs, remedial programs, summer school programs, and other instructional programs.

Adult education programs are activities that develop knowledge and skills to meet immediate and long-range educational objectives of adults who, having not completed or having interrupted formal schooling, have accepted adult roles and responsibilities. Programs include activities to foster the development of fundamental tools of learning; prepare students for a postsecondary career; prepare students for postsecondary education programs; upgrade occupational competence; prepare students for a new or different career; develop skills and appreciation for special interests; or enrich the aesthetic qualities of life.

Community services programs are activities not directly related to the provision of educational services in the District. These include services such as community recreation programs, civic activities, public libraries, programs of custody and care of children and community welfare activities provided by the District for the community as a whole or some segment of the community.

Co-curricular programs are activities that add to a student's educational experience but are not related to educational activities. These include events and activities that take place outside the traditional classroom such as student government, athletics, band, choir, clubs, and honors societies.

Undistributed expenditures are those which are not allocated to any single program. Student and instructional staff support and overall general and administrative costs are classified as undistributed expenditures. Also included are costs of operating, maintaining, and constructing the physical facilities of the District.

**WASHOE COUNTY SCHOOL DISTRICT
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2025**

Compensated Absences:

Teachers and certain hourly employees do not receive vacation leave. For other District employees, vacation leave is earned at rates dependent on length of employment and can be accumulated to specific maximum days/hours. The District pays limited accumulated sick leave benefits to certain employees upon separation. In proprietary funds, compensated absences are recorded when the liabilities are incurred. In governmental funds, the current portion is recorded as a payroll expenditure only if it has matured as a result of employees who have terminated as of June 30. The current portion is defined as those benefits expected to be paid in the subsequent twelve months. The estimated liability for compensated absences is accounted for in the government-wide financial statements.

Self-Insurance:

The District is self-insured for losses and liabilities related primarily to general liability, worker's compensation and employee medical coverage. The District's maximum self-insurance exposure is subject to certain limits per claim with certain maximum aggregate policy limits per claim year. Although management believes it has the ability to adequately project and record estimated claim payments, it is possible that actual results could differ from the recorded liabilities.

NOTE 2 – Compliance with Applicable Nevada Revised Statutes:

The District conformed to the statutory constraints on financial administration as required by NRS 354.626, which note that the District may not expend or contract to expend amounts which have not been appropriated for that function, other than bond repayments, medium-term obligation repayments and any other long-term contract expressly authorized by law.

NOTE 3 – Cash and Investments:

The District maintains a cash and investment pool that is available for use by all funds. At June 30, 2025 this pool is displayed by major and other governmental funds on the Governmental Funds Balance Sheet and on the Proprietary Fund Statement of Net Position as "Cash and Investments."

As of June 30, 2025, the District had the following amounts reported as cash and investments:

	Government- Wide	Fiduciary Funds	Totals
Cash and Cash Equivalents	\$ 5,489,686	\$ 174,482	\$ 5,664,168
Investments	818,374,184	94,991,618	913,365,802
	\$ 823,863,870	\$ 95,166,100	\$ 919,029,970

Except for financial reporting purposes, the cash and investments balances in the Fiduciary Funds are not normally considered part of the District's pooled cash and investments. These amounts represent cash and investments held in a fiduciary or custodial capacity by the District and cannot be used in the District's normal operations.

**WASHOE COUNTY SCHOOL DISTRICT
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2025**

The District categorizes the fair value measurements of its investments based on the hierarchy established by generally accepted accounting principles. The fair value hierarchy, which has three levels, is based on the valuation inputs used to measure an asset's fair value: Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs. The District does not have any investments that are measured using Level 3 inputs.

As of June 30, 2025, the District had the following recurring fair value measurements, except those measured at cost as identified below:

Government-Wide Balances:

	Fair Value	Fair Value Measurements Using		
		Level 1 Inputs	Level 2 Inputs	Level 3 Inputs
Investments:				
U.S. Treasuries	\$ 238,185,287	\$ 238,185,287	\$ -	\$ -
U.S. Agencies	303,654,887	-	303,654,887	-
Asset Backed Securities	76,697,347	-	76,697,347	-
Collateralized Mortgage Obligations	31,383,674	-	31,383,674	-
Money Market Fund	94,939,688	94,939,688	-	-
Municipal Securities	506,907	-	506,907	-
Commercial Paper	27,721,028	-	27,721,028	-
Corporate Notes	42,531,822	-	42,531,822	-

The District is a voluntary participant in the State of Nevada Local Government Investment Pool (LGIP) which has regulatory oversight from the Board of Finance of the State of Nevada. The District's investment in the LGIP is equal to its original investment plus monthly allocation of interest income, and realized and unrealized gains and losses, which is the same as the value of the pool shares. The District's investment in the LGIP is reported at fair value. Fair value is determined on a daily basis. Nevada Revised Statutes (NRS 355.170 et. seq.) set forth acceptable investments for Nevada local governments.

**WASHOE COUNTY SCHOOL DISTRICT
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2025**

The District is also authorized to participate in the State of Nevada Retirement Benefits Investment Fund (RBIF) for its long-term investments associated with the Other Post Employment Benefits (OPEB) Trust. The Nevada Legislature established the RBIF with an effective date of July 17, 2007 with the purpose of investing contributions made by participating public entities, as defined in NRS 355.220, to enable such entities to support financing of OPEB. Monies received by the RBIF are held for investment purposes only and not in any fiduciary capacity. Each participating entity acts as fiduciary for its particular share of the RBIF.

As of June 30, 2025, the District had the following investments and maturities:

	Fair Value	Investment Maturities (In Years)			
		Less than 1	1 to 5	6 to 10	More than 10
Government-Wide Investments:					
U.S. Treasuries	\$ 238,185,287	\$ 173,705,220	\$ 63,450,500	\$ 1,029,567	\$ -

Interest Rate Risk. Interest rate risk is the risk of possible reduction in the value of a security, especially a bond, resulting from a rise in interest rates. To limit exposure to interest rate risk, Nevada Revised Statutes and the District's investment policy limits bankers' acceptances to 180 days maturities, repurchase agreements to 90 days, U.S. Treasuries and Agencies to less than 10 years, and commercial paper to 270 days maturities. The District's investment in U.S. Agencies consists of securities issued by the Federal National Mortgage Association, Federal Home Loan Mortgage Corporation, Federal Farm Credit Bank, and Federal Home Loan Bank. Since investments in these agencies are in many cases backed by assets such as mortgages, they are subject to prepayment risk. The District's investments in all other mortgage-backed securities are also subject to prepayment risk.

**WASHOE COUNTY SCHOOL DISTRICT
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2025**

Credit Risk. Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligation and is a function of the credit quality ratings of its investments. The State of Nevada Local Government Investment Pool (LGIP), is an unrated external investment pool. Nevada Revised Statutes and the District's investment policy limit investment in money market mutual funds, collateralized mortgage obligations, and asset-backed securities to the "AAA" rating (or equivalent) by a nationally recognized statistical rating organization. In addition, Nevada Revised Statutes and the District's investment policy limit investments in commercial paper to a short-term rating of "A1", "P1", or its equivalent, and corporate notes to a long-term rating of "A" or equivalent by a nationally recognized statistical rating organization. All of the District's money market mutual funds, collateralized mortgage obligations, asset-backed securities, commercial paper, and corporate note investments meet these minimum rating criteria.

Concentration of Credit Risk. To limit exposure to concentrations of credit risk, the District's investment policy limits investment in collateralized mortgage obligations, asset backed securities, repurchase agreements, negotiable certificates of deposit and non-negotiable certificates of deposit each to 20%; commercial paper, municipal securities, and corporate notes each to 25%, and Federal Agency securities to 50% of the entire portfolio on the date of purchase. The investment policy also sets per-issuer limits to minimize concentration to a single entity. At June 30, 2025, there were no investments in a single issuer greater than 5% of total investments other than US Treasury, Federal Home Loan Mortgage Corporation (FHLMC) and Federal National Mortgage Association (FNMA) securities.

Custodial Credit Risk – Deposits. Custodial credit risk is the risk that in the event of a bank failure, the District's deposits may not be returned. The District's bank deposits are generally covered by FDIC insurance and are collateralized by the Office of the State Treasurer/ Nevada Collateral Pool.

The State of Nevada Local Government Investment Pool (LGIP) and the State of Nevada Retirement Benefits Investment Fund (RBIF) are unrated external investment pools which are administered by the Office of the State Treasurer, with oversight by the State of Nevada Board of Finance. Investments in LGIP and RBIF are carried at fair value, which is the same as the value of the pool shares and determined monthly by Bank of New York Mellon.

** Compensated absences were restated due to the implementation of GASB 101. See Note 13.

The liabilities for general obligation bonds and direct placement notes are typically liquidated through the various debt service funds of the District. The liabilities for the net pension liability and net OPEB liability are typically liquidated through the funds for which the related employee worked.

The District was, in accordance with Nevada Revised Statute 387.400, within the legal debt limit at June 30, 2025.

**WASHOE COUNTY SCHOOL DISTRICT
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2025**

NOTE 7 – Fund Balance/Net Position:

Government-Wide Financial Statements/Net Position:

The government-wide Statement of Net Position utilizes a net position presentation. Net position is categorized as net investment in capital assets, restricted and unrestricted. The net investment in capital assets is capital assets less accumulated depreciation and related debt outstanding that relates to the acquisition, construction, or improvement of capital assets.

Amounts restricted have third-party (statutory, bond covenant or granting agency) limitation on their use. Restricted net position is classified by function, debt service, capital projects, or self-insurance claims.

The amount restricted for debt service consists of debt service reserve. Net position restricted for capital projects consists of unspent grants, donations, and debt proceeds with third party restrictions for use on specific projects or programs. Net position restricted for self-insurance activities represents the net position of the self-insurance funds, which are legally restricted for the purposes for which the funds were established.

Unrestricted net position represents available financial resources of the District.

Fund Financial Statements/Fund Balance:

In accordance with GASB Statement No. 54, *Fund Balance Reporting and Governmental Fund Type Definitions*, the governmental fund financial statements report the following classifications of fund balance:

Nonspendable – Amounts that cannot be spent because they are either not spendable in form or are legally or contractually required to be maintained intact.

Restricted – Amounts that can be spent only for specific purposes because of constitutional provisions, enabling legislation, or because of constraints that are externally imposed by creditors, grantors, contributors, or laws or regulations of other governments.

Committed – Amounts that can only be used for specific purposes. Committed fund balance is reported pursuant to resolutions passed by the Board of Trustees, the District's highest level of decision making authority. A similar action is required to remove or modify committed fund balance and authorized expenditures reduce committed fund balance. At June 30, 2025 the District had no committed fund balances.

Assigned – Amounts that the District intends to use for a specific purpose, but do not meet the definitions of restricted or committed fund balance. Under the District's policy, adopted by the Board of Trustees, the District has delegated the authority to assign fund balance to the Chief Financial Officer or Superintendent.

Unassigned – All other spendable amounts in the General Fund or deficits in other governmental funds.

**WASHOE COUNTY SCHOOL DISTRICT
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2025**

A minimum ending fund balance policy has been adopted by the Board of Trustees for the General Fund. A minimum unrestricted (committed, assigned, unassigned) ending fund balance of 12% of total expenditures (including transfers out), less capital outlay, shall be maintained.

It is the desire of the District to maintain adequate General Fund balance to maintain liquidity for unanticipated needs. The Board of Trustees has adopted a policy to establish a contingency account with a minimum fund balance of .25% of total appropriations (including transfers out) that shall not exceed 3% of the total appropriations (excluding transfers out).

When an expenditure is incurred for purposes for which both restricted and unrestricted amounts are available, the District considers restricted funds to have been spent first. When an expenditure is incurred for which committed, assigned, or unassigned amounts are available, the District considers amounts to have been spent first out of committed funds, then assigned funds, and finally, unassigned funds, as needed, unless the Board of Trustees has provided otherwise in its commitment or assignment actions.

As of June 30, 2025, fund balances are composed of the following.

	General Fund	Major Debt Service Funds	Major Capital Projects Funds	Other Governmental Funds	Total
Fund balances					
Nonspendable					
Inventory	\$ 1,833,559	\$ -	\$ -	\$ 915,977	\$ 2,749,536

**WASHOE COUNTY SCHOOL DISTRICT
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2025**

NOTE 8 – Defined Benefit Pension Plan:

Plan Description:

The District contributes to the Public Employees' Retirement System of the State of Nevada (PERS). PERS administers a cost-sharing, multiple-employer, defined benefit public employees' retirement system which includes both regular and police/fire members. PERS was established by the Nevada Legislature in 1947, effective July 1, 1948. PERS is administered to provide a reasonable base income to qualified employees who have been employed by a public employer and whose earnings capacities have been removed or substantially impaired by age or disability.

