

Why are you interested in serving on this board/commission?

I grew up in the town of Ely, NV a short 320miles to the east, with endless outdoor opportunities, pursuits, and adventures the vast majority of my time was spent in the outdoors. 22years ago I moved to Reno to attend the University of Nevada, Reno. After getting used to the Biggest Little City I longed to continue my outdoor adventures and found, fulfilled, and continue to experience these in the mountains of Washoe County. From the great Sierras to the high desert of the Granites and Sheldon. Over the years we have seen drastic changes across our great state as it relates to our natural resources and wildlife especially, in Washoe County. Between drought, fires, predators, habitat, infestations, and miss management, Washoe Counties deer and antelope herds that were once abundant have all but vanished. Over the past several years, I have been actively participating and following the Washoe CAB and Nevada’s Board of Wildlife Commission. I am truly interested in making a greater impact to improve our and our children’s outdoor and recreational experiences in Washoe County and across the state. By being on the Washoe County CAB to NDOW I feel I will be an asset and an activist for wildlife in Washoe County on these issues while gaining a larger voice.

How do you feel you are qualified to serve on this board? Please include any past board/commission experience.

As an outdoorsman, conservation of our wildlife should be our top priority. Year to year, month to month, my family and I are in the outdoors experiencing what Washoe County and our great state has to offer, from fishing in the spring through summer and spending the majority of our fall in the field chasing game with my family, we have first handedly witnessed the changes and challenges with our wildlife across the state. As I stated in the previous question, I have been actively following both the Washoe CAB and the Commission, I am up to speed on the issues facing our state, especially the issues and challenges facing Washoe County. As a past board of director for NNSCI, I am vastly experienced in the promotion of wildlife enhancement. Therefore, I strongly believe with my experience, my voice, views, energy, and my major concern of the future of Nevada’s wildlife. I know I would be more beneficial to our local community advising NDOW through the Washoe CAB in wildlife conservation. I will be committed to represent Washoe County and its constituencies in the conservation of our wildlife species, dedicate my time and resources to better the future of our wildlife. I am prepared to work directly with NDOW, federal agencies, and the many diverse organizations to best represent the needs of securing a healthy wildlife population in both Washoe County and the State of Nevada.
