Subject: Support for the Purchase and Installation of the Constant Technologies AV Solution

Beth Todd
Business Solutions &
Integration

Dear Purchasing Team,

Kobe Harkins
Customer & Enterprise
Solutions

I am writing on behalf of the Technology Service Department to express support for the acquisition and installation of the Constant Technologies AV solution for the Real Time Intelligence Center (RTIC). This advanced solution features a video wall that delivers real-time visualizations of critical data, surveillance feeds, and situational updates. By enhancing situational awareness, collaboration, and communication among RTIC analysts, this solution will significantly improve operational efficiency.

Quinn Korbolic
Regional Services

The integration of information from various sources will help establish a common operating picture, supporting faster and more informed decision-making. Technology Services will be supporting this project through installation and implementation, ensuring a seamless implementation process.

I believe that the Constant Technologies AV solution will be an asset to Washoe County, and I recommend its approval.

Thank you for your consideration.

Sincerely,

Kobe Harkins
