Subject: VOLUNTEER APPLICATION: Animal Services Advisory Board

Application for Animal Services Advisory Board

Additional Information:

In my time volunteering with the Nevada Humane Society I fostered dozens of kittens, I also cared for elderly and unwell animals as a sort of hospice, or just a place for them to recover until they could be adopted. I also transported animals between various adoption agencies, and participated in the trap, neuter/spay, and release program for feral cats throughout the Reno/Sparks area. Animal welfare is one of my passions as well as civic duty, virtue, and a desire to serve the public. I have run for public office three times and work in a career which directly serves the constituents of the State of Nevada.