Benefits Provided:

Benefits, as required by the Nevada Revised Statutes (NRS or statute), are determined by the number of years of accredited service at time of retirement and the member's highest average compensation in any 36 consecutive months with special provisions for members entering PERS on or after January 1, 2010 and July 1, 2015. Benefit payments to which participants or their beneficiaries may be entitled under the plan include pension benefits, disability benefits, and survivor benefits.

Monthly benefit allowances for members are computed as 2.5% of average compensation for each accredited year of service prior to July 1, 2001. For service earned on and after July 1, 2001, this multiplier is 2.67% of average compensation. For members entering PERS on or after January 1, 2010, there is a 2.5% service time factor, and for regular members entering PERS on or after July 1, 2015, there is a 2.25% factor. PERS offers several alternatives to the unmodified service retirement allowance which, in general, allow the retired employee to accept a reduced service retirement allowance payable monthly during his or her lifetime and various optional monthly payments to a named beneficiary after his or her death.

Post-retirement increases are provided by authority of NRS 286.575 - .579.

Vesting:

Regular members entering PERS prior to January 1, 2010 are eligible for retirement at age 65 with five years of service, at age 60 with 10 years of service, or at any age with thirty years of service. Regular members entering PERS on or after January 1, 2010, are eligible for retirement at age 65 with five years of service, or age 62 with 10 years of service, or any age with thirty years of service. Regular members who entered the System on or after July 1, 2015, are eligible for retirement at age 65 with 5 years of service, or at age 62 with 10 years of service or at age 55 with 30 years of service or any age with 33 1/3 years of service.

Police/Fire members entering PERS prior to January 1, 2010 are eligible for retirement at age 65 with five years of service, at age 55 with ten years of service, at age 50 with twenty years of service, or at any age with twenty-five years of service. Police/Fire members entering PERS on or after January 1, 2010, are eligible for retirement at 65 with five years of service, or age 60 with ten years of service, or age 50 with twenty years of service, or at any age with thirty years of service. Only service performed in a position as a police officer or firefighter may be counted towards eligibility for retirement as police/fire accredited service.

**WASHOE COUNTY SCHOOL DISTRICT
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2025**

The normal ceiling limitation on monthly benefits allowances is 75% of average compensation over the employee's highest 36 consecutive months. However, a member who has an effective date of membership before July 1, 1985, is entitled to a benefit of up to 90% of average compensation. Both regular and police/fire members become fully vested as to benefits upon completion of five years of service.

Contributions:

The authority for establishing and amending the obligation to make contributions and member contribution rates, is set by statute. New hires, in agencies which did not elect the Employer-Pay Contribution (EPC) plan prior to July 1, 1983, have the option of selecting one of two contribution plans. One plan provides for matching employee and employer contributions, while the other plan provides for employer-pay contributions only. Under the matching Employee/Employer Contribution plan a member may, upon termination of service for which contribution is required, withdraw employee contributions which have been credited to their account. All membership rights and active service credit in the System are canceled upon withdrawal of contributions from the member's account. If EPC was selected, the member cannot convert to the Employee/Employer Contribution plan.

PERS' basic funding policy provides for periodic contributions at a level pattern of cost as a percentage of salary throughout an employee's working lifetime in order to accumulate sufficient assets to pay benefits when due.

PERS receives an actuarial valuation on an annual basis indicating the contribution rates required to fund PERS on an actuarial reserve basis. Actual contributions are made in accordance with the required rates established by the Nevada Legislature. These statutory rates are increased/decreased pursuant to NRS 286.421 and 286.450.

The actuary funding method used is the Entry Age Normal Cost Method. It is intended to meet the funding objective and result in a relatively level long-term contributions requirement as a percentage of salary.

For the fiscal year ended June 30, 2025 the Statutory Employer/employee matching rate was 19.25% for Regular members; and 36.75% for Police/Fire. For the fiscal year ended June 30, 2025, the Employer-pay contribution (EPC) rate was 30.00% for Regular members and 58.75% for Police/Fire.

The District's contributions were \$81,227,032 for the year ended June 30, 2025.

PERS Investment Policy:

PERS' policies which determine the investment portfolio target asset allocation are established by the PERS Board. The asset allocation is reviewed annually and is designed to meet the future risk and return needs of the System.

The following was the PERS Board adopted policy target asset allocation as of June 30, 2025:

<u>Asset Class</u>	<u>Target Allocation</u>
Domestic Equity	34%
International Equity	14%
U.S. Bonds	28%
Private Markets	12%
Short-term Investments	12%

**WASHOE COUNTY SCHOOL DISTRICT
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2025**

Net Pension Liability:

At June 30, 2025, the District reported a liability for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2024, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The District's proportion of the net pension liability was based on the District's share of contributions in PERS pension plan relative to the total contributions of all participating PERS employers and members. At June 30, 2025, the District's proportion was 5.2504%, which was an increase of .2417% from its proportion as of June 30, 2024.

Pension Liability Discount Rate Sensitivity:

The following presents the net pension liability of the District as of June 30, 2025, calculated using the discount rate of 7.25%, as well as what the District's net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.25%) or 1-percentage-point higher (8.25%) than the current discount rate:

	1% Decrease in Discount Rate (6.25%)	Discount Rate (7.25%)	1% Increase in Discount Rate (8.25%)
Net Pension Liability	1,481,241,974	948,630,148	458,978,661

Pension Plan Fiduciary Net Position:

Detailed information about the pension plan's fiduciary net position is available in the PERS Annual Comprehensive Financial Report, available on the PERS website.

Actuarial Assumptions:

The total pension liability was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation Rate	2.50%
Investment Rate of Return	7.25%
Productivity Pay Increase	0.50%
Projected Salary Increases	Regular: 4.20% to 9.10%, depending on service Police/Fire: 4.60% to 14.50%, depending on service Rates include inflation and productivity increases
Other Assumptions	Same as those used in the June 30, 2024 funding actuarial valuation

**WASHOE COUNTY SCHOOL DISTRICT
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2025**

Mortality Rates: For regular healthy members it is Pub-2010 General Healthy Retiree Amount-Weighted Above-Median Mortality Table with rates increased by 30% for males and 15% for females, projected generationally with the two-dimensional monthly improvement scale MP-2020. The above listed mortality tables only provide rates for ages 50 and older. To develop mortality rates for ages 40 through 50, PERS smoothed the difference between the rates at age 40 from the Pub-2010 General Employee Amount-Weighted Above-Median Mortality Tables and the rates at age 50 from the Pub-2010 General Healthy Retiree Amount-Weighted Above-Median Mortality Tables. To develop the mortality rates before age 40, PERS used the Pub-2010 General Employee Amount-Weighted Above-Median Mortality Tables rates. This methodology for developing an extended annuitant mortality table is similar to the method used by the Internal Revenue Service (IRS) to develop the base mortality table for determining minimum funding standards for single-employer defined benefit pension plans under Internal Revenue Code Section 430. While Section 430 is not applicable to the System, we believe this is a reasonable method for developing annuitant mortality rates at earlier ages.

For police/fire healthy members it is Pub-2010 Safety Healthy Retiree Amount-Weighted Above-Median Mortality Table with rates increased by 30% for males and 5% for females, projected generationally with the two-dimensional mortality improvement scale MP-2020. The above listed mortality tables only provide rates for ages 45 and older. To develop mortality rates for ages 35 through 45, PERS smoothed the difference between the rates at age 35 from the Pub-2010 Safety Employee Amount-Weighted Above-Median Mortality Tables and the rates at age 45 from the Pub-2010 Safety Healthy Retiree Amount-Weighted Above-Median Mortality Tables. To develop the mortality rates before age 35, PERS used the pub-2010 Safety Employee Amount-Weighted Above-Median Mortality Tables rates. This methodology for developing an extended annuitant mortality table is similar to the method used by the Internal Revenue Service (IRS) to develop the base mortality table for determining minimum funding standards for single-employer defined benefit pension plans under Internal Revenue Code Section 430. While Section 430 is not applicable to the System, we believe this is a reasonable method for developing annuitant mortality rates at earlier ages.

For disabled regular members it is the Pub-2010 Non-Safety Disabled Retiree Amount-Weighted Mortality Table with rates increased by 20% for males and 15% for females, projected generationally with the two-dimensional mortality improvement scale MP-2020.

For disabled police/fire members: Pub-2010 Safety Disabled Retiree Amount-Weighted Mortality Table with rates increased by 30% for males and 10% for females, projected generationally with the two-dimensional mortality improvement scale MP-2020.

For regular and police/fire current beneficiaries in pay status it is Pub-2010 Contingent Survivor Amount-Weighted Above-Median Mortality Table with rates increased by 15% for males and 30% for females, projected generationally with the two-dimensional mortality improvement scale MP-2020. The above listed mortality table only provides rates for ages 45 and older. To develop mortality rates for ages 35 through 45, the Plan have smoothed the difference between the rates at age 35 from the Pub-2010 General Employee Amount-Weighted Above-Median Mortality Tables and the rates at age 45 from the Pub 2010 Contingent Survivor Amount-Weighted Above-Median Mortality Tables. To develop the mortality rates before age 35, PERS used the Pub-2010 General Employee Amount-Weighted Above-Median Mortality Tables rates. This methodology for developing an extended annuitant mortality table is similar to the method used by the IRS to develop the base mortality table for determining minimum funding standards for single-employer

**WASHOE COUNTY SCHOOL DISTRICT
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2025**

defined benefit pension plans under Internal Revenue Code Section 430. While Section 430 is applicable to the System, we believe this is a reasonable method for developing annuitant mortality rates at earlier ages.

For regular and police/fire contingent beneficiaries it is Pub-2010 General Healthy Retiree Amount-Weighted Above-Median Mortality Table (separate tables for males and females) with rates increased by 30% for males and 15% for females, projected generationally with the two-dimensional mortality improvement scale MP-2020. The above listed mortality tables only provide rates for ages 50 and older. To develop mortality rates for ages 40 through 50, PERS smoothed the difference between the rates at age 40 from the Pub-2010 General Employee Amount-Weighted Above-Median Mortality Tables and the rates at age 50 from the Pub-2010 General Healthy Retiree Amount-Weighted Above-Median Mortality Tables. To develop the mortality rates before age 40, PERS used the Pub-2010 General Employee Amount-Weighted Above-Median Mortality Tables rates. This methodology for developing an extended annuitant mortality table is similar to the method used by the IRS to develop the base mortality table for determining minimum funding standards for single-employer defined benefit pension plans under Internal Revenue Code Section 430. While Section 430 is not applicable to the System, we believe this is a reasonable method for developing annuitant mortality rates at earlier ages.

For the mortality table applicable to contingent beneficiaries, "Approach 1" from the Society of Actuaries "Pub-2010 Public Retirement Plans Mortality Tables Report" was utilized. In particular, the mortality basis for contingent beneficiaries has been assumed to be the same mortality basis as the Healthy Regular retiree table listed above (except using rates applicable to the beneficiary's gender) for both when the primary retiree is alive and is no longer alive. The Pub-210 Amount-Weighted Mortality Tables (with loading factors as described above) reasonably reflect the projected mortality experience of the Plan as of the measurement date. The generational projection is a provision made for future mortality improvement.

For pre-retirement regular members it is the Pub-2010 General Employee Amount-Weighted Above-Median Mortality Table (separate tables for males and females), projected generationally with the two-dimensional mortality improvement scale MP-2020.

For pre-retirement police/fire members it is the Pub-2010 Safety Employee Amount-Weighted Above-Median Mortality Table (separate tables for males and females). Projected generationally with the two dimensional mortality improvement scale MP-2020.

The Pub-2010 Amount-Weighted Mortality Tables reasonably reflect the projected mortality experience of the plan as of the measurement date.

Actuarial assumptions used in the June 30, 2024 valuation were based on the results of the experience study for the period from July 1, 2016 through June 30, 2020.

The discount rate used to measure the total pension liability was 7.25% as of June 30, 2024. The projection of cash flows used to determine the discount rate assumed that employee and employer contributions will be made at the rate specified in statute. Based on that assumption, the pension plan's fiduciary net position at June 30, 2024 was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability as of June 30, 2024.

