BACKGROUND

The recruitment and retention of the best-qualified and physically fit workforce is one of the top priorities of the Washoe County Sheriff's Office. The use of preplacement and annual medical exams for physically demanding occupations are good business practice, and are also required by law:

NAC 289.110 requires that no person be appointed to perform the duties of a peace officer unless he/she has undergone a medical examination performed by a licensed physician who confirms in writing that no physical condition exists which would adversely affect his performance of the duties of a peace officer. The employing agency shall inform the examining physician of the specific functions required by the position to be filled.

NRS Chapter 617 mandates that full-time police officers submit to a physical examination on an annual basis to qualify for coverage for lung and heart diseases, which are considered under the law to be occupational diseases of police officers. The lung and heart physical examinations are conducted during the employee's birth month each year. Furthermore, NRS 616A.035 and 616C.052 requires the Sheriff's Office to provide pre-employment and post-employment baseline testing for contagious diseases, including without limitation, hepatitis A, hepatitis B, hepatitis C and human immunodeficiency virus (HIV). The

Sheriff's Office has been providing an on-going hepatitis screening and vaccination program since the 1990s.

The County requires prospective Sheriff's Office employees, as required by specific positions, to submit to a preplacement medical screening examination following an offer of employment. The purpose of the preplacement medical examination is for the examining physician to review the prospective employee's past work and medical history as well as his or her present physical condition to ensure that the prospective employee will be able to perform the physically demanding activities required by the specific job. The preplacement and annual medical examinations are job validated medical screening requirements.

The medical screening was developed based upon the physical requirements associated with the essential job functions in accordance with the Uniform Guidelines on Employee Selection and meeting the requirements of the NRS and NAC listed above.

The preplacement medical examination is conducted to ensure that the prospective employee is free of any medical condition, which could become aggravated if the individual was placed in a position, which exposed him or her to environmental or physical hazards. It also provides the opportunity to collect baseline health information from the prospective employee to document any preexisting condition that could later interfere with job performance or other activities of daily living.

In addition to the statutory requirements, Washoe County also requires incumbent Sheriff's Office sworn personnel to submit to periodic medical examinations. The purpose of the periodic medical examination is to review the employee's current medical status and present physical condition to ensure that the employee can continue to perform the physically demanding activities required by the job.

ARC Health and Wellness Centers has served Washoe County's medical needs professionally since July of 2015. With increasing costs, ARC has requested a price increase effective July 1, 2024 – June 30, 2027, for the following items:
