BACKGROUND

Title XX of the Social Security Act provides for funding to states to provide locally relevant social services through the Social Services Block Grant (SSBG). States are allocated funding through a formula-based entitlement and have substantial discretion in the use of SSBG funds. Each State determines what services are provided, who is eligible to receive them, and how funds are used. The State of Nevada Department of Health and Human Services allocates these funds to state and non-state programs providing social services in urban and rural communities statewide. Through the SSBG, States provide essential social services that help achieve a myriad of goals to reduce dependency and promote self-sufficiency; prevent and protect children and adults from neglect, abuse and exploitation; and help individuals who are unable to take care of themselves to stay in their homes or to find the best institutional arrangements.

The Agency received the Notice of Award for this grant on September 19, 2024 with an effective date of July 1, 2024; therefore, the request to accept this award is retroactive.

GRANT AWARD SUMMARY