**WASHOE COUNTY SCHOOL DISTRICT
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2025**

Pension Expense, Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions:

For the year ended June 30, 2025, the District recognized pension expense of \$100,439,065. At June 30, 2025, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$ 201,248,500	\$ -
Changes in assumptions or other inputs	61,211,566	-
Net difference between projected and actual earnings on pension plan investments	-	93,452,288
Changes in proportion	32,093,754	22,408,875
District contributions subsequent to the measurement date	81,227,032	-
	\$ 375,780,852	\$ 115,861,163

The \$81,227,032 reported as deferred outflows of resources related to pensions resulting from District contributions subsequent to the measurement date, will be recognized as a reduction of the net pension liability in the year ended June 30, 2026.

The average of the expected remaining service lives of all employees that are provided with pensions through PERS (active and inactive employees) is 5.64 years.

Other estimated amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year ended June 30:	
2026	26,392,405
2027	121,646,196
2028	10,585,644
2029	1,481,219
2030	16,973,180
Thereafter	1,614,013

Additional Information:

Additional information is located in the PERS Annual Comprehensive Financial Report (ACFR) available on the PERS website at www.nvpers.org under Quick Links – Publications.

**WASHOE COUNTY SCHOOL DISTRICT
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2025**

NOTE 9 – Post-employment Benefits Other Than Pensions:

Plan Descriptions:

The District contributes to a single-employer defined benefit healthcare plan, Washoe County School District Retiree Health Benefits Plan (WCSDRHP). The WCSDRHP is administered through the Washoe County School District OPEB Trust Fund (Trust). The measurement focus of this plan is its net OPEB liability.

The District also provides OPEB for certain former employees through the Nevada Public Employees' Benefits Plan (NPEBP), a single-employer defined benefit plan. The NPEBP is administered through the Washoe County School District OPEB Trust Fund (Trust). The measurement focus of this plan is its net OPEB liability associated with participating former District employees.

The District also sponsors a single-employer defined benefit life insurance plan, WCSD Retiree Life Insurance Plan, which makes available various levels of life insurance to eligible retired employees at a reduced blended rate cost. The WCSD Retiree Life Insurance Plan is administered through the Washoe County School District OPEB Trust Fund (Trust). The measurement focus of this plan is its net OPEB liability.

Washoe County School District Retiree Health Benefits Plan (WCSDRHP):

Benefit provisions for the WCSDRHP is established pursuant to NRS 287.023 and amended through negotiations between the District and the respective employee associations. NRS 288.150 assigns the authority to establish benefit provisions to the Board of Trustees.

The WCSDRHP explicitly subsidizes medical insurance premiums, pursuant to the contracts negotiated with various employee associations, for employees who retire from the District with at least 15 years of service. However, classified employees hired after June 30, 1999, certified employees who retire after August 31, 2006, and administrative employees who retire after June 30, 2006 are not eligible for explicit premium subsidies. The District's cost for providing explicit subsidies is capped for the different groups at various percentages of General Fund property tax revenues, which is projected to grow 3.0% and was \$1.6 million for fiscal year 2020. However, under NRS 287.023, eligible retirees may participate in the plan with blended rates, thereby benefitting from an implicit subsidy. Retirees contribute up to \$10,183 per year for medical, dental and vision coverage, based on their number of years since their retirement and the number of years of service with the District. The District reimburses up to 100% of the amount of validated claims for medical and dental costs incurred by pre-Medicare retirees. The District serves as a secondary carrier for retirees eligible for Medicare. Expenditures for post-employment health care benefits are recognized as retirees report claims.

For WCSDRHP, contribution requirements of the plan members and the District are established and may be amended through negotiations between the District and the employee associations. The contribution to the OPEB Trust Fund is determined by the District and based on projected pay-as-you-go financing requirements and actuarial studies contracted for by the District. For fiscal year 2025, the District contributed \$ 6,775,424 to the OPEB trust to benefit WCSDRHP. During the year, benefits totaling \$4,447,107 were paid out for WCSDRHP retirees.

**WASHOE COUNTY SCHOOL DISTRICT
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2025**

The number of participants as of June 30, 2025, the most recent full actuarial valuation date, are as follows:

	WCSDRHP
Active Employees	6,529
Retirees and surviving spouses	754
Total participants	7,283

Nevada Public Employees' Benefits Plan (NPEBP):

Benefit provisions for NPEBP are established pursuant to NRS 287.023 and subject to amendment by the State of Nevada, each biannual legislative session.

In prior fiscal years, under the NPEBP plan, pursuant to NRS 287.023, retirees had the option to participate in the District's program for post-employment health care benefits or to join the Public Employees' Benefit Program (NPEBP) offered by the State of Nevada. District retirees not receiving NPEBP benefits as of November 30, 2008 are no longer allowed to participate in NPEBP. For the remaining eligible retirees, local governments are required to pay the same portion of the cost of coverage for those persons participating in NPEBP that the State of Nevada pays for those persons retired from state service who have continued to participate in the plan. As of June 30, 2025, 962 retirees were utilizing this benefit. The subsidy paid to PEPB for this coverage for the year ended June 30, 2025 was \$2,612,190. Amounts paid per retiree ranged from \$2 to \$1,559. Amounts contributed by retirees are paid directly to the State of Nevada and, as such, are not available.

For NPEBP, benefit requirements of the plan members and the District are established and may be amended by the state legislature. The contribution is determined by the District and based on projected pay-as-you-go financing requirements and actuarial studies contracted for by the District. NRS 287.023 sunsetted the option to join NPEBP for District employees who were not receiving NPEBP benefits by November 30, 2008. Because no additional retirees are eligible to receive benefits, the NPEBP has no future obligations to retirees or others, and the District has elected to not contribute any further money to this Plan.

WCSD Retiree Life Insurance Plan:

Benefit provisions for the WCSD Retiree Life Insurance Plan are established pursuant to NRS 287.023 and amended through negotiations between the District and the respective employee associations. NRS 288.150 assigns the authority to establish benefit provisions to the Board of Trustees.

