BACKGROUND

NRS 244A.7645 authorizes the utilization of 911 surcharge funds to enhance the telephone system for reporting an emergency and for purchasing and maintaining portable event recording devices.

NRS 244A.7645(3)(a)(2) provides, in part, that E911 funds “must be used only... [to pay] costs for personnel and training associated with the routine maintenance and updating of the database for the system.” In the past, the Washoe County District Attorney’s staff has advised the E911 Emergency Response Advisory Committee that it must articulate a nexus between proposed training and the stated purpose of the statute (supporting software database maintenance and call taking), in which case, the expenditure of surcharge funds for such

training would be permissible. Here, the E911 Emergency Response Advisory Committee has determined that such a nexus exists and recommends approval of the training. Travel may be included as “costs” of training.

FISCAL IMPACT

The Enhanced 911 Fund (208) has sufficient budget authority in the FY26 budget for agency payment/reimbursement requests in the Enhanced 911 Admin Cost Center (800801), Payments to Other Agencies (710400), Seminars and Meetings (710509), and Travel (711210); and E911 Public Safety Cameras (800802), Payments to Other Agencies (710400). Table 2 details reimbursements by agency and cost center.
