

Chair Report, April 2026

Previous Requests & Their Resolutions

- A resident wrote to the CAB requesting a meeting of City of Sparks Planning Commission and the Washoe County Planning Commission to discuss general development in Spanish Springs, and specifically the Red Hawk new proposed development, with possible concerns surrounding new development and how these fall within the Master Plan. The June meeting of the Spanish Springs CAB will provide information including legal context to development, the Master Plan, and a mock scenario where attendees will learn about the development process. That meeting will take place on a special date, the third Wednesday of the month, June 17, to accommodate the Primary Election.
- A resident used the Spanish Springs Input Portal to ask about requesting additional signage at all access points on the Sugarloaf Trail, to indicate the prohibition of bicycles. This request was sent to the Washoe County Parks staff for consideration, and they confirmed that additional signage had been ordered for installation in the near future.