Any employee who has Basic Life and Accidental Death and Disability (AD&D) insurance while active and retires from the District while drawing PERS at the time of his/her retirement is eligible to continue this insurance at retirement regardless of the number of years of service with the District, as long as the retiree pays the premium. All future eligible retirees (not available to spouses of retirees) can obtain the following Basic Life and AD&D coverage:

- Administrative - \$200,000
- Certified - \$40,000
- Classified - \$40,000
- Confidential Classified (as defined by the District) - \$50,000

**WASHOE COUNTY SCHOOL DISTRICT
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2025**

This coverage is reduced 50% at age 70. The amount of the benefit is dependent on when an employee retired and is subject to coverage adjustments based on bargaining results.

For WCSD Retiree Life Insurance Plan, contribution requirements of the plan members and the District are established and may be amended through negotiations between the District and the employee associations. Retirees pay 100% of the pay-as-you-go premiums based on a blended rate that blends active participants and retirees. For actuarial valuation purposes, the District's contribution requirements for retirees relate to the implicit subsidy that results from using the blended rates and is determined in actuarial studies contracted for by the District. Because retirees pay 100% of the pay-as-you-go premiums for their insurance coverage and the District has no future obligations to retirees or others with respect to this Plan, the District has elected, beginning in fiscal year 2011-12, to not contribute any further money to this Plan.

The number of participants as of June 30, 2025, the most recent full actuarial valuation date, are as follows:

	WCSD Retiree Life Insurance Plan
Active Employees	6,529
Retirees and surviving spouses	2,469
Total participants	8,998

Actuarial Methods and Assumptions:

The District's net OPEB liability was measured as of June 30, 2025, and the total OPEB liabilities used to calculate their respective net OPEB liability were determined by actuarial valuations for each plan as of June 30, 2025.

The total OPEB liability in the actuarial valuation for each plan was determined using the following actuarial assumptions and other inputs applied to all periods included in the measurement, unless otherwise specified:

	WCSDRHP	NPEBP	WCSD Retiree Life Insurance Plan
Salary increases	3.00%	n/a	3.00%
Discount rate	6.72%	6.72%	6.72%
Investment rate of return	7.50%	7.50%	7.50%
Healthcare cost trend rates			
Pre-65 retirees	6.75% initial	6.75% initial, 4.25% ultimate	n/a
Post-65 retirees	5.75% initial	6.75% initial, 4.25% ultimate	n/a
Medicare subsidy	n/a	Medicare subsidy level (once eligible) is approximately 40% on non-Medicare subsidy level	n/a

**WASHOE COUNTY SCHOOL DISTRICT
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2025**

Mortality rates were based on the Pub-2010 generational tables using Scale MP-2020 applied on a gender specific basis, specific to occupation category (teacher, safety, general).

The June 30, 2025 actuarial valuation used the Nevada Public Employees Retirement System (PERS) termination rates from PERS' 2024 actuarial valuation.

Investment rate of return. A long-term investment rate of return of 7.50%, net of investment expenses, was selected by the plans. This rate is based on the long-term rate of return from the State of Nevada's Retiree Benefits Investment Fund (RBIF), where the plans and the County invest their assets to fund their OPEB liabilities. This rate is derived from RBIF's investment policy (shown in the table below).

<u>Asset Class</u>	<u>Asset Allocation</u>
Foreign Developed Equity	17.5%
Short-term Investments	12.0%
U.S. Fixed Income	28.0%
U.S. Large Cap Equity	42.5%

The annual money-weighted rate of return on OPEB plan investments was 3.30% during the year ended June 30, 2025.

Discount Rate. The discount rate should be the single rate that reflects the long-term rate of return on OPEB plan investments that are expected to be used to finance the payment of benefits, to the extent that plan assets are projected to cover the benefit payments. The discount rate used to measure the total OPEB liability was 6.72% for all plans. This is based on a blend of the Bond Buyer 20-Bond GO index of 5.20% as of the measurement date and the long-term rate of return from the State of Nevada's Retiree Benefits Investment Fund (RBIF) of 7.50%. The District invests OPEB assets for all plans in the RBIF and Securities of the United States Treasury to fund their OPEB liabilities.

The projection of cash flows used to determine the discount rate assumed that contributions will be made at rates equal to the actuarially determined contribution rates. Based on those assumptions, the net position was not projected to be available to make all projected future benefit payments of current plan members. Therefore, the blended rate was applied to all periods of projected benefit payments to determine the total OPEB liability.

Changes in assumptions. The changes in assumptions for all plans in the June 30, 2025 measurement, from the previous measurement as of June 30, 2024 were as follows:

- The discount rate was updated from 6.42% to 6.72%.
- The trend rates were updated to an initial rate of 8.50% (7.50% for Post-65) grading down to an ultimate rate of 4.00%. The Select trend rates are updated to reflect the higher than anticipated rising healthcare costs environment.

**WASHOE COUNTY SCHOOL DISTRICT
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2025**

NOTE 10 – Risk Management:

The District is exposed to various risks of losses related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The District reports all of its risk management activities in the Internal Service Funds in accordance with GASB Statements No. 10, *Accounting and Financial Reporting for Risk Financing and Related Insurance Issues* and No. 30, *Risk Financing Omnibus an amendment of GASB Statement No. 10*.

Claims expenses and liabilities are reported when it is probable that a loss has occurred, and the amount of that loss can be reasonably estimated. These losses include an estimate of claims that have been incurred but not reported. Because actual claims liabilities depend on such complex factors as inflation, changes in legal doctrines, and damage awards, the process used in computing claims liability does not necessarily result in an exact amount. Claims liabilities are re-evaluated annually by an outside actuary who takes into consideration recently settled claims, the frequency of claims, and other economic and social factors. Liabilities for incurred losses to be settled by fixed or reasonably determinable payments over a long period of time are reported at their present value using the expected future investment yield of 2.0 percent.

At June 30, 2025, the amount of this liability was \$20,083,119. This liability is determined by actuaries using all available information.

Changes in the reported liability since July 1, 2023 are as follows:

	Property & Casualty	Health Insurance	Workers' Compensation	Total
Claims liability, July 1, 2023	\$ 4,742,000	\$ 9,118,620	\$ 5,804,000	\$ 19,664,620
Current year claims and changes in estimates	8,283,306	62,310,864	3,983,007	74,577,177
Claims payments	<u>(8,053,306)</u>	<u>(62,710,561)</u>	<u>(3,412,007)</u>	<u>(74,175,874)</u>
Claims liability, June 30, 2024	<u>\$ 4,972,000</u>	<u>\$ 8,718,923</u>	<u>\$ 6,375,000</u>	<u>\$ 20,065,923</u>
Current year claims and changes in estimates	(402,796)	89,410,229	2,626,025	91,633,458
Claims payments	<u>(799,204)</u>	<u>(88,198,033)</u>	<u>(2,619,025)</u>	<u>(91,616,262)</u>
Claims liability, June 30, 2025	<u>\$ 3,770,000</u>	<u>\$ 9,931,119</u>	<u>\$ 6,382,000</u>	<u>\$ 20,083,119</u>

At June 30, 2025, the Internal Service Funds held \$57,038,478 in cash and investments available for payment of these claims.

