

EXHIBIT B

The license area shall consist of a 20 foot wide corridor along the proposed pipeline extending through the easement, approximately 130 feet long, further described as follows:

The north west boundary shall be 10 feet north west of the centerline of the crossing pipe alignment measured perpendicularly for the entire 130 foot length of the pipeline.

The north east boundary shall be perpendicular to the north east end of the proposed pipeline, approximately 20 feet in length, centered on the centerline of the proposed pipe alignment.

The south east boundary shall be 10 feet south east of the centerline of the crossing pipe alignment, measured perpendicularly and shall extend from the west canal easement to the east, approximately 130 feet in length.

The south west boundary shall be perpendicular to the south west end of the proposed pipeline, approximately 20 feet in length, centered on the centerline of the proposed pipe alignment.
