

Resourceful Manager/Project Manager with over 9+ years of experience managing a multitude of projects including utility installation and re-location, highways, structural concrete, substation construction, mining, subdivision development and homebuilding. Skilled in coordinating and leading diverse project teams to achieve timely and cost-efficient project implementation and execution.

Professional Experience

Area Service Manager – Lines Construction/Maintenance

September 2020 – Present

NV Energy - Reno, NV

- Effectively manage seven line crews, consisting of approximately 30 linemen.
- Oversee scheduling of both daily and long-term crew assignments to ensure capital maintenance and new business requirements are met.
- Participate in the development and execution of annual capital maintenance budgets.
- Perform on-call duty supervisor rotations to respond to after-hours and weekend emergencies.
- Stand in for other managers when needed, including trouble/response and inspections.
- Conduct bi-weekly safety meetings/trainings for the entire Reno Electric team.
- Mentor and coach incoming Line Administrators/Schedulers and Engineers.
- Responsible for coordinating crew response to emergencies such as outages, storms and fires.
- Participated in the formulation and execution of NDPP circuit patrols for Tier 1 and 2 areas in the Truckee Meadows.
- Served as crew response manager and branch manager for Reno Lines Group during PSOM events, which included coordinating de-energization/re-energization efforts and emergency crew response.

Street and Highway Coordinator

May 2018 – August 2020

NV Energy - Reno, NV

- Serve as a liaison between NV Energy design/operations and multiple governmental agencies in Northern Nevada.
- Complete plan reviews of all public works projects to identify potential conflicts with electric and gas facilities.
- Collaborate with other public utilities, communications companies, and public agencies on upcoming projects in the Northern Nevada area.
- Oversee and help facilitate projects that contain Federal Buy America requirements.
- Coordinate with multiple departments to complete projects including, but not limited to, the Red Rock Feeder Re-route, and the Tyner Way Underground Re-build.
- Assisted in the execution of the newly unveiled Underground Management Plan.
- Aided in the implementation of a new mapping request and tracking process to decrease turn-around time and increase efficiency.

Project Manager

November 2016 – May 2018

Toll Brother's - Reno, NV

- Prepared monthly and quarterly financial reports, including community business plans.
- Analyzed overhead and fixed expenses to mitigate overages and redundancies.
- Oversaw construction and sales of residential homebuilding to ensure compliance with company requirements.
- Coordinated with trade partners to identify schedule and process inefficiencies.
- Lead a multi-functional team including sales, marketing and construction.
- Served as interface between customers and project team.
- Prepared project scope for bidding purposes.
- Completed contract evaluation, negotiation and award.

Project Manager

September 2013 – October 2016

Q & D Construction, Inc. - Reno, NV

- Audited and reviewed construction plans for bidding and construction.
- Examined local and federal specifications for project compliance.
- Daily oversight and review of projects to determine profitability and timely schedule completion.
- Completed daily/weekly cost tracking and scheduling utilizing critical path method software.
- Reviewed new projects to determine profitability and success.
- Facilitated communication between various stakeholders including owners, designers, businesses, governmental agencies and the general public.
- Managed multiple utility projects for owners, including but not limited to, NV Energy, AT&T and Charter.