**WASHOE COUNTY SCHOOL DISTRICT
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2025**

The District combines both self-insurance and commercial insurance to protect against risks. There was no significant reduction in those insurance coverages purchased by the District from the previous year. Settled claims have not exceeded the commercial coverage in any of the past three years. The following is a detail of coverage:

Property, General Liability, and Casualty Insurance – The District maintains a per occurrence coverage with deductible of \$500,000 for damage to real and personal property, including flood losses, and a 2% per unit of insurance (based on the value of the property at the time of loss) subject to a minimum per occurrence deductible of \$100,000 for covered earthquake losses. The District is self-insured in the amount of \$400,000 for general liability and automobile incidents resulting in bodily injury and/or property damage liability claims. Maximum annual coverage is \$1,000,000,000 per occurrence for property coverage, subject to sub-limits for Flood and Earthquake losses, and coverage of \$5,000,000 per occurrence for crime with a \$50,000 deductible. Further, the District maintains \$15,000,000 per occurrence limits for wrongful acts of the Board of Trustees and general and automobile liability.

Health Insurance – The District is self-insured for health insurance claims up to \$425,000 per calendar year per employee.

Workers' Compensation Insurance – The District is self-insured for workers' compensation claims up to \$600,000 for each occurrence. Losses in excess of \$600,000 are covered by excess insurance up to State statutory limits. Also covered under this program is employer's liability coverage for \$1,000,000 for each accident, \$1,000,000 for each employee for disease, \$1,000,000 aggregate, and is subject to the \$600,000 self-insurance retention. The District maintains an account with a fair value of \$2,753,544 as of June 30, 2025 to meet its State of Nevada's Local Government Investment Pool (LGIP) security deposit requirement.

The Property and Casualty, Health Insurance and Workers' Compensation Funds charge the District's insured funds monthly premiums.

Infrastructure Projects	36,171,852	6/30/2026
Roofing Projects	3,658,855	9/30/2025
	40,840,062	
2024B Extended Bond Rollover		
Infrastructure Projects	49,963,743	6/30/2026
Pavement Projects	630,855	9/30/2025
School Design	1,022,424	6/30/2026
	51,617,022	
Nonmajor Funds		
Athletic Surfaces Projects	294,726	12/31/2025
Building access upgrades	95,573	12/31/2025
Fire Alarm Update Projects	6,618	12/31/2025
HVAC/Plumbing Projects	902,119	12/31/2025
Infrastructure Projects	13,698,843	6/30/2026
Roofing Projects	97,881	9/30/2025
Safety Projects	166,625	12/31/2025
School Design	5,771,373	6/30/2027
Seismic Upgrade Projects	34,551	9/30/2025
Technology upgrades	16,498	9/30/2025
	21,084,807	
	\$ 195,706,580	

Currently, no additional financing is required to complete construction on the projects above.

**WASHOE COUNTY SCHOOL DISTRICT
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2025**

Litigation:

The District is a defendant in various legal actions. The amount of liability or loss, if any, arising from such legal actions cannot be reasonably estimated at the present time. It is the opinion of management and legal counsel of the District that none of these cases would have a material impact upon the financial condition of the District.

NOTE 12 – State of Nevada Tax Abatements:

For the fiscal year ended June 30, 2025, the District's revenues were reduced by a total amount of \$1,840,490 under agreements entered into by the State of Nevada.

Aviation Tax Abatement (NRS 360.753) – Partial abatements from personal property and sales & use taxes are available to companies that locate or expand their business in Nevada. The personal property tax abatement can be up to 50% for 20 years on the taxes due on tangible personal property, and the sales & use tax abatement reduces the applicable tax rate to 2% for a similar 20-year period, a near 75% reduction. For fiscal year ending June 30, 2025, the total amount abated for the District was \$412,259.

Data Centers Abatement (NRS 360.754) – Partial abatements from personal property and sales & use taxes are available to companies that establish or expand data centers. The personal property tax abatements can be up to 20 years. For fiscal year ending June 30, 2025, the total amount abated for the District was \$1,428,008.

Renewable Energy (NRS 701A.370) – Partial abatements from personal property and sales & use taxes are available to renewable energy facilities. For fiscal year ending June 30, 2025, the total amount abated for the District was \$223.

NOTE 13 – New Accounting Pronouncements:

In June 2022, the GASB issued Statement No. 101, *Compensated Absences*. The objective of this Statement is to better meet the information needs of financial statement users by updating the recognition and measurement guidance for compensated absences. This Statement aligns the recognition and measurement guidance under a unified model and amends certain previously required disclosures. The requirements of this Statement are effective for the District's fiscal year ended June 30, 2025. Based on the implementation of GASB Statement No. 101, the District restated its beginning net position of governmental activities and beginning long-term liabilities for a total of \$4,662,097.

In December of 2023, the GASB issued Statement No. 102, *Certain Risk Disclosures*. The objective of this Statement is to provide users of government financial statements with essential information about risks related to a government's vulnerabilities due to certain concentration or constraints. The requirements of this Statement are effective for the District's fiscal year ended June 30, 2025. Management determined that this statement did not have an impact on the District's financial statements.

**WASHOE COUNTY SCHOOL DISTRICT
NOTE TO REQUIRED SUPPLEMENTARY INFORMATION
JUNE 30, 2025**

NOTE 1 - Purpose of Schedules

A – Schedule of the District's Proportionate Share of the Net Pension Liability

The Schedule of the District's Proportionate Share of the Net Pension Liability is presented to illustrate the elements of the District's share of the net pension liability administered by the Public Employees' Retirement System of the State of Nevada.

B – Schedule of the District's Contributions to Public Employees' Retirement System of the State of Nevada (NPEBP)

The Schedule of the District's Contributions to NPEBP is presented to illustrate the District's required contributions relating to the NPEBP pension plan.

