II.B Investment Type: Competitive

I. Overview - Investment # 2

II.C - What is the funding source for this investment:

Funding Source	Funding Amount
SHSP	\$73,060.00

II.D - Is this the consolidated Fusion Center Investment? No

II.E - How much of this Investment will be obligated towards Law Enforcement Terrorism Prevention Activities (LETPA): \$73,060.00

II.F - Investment Description:

In Nevada Threat Hazard Identification Risk Assessments (THIRA) and State Preparedness Reports (SPR), cyber security is listed as a high priority core capability. Cybersecurity is listed nationally as a primary threat. Nevada THIRA is groundwork for all potential events and a resource Nevada Commission on Homeland Security uses to vote on top 5 priorities Nevada will focus on. NCHS listed cybersecurity as #2 priority to be addressed in current fiscal year. Cybersecurity (CSP) Project is one component of statewide need to address Cybersecurity at Protection level. Investment Justification represents the steps selected to continue to address the statewide cyber security capability deficit identified. CSP incorporates mechanisms to react to the monitoring status to ensure accomplishment of objectives and provide law enforcement response. Target capability is to implement and maintain procedures to detect malicious activity and to conduct technical and investigative-based countermeasures, mitigations, and operations against malicious actors to counter existing and emerging cyber-based threats, consistent with established protocols and law enforcement methods. This involves planning, measuring, monitoring, analysis and corrective action. CSP involves exercising counteractive responses as necessary to yield a required outcome consequent upon monitoring performance and ID of breach; process comparing actual performance to analyze variances to expected, evaluating possible alternatives, and taking appropriate correct action as needed. Nevada State Comprehensive Emergency Management Plan listed threats/hazards most likely to encounter: Technological and Accidental, blackouts, hazardous materials, building/structural; defects, local power and/or communication loss, cyber attacks/threats; Natural Disasters, flood, severe weather, fires, earthquakes, winter storms/cold; Terrorist Hazards, biological, chemical, explosions, cyber attack. Equipment continues to rate low in POETE (planning, organization, equipment, training and exercise) scoring of cyber security core capability. Approach tracks capabilities-based planning model as outlined by DHS, aligns with format used by State Preparedness Report (SPR) evaluation tool. Majority of funding requested in this investment justification will be used to address this recognized gap. Some vendor provided training is included, but lack of training continues to impact capabilities.
