Public Comment:

Bill Trigerio stated he is the property owner due north of this subject property. He said he had concerns because he had heard conflicting stories. He said there is a utility line over the property line of the property owner due west. He said there is a pole mounted transformer that is shared by the 4 parcels. He said his main concern is despite no plan for a house, there is the right to build a second home. He said he was concerned with expanding the building apron so the house could be closer to the property line. His preference is to leave the building apron the same. Secondly, the property easement should be abandoned on both sides of the property or not at all. The abandonment leaves the easement on both sides of property for benefit of one and should be removed on both sides. That was our primary concern. We would like to get all the easements abandoned. He said he is in favor of that. He asked about removing property easement from our property 142-241-23 as long as this application is there. Evidence shows there is no use of the easement. He said he can work with Yasord's about placement of their home. That is their right.

MOTION: Commissioner Chvilicek Abandonment Case Number AB21-0004 (Yasord Property) I move that, after giving reasoned consideration to the information contained in the staff report and information received during the public hearing, the Washoe County Planning Commission approve, with conditions included as Exhibit A to this matter, Abandonment Case Number WAB21-0004 for Kristen and James Yasord, having made all three findings in accordance with Washoe County Code Section 110.806.20.

1. **Master Plan.** The abandonment or vacation is consistent with the policies, action programs, standards and maps of the Master Plan and the Southwest Truckee Meadows Area Plan; and
2. **No Detriment.** The abandonment or vacation does not result in a material injury to the public; and
3. **Existing Easements.** Existing public utility easements in the area to be abandoned or vacated can be reasonably relocated to provide similar or enhanced service.

Commissioner Donshick seconded the motion which passed unanimously.

C. Tentative Subdivision Map Case Number WTM21-008 (Braesview Subdivision) [For possible action] - For hearing, discussion, and possible action to approve a tentative subdivision map to allow the division of 4 parcels totaling 75.88 acres located off Foothill Rd. into 24 lots, with lot sizes ranging from 2.5 to 4.89 acres. The western portion of the site abuts Thomas Creek and will be subject to all requirements of Article 418, Significant Hydrologic Resources. Also, the proposal exceeds the threshold for major grading and will result in ± 7.43 acres of disturbance including $\pm 11,543$ CY of excavation and $\pm 6,674$ CY of imported material.

Julee Olander, Washoe County Planner, provided a Staff report presentation.

Dave Snelgrove, applicant representative, provided a PowerPoint slideshow. He introduced other representatives (Roger Davidson, Adam Giodano, Ed Thomas, project engineer with Lumos & Associates).

Public Comment:

Bill Erlach. asked about the intended access off of Mallory. He said he realized traffic on Foothill doesn't meet threshold for upgrades. He said there is another 54 acres next to this that will be developed that will add to the traffic. 2011 RTC Bike Plan shows that Foothill was supposed to have a bike lane in it. He said lots 1 and 24 have enough room to have a bike lane on their side. They have the space. He said Lot 17 shows a 40 ft drainage easement pointing at his property. He said in heaving rain years, we have had water shed off of that property.

Lisa Mays/Robert Mays said they are on Pickens, across from the proposed development. Mr. Mays stated where the proposed access is located on a curve with an elevation change. There is numerous times during the evening when motorcycles and cars like to speed and it's a blind spot. He said our second concern is what is going to happen to Steamboat water rights. The water comes down through the property and being used for irrigation; it has been that way for 35 years. He heard the developer is trying to change that from surface water rights to ground water rights for agricultural wells to irrigate. He said we have domestic wells. The problem with years like these, service water gets cut off in August because of lack of snowpack. For someone with unlimited access to wells, it may draw down our wells.

Commissioner Phillips asked if the developer changes the surface water rights to accommodate agricultural wells, will that come before the County before it happens. Ms. Olander, read an email from the Water Rights Manager, who said the conversion from Truckee Meadow surface water rights to ground water to be pumped and diverted to wells is not possible. TMWA does not typically allow you to have TMWA water and a well. Its either one or the other. The concerns about the water rights and irrigation wells and also TMWA water service for their house is not possible. Commissioner Phillips asked if they will try to have agricultural wells and TMWA water. Ms.

Olander, states that her understanding is that it is not possible. TMWA wants you to use their water. She said certain places have both, but TMWA is trying to phase those places out.

MOTION: Commissioner Nelson moved that, after giving reasoned consideration to the information contained in the staff report and information received during the public hearing, the Washoe County Planning Commission approve Tentative Subdivision Map Case Number WTM21-008 for Thomas Foothill, LLC, with the condition included as Exhibit A to this matter, having made all ten findings in accordance with Washoe County Code Section 110.608.25 and having addressed the Special Review Considerations in Washoe County Code Section 110.418.30:

- 2) **Design or Improvement.** That the design or improvement of the proposed subdivision is consistent with the Master Plan and any specific plan;
- 3) **Type of Development.** That the site is physically suited for the type of development proposed;
- 4) **Availability of Services.** That the subdivision will meet the requirements of Article 702, Adequate Public Facilities Management System;
- 5) **Fish or Wildlife.** That neither the design of the subdivision nor any proposed improvements is likely to cause substantial environmental damage, or substantial and avoidable injury to any endangered plant, wildlife or their habitat;
- 6) **Public Health.** That the design of the subdivision or type of improvement is not likely to cause significant public health problems;
- 7) **Easements.** That the design of the subdivision or the type of improvements will not conflict with easements acquired by the public at large for access through, or use of property within, the proposed subdivision;
- 8) **Access.** That the design of the subdivision provides any necessary access to surrounding, adjacent lands and provides appropriate secondary access for emergency vehicles;
- 9) **Dedications.** That any land or improvements to be dedicated to the County is consistent with the Master Plan; and
- 10) **Energy.** That the design of the subdivision provides, to the extent feasible, for future passive or natural heating or cooling opportunities in the subdivision.

Section 110.418.30, Special Review Considerations:

- (a) Conservation of topsoil;
- (b) Protection of surface water quality;
- (c) Conservation of natural vegetation, wildlife habitats and fisheries;

- (d) Control of erosion;

- (f) Provision for restoration of the project site to predevelopment conditions;

Commissioner Donshick seconded the motion which passed unanimously by roll call.

MOTION: Commissioner Bruce moved that, after giving reasoned consideration to the information contained in the staff report and information received during the public hearing, the Washoe County Planning Commission approve with conditions Special Use Permit Case Number WSUP21-0006 for Linda and Sean Moore, with the conditions, as included as Exhibit A, as amended, to this matter, having made all five findings in accordance with Washoe County Code Section 110.810.30. Dan Cahalane, Washoe County Planner, provided a Staff report presentation.

Commissioner Bruce asked a procedural question. He asked if we are considering what was included in the packet, or what was revised in the email received last night. DDA Gustafson said the revised documentation sent to board was also posted to the website to be available to the public at the same time. The revisions are to ensure the title of the ordinance matches the agenda language that was noticed and provided to the public, which also matches the case description. Revisions were for consistency with the title of the ordinance, the case description and what is posted. Commissioner Bruce asked if we should not deliberate on what we had and make changes in a public manner instead of slide under the table, without the revision having been posted when the previous material was posted. He asked if there is a fixed time period before the meeting when this information is available to the public. DDA Gustafson said there is no requirement under the Open Meeting Law that supporting materials be available prior to the meeting. DDA Gustafson said information can be provided at any time. Commissioner Bruce said any additional material should be included as an amendment to the original information. DDA Gustafson said an amendment isn't necessary because only the title of the ordinance was changed to match the language of the agenda item.

Dan Cahalane, Washoe County Planner, provided a Staff report presentation.

There was no response to the requests for public comment.

MOTION: Commissioner Donshick moved that, after giving reasoned consideration to the information contained in the staff report and information received during the public hearing, the Washoe County Planning Commission recommend approval of WDCA21-0003, to amend Washoe County Chapter 110 (Development Code) within Articles 304 and 902; and, to update these sections with Articles 304 and 902. Commissioner Donshick further move to authorize the Chair to sign the resolution contained in Attachment A on behalf of the Washoe County Planning Commission and to direct staff to present a report of this Commission's recommendation to the Washoe County Board of County Commissioners within 60 days of today's date. This recommendation for approval is based on all the following four findings in accordance with Washoe County Code Section 11.818.15(e).

Commissioner Chvilicek seconded the motion which passed unanimously.

F. Development Code Amendment Case Number WDCA21-0002 (Washoe County Development Code Amendment to Articles 606 Parcel Maps and 916 Establishment of Committees) [For possible action] – For hearing discussion and possible action to: Initiate an amendment to Washoe County Code Chapter 110 (Development Code), Article 606, Parcel Maps. The amendment updates references to the current name of the Community Services Department, Planning and Building Division; clarifies language by removing the term "subdivision"; requires approval of a Tentative Subdivision Map, in accordance with WCC 110.608, for division of a lot or lots created within five (5) years of the recording of a

map creating the original parcel; and removes noticing requirements for subsequent tentative parcel maps; and other matters necessarily connected therewith and pertaining there to.

AND

- Phone: 775-328-3622
- Email: rpelham@washoecounty.us

Roger Pelham, Washoe County Senior Planner, provided a Staff report presentation.

Chair Chesney asked if he should recuse himself from voting on this matter since he sits on the Parcel Map Review Committee. DDA Gustafson stated she doesn't believe it's necessary since his reason doesn't meet the statutory criterial for abstention.

Chair Chesney said these changes are long overdue. This cleans up the process for the Parcel Map Review Committee. It is a good process. We have had developers use and abuse the system, which is resolved with this process.

Commissioner Donshick asked about the reasoning for noticing requirement being removed. Mr. Pelham explained that the notices were for subsequent parcel maps. There will be no more subsequent parcel maps. Therefore, the noticing is irrelevant. The noticing will be in accordance with the subdivision regulations.

10. Chair and Commission Items

*A. Future agenda items

Commissioner Chvilicek stated she received an email earlier today from Wendy Boreal, a developer from Woodland Village requesting to meet with Commissioner Chvilicek.
