

In this pledge, we formalize Washoe County's (County's) support for the goals in *Nevada's 2026-2030 Strategic Highway Safety Plan (SHSP)* and the overall vision of Zero Fatalities on Nevada's public roadways. In following the Safe System Approach principles, the safety of all road users relies on shared responsibility from everyone, including all levels of government, non-profit and advocacy groups, engineers, researchers, and the public. Dedication to proven safety programs and projects can reduce traffic fatalities and serious injuries. The County is committed to enhancing existing programs that work and implementing the safety strategies outlined in the Supplement to the Tahoe Transportation Plan (TTP) to continue to drive down fatalities and serious injuries within the County. In accordance with the Supplement to the TTP, the County will continue to take the necessary steps to improve safety on the region's roadways to realize our aspirational goal of zero traffic fatalities and serious injuries by 2050.