C - Schedules of Changes in Net Other Postemployment Benefits Liability and Related Ratios - WCSDRHP, WCSD Retiree Life Insurance Plan, and NPEBP

The Schedules of Changes in Net OPEB Liability and Related Ratios for the WCSDRHP, WCSD Retiree Life Insurance Plan, and NPEBP are presented to illustrate the elements of the District's net OPEB liabilities associated with the respective plans offered by the District. The District has accumulated assets in a qualified trust for the purpose of paying the benefits related to the District's total OPEB liability associated with all plans.

D – Schedule of the District's Contributions for Other Postemployment Benefits

The Schedule of District Contributions - OPEB is presented to illustrate the District's required contributions relating to the District's OPEB plans.

SPECIAL REVENUE FUNDS

Special revenue funds - to account for the proceeds of specific revenue sources that are legally restricted to expenditures for specified purposes.

MAJOR SPECIAL REVENUE FUND

- **Special Education Fund:** to account for transactions of the District relating to educational services provided to children with special needs.

NONMAJOR SPECIAL REVENUE FUNDS

- **Student Activity Fund:** to account for student activity funds under the control of the respective schools in the District.
- **Gifted & Talented (GT) Weighted Funding:** to account for funding received for Gifted and Talented students in the Pupil Centered Funding Plan (PCFP) from the State.
- **English Learners (EL) Weighted Funding:** to account for funding for English Learners students from the State.
- **At-Risk Weighted Funding:** to account for funding received for At-Risk students from the State.
- **E-Rate Fund:** to account for revenues received from the Universal Service Schools and Libraries Program, commonly known as E-rate, which provides discounts to help eligible schools and libraries obtain affordable telecommunication and internet access.
- **Title I:** to account for financial assistance from Title I of the Elementary and Secondary Education Act (ESSA) for local educational agencies and schools with high numbers or high percentages of children from low-income families.
- **Federal Other Agency Grants:** to account for federal grants that pass through other agencies.
- **Direct Federal Grants:** to account for federal grants provided directly by U.S. government agencies.
- **Federal Special Education:** to account for federal pass-through grants authorized by the Individuals with Disabilities Education Act (IDEA). These funds are used to provide special education services to qualifying students.
- **Vocational Education:** to account for Nevada Department of Education grants to provide programs for vocational, career and technical education.
- **Federal, Nevada DOE Flow-thru:** to account for Federal grants for various purposes.
- **Family Resource Centers:** to account for Nevada Health and Human Services grants to operate family resource centers, whose purpose is to provide basic needs assistance to families and students.
- **Adult Education:** to account for Nevada Department of Education grants to operate an adult high school diploma program for adults who are no longer eligible for educational services in a traditional high school.

- **Early Childhood:** to account for Nevada Department of Education grant to operate early childhood education programs for pre-kindergarten students.
- **1/5 PERS and Financial Incentives:** to account for Nevada Department of Education grants to purchase retirement credits for qualifying teachers working in at-risk schools, as authorized by NRS 391.165.
- **Special State Appropriations:** to account for Nevada Department of Education grants for various purposes. Examples are: Zoom schools, for schools with high percentages of English Learners, Victory schools, and Read!by Grade 3.
- **Twenty-First Century:** to account for Federal pass-through grants for after-school programs.
- **Title II Part A - Teacher Training:** to account for Federal pass-through grants to provide professional development/training opportunities for teachers, administrators, and support staff.
- **Title III - English Language Acquisition:** to account for Federal pass-through grants to provide supplemental services specifically targeted to students who are currently not fluent in the English language.
- **Regional Professional Development Program:** to account for State funding to Washoe County School District, acting as the fiscal agent, to operate professional development programs at the five school districts that comprise the Northwest Regional Professional Development Program, as authorized by NRS 391A.120.
- **Foundations Non-Governmental Fund:** to account for non-public funded grants/non-governmental grants.
- **Medicaid:** to account for Federal reimbursement for Medicaid-eligible services to students.
- **Other State Agencies:** to account for State grants from state agencies other than the Nevada Department of Education.
- **Federal Other State Agencies:** to account for Federal grants that pass-through state agencies other than the Nevada Department of Education.
- **Categorical Grants:** to account for small grants provided by community organizations, such as a Parent Teacher Organization (PTO) and local businesses for specific goods and/or services.
- **Gifts and Donations:** to account for non-public gifts and donations to the school district.
- **Wellness:** to account for the District's Wellness Program for employees.
- **Federal ESSER:** to account for federal coronavirus relief funds to safely reopen schools, sustain the safe operations of schools, and address the impact of the pandemic on students.

STATISTICAL SECTION

This section presents detailed information as a context for understanding what the information in the financial statements, note disclosures and required supplementary information says about the District's financial health.

FINANCIAL TRENDS: provides trend information to assist in understanding how the District's financial performance and well-being have changed over time.

REVENUE CAPACITY: information to assist in understanding the District's most significant local revenue sources.

DEBT CAPACITY: information assessing the affordability of the District's current levels of outstanding debt and the ability to issue additional debt in the future.

DEMOGRAPHIC AND ECONOMIC INFORMATION: indicators to assist in understanding the environment within which the District's financial activities take place.

OPERATING INFORMATION: service and infrastructure data to assist in understanding how the information in the District's financial report relates to the services and activities provided.

Note: In FY22, the State implemented a new school funding formula, the Pupil Centered Funding Plan, which pooled General Fund ad valorem taxes, franchise taxes and the Local School Support Tax in the State Education Fund. Thus, these revenues are no longer received at a local level. The State Distributive School Account was also replaced with the State Education Fund.

*Washoe County
School District*

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL
REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN
AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH
GOVERNMENT AUDITING STANDARDS

Board of Trustees
Washoe County School District
Reno, Nevada

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Washoe County School District as of and for the year ended June 30, 2025, and the related notes to the financial statements, which collectively comprise Washoe County School District's basic financial statements, and have issued our report thereon dated October 30, 2025.

Report on Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered Washoe County School District's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Washoe County School District's internal control. Accordingly, we do not express an opinion on the effectiveness of Washoe County School District's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. *A material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented or detected and corrected on a timely basis. *A significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that have not been identified.

(Continued)

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether Washoe County School District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
