My reason to pursue becoming an Assemblyman is two fold: one, I am very concerned over the rising influence of the Southern part of Nevada (Clark County) and would like to be in a position to represent and be a voice for the Northern part, specifically Washoe County and District 30. Secondly, being a part of the Assembly would allow students I will coach and have coached in the WTP Program to actively see how the Assembly and politics work in Nevada. We need greater understanding of and representation from our younger generations in the political process.

Thank you for your consideration.

Comments about Assembly Bills

After reviewing the 2019 legislative agenda, you might find my opinions on the following Assembly Bills pertinent while reviewing my application (these opinions are subject to change pending discussion with bill sponsors, lobbyists and interested parties):

AB 3 – Marijuana Retail Stores and Dispensaries support. This area of commerce is new enough that adjustment/refinement of this area of commerce will be ongoing. YES

AB 4 – Granting of cities/municipalities the ability to create fire districts and enable them to tax to support new fire departments. After the events in California during the past year it makes sense that local governments be able to identify potential fire hazard areas and have assets in place to respond. While I am a tax conservative, local governments are best able to identify critical areas and staff responders. YES

AB 35 – Charter School updates. Educational opportunities should be expanded and supported. YES

AB 73 – Adding property transfer taxes to fund the homeless. In Northern Nevada the increasing market values of homes is making affordable housing difficult to find. This would add cost to an increasingly costly market and might actually cause more folks to become homeless. NO

AB 99 – Mandatory school instruction in the founding principles of American government. I have first hand experience in the current state of senior High School student's lack of knowledge and inspiration in this area. I would emphatically support this bill, even try to co-sponsor it. YES

AB 108 – Providing ½ hour for Unions to see government workers within 30 days of employment. Unions provide wonderful services to their constituents, but having the government provide taxpayer funded time to a private organization doesn't make sense and makes it look like the government is endorsing the union. Government should be neutral. NO

AB 125 and AB 203 – revisions to bail requirements. Access to bail should not be dependent on one's ability to pay. YES

AB 221 – Revisions to work and age requirements in the gaming industry, including lowering age requirements. Opening employment opportunities for younger workers makes good sense. YES

AB 218 – Education Savings Accounts. Any idea that increases educational opportunities makes sense to me. YES
