

Chair Report, May 2026

Previous Requests & Their Resolutions

- CAB Member Gambrell requested information relating to the ambulance that belongs to the Gerlach community, currently stored at the Reno Longley Lane Roads Department yard. A newer ambulance is in Gerlach for use, while the older vehicle is in Reno, where County staff is trying to determine if a grant opportunity may assist with the purchase of a new ambulance altogether. The items from the interior of the ambulance were brought to Verdi
- Resident feedback from the community was noted that there is difficulty in having County inspectors visit the area for approval of construction projects and permitting. County staff connected with the Community Services Department (CSD), and they had indicated there should be no delay. The Planning Manager has reached out to CAB Member Gambrell to discuss this concern and others that she may have as it relates to CSD issues.
