SCHEDULE A DESCRIPTION OF PROJECT

PURPOSE

PROBLEM STATEMENT:

The Washoe County Department of Alternative Sentencing (DAS) is the primary agency in Washoe County for conducting Pretrial Supervision and Post Adjudication Supervision (Probation) for DUI offenses committed in our community. Supervision and case management have been proven to be key elements in contributing to the successful completion of court requirements. DAS is also responsible for the regional drug testing laboratory under the program name of Sober 24. Sober 24 provides drug and alcohol testing using varying methodologies to include an in-house urinalysis chemical analyzer, drug patches, electronic breath alcohol devices, check in kiosks with breath alcohol capabilities, and oral fluid drug tests.

In CY 2023, DAS supervised approximately 2,046 participants a month and conducted 153,323 drug tests and 184,036 breath alcohol tests.

Like all Pre-trial and probation agencies throughout the country, DAS has struggled to provide meaningful evidence-based supervision techniques, while complying with laws that require the least restrictive measures possible. Last year DAS implemented the use of PBT Remote Kiosks. DAS found the new technology could obtain PBT tests in the field and also lessened the stress on the limited number of full-time employees available to monitor participants. Multiple stationary check-in and alcohol testing devices throughout the County verifies compliance with the "No Alcohol" condition ordered on DUI cases. By installing AB Kiosks in areas of the community that are highly populated with probationers and pre-trial releasees under DAS supervision, and those areas in which public transportation is not readily available, DAS can provide opportunities for low-risk offenders to comply with check-in.

Prior to use of the kiosks, handheld PBT devices were administered by staff to test each program participant appearing in person once or twice a day. This practice posed many problems for both staff and participants. For participants, especially those with suspended licenses, it required the participant to ride a bus for several hours a day or risk driving on a suspended license. This created a barrier to monitoring compliance for DUI cases. Also, in consideration of the burden already placed on the participants to get to the DAS office to test, the tests were not randomized. Scheduled in predictable time frames, the participants knew when they would be tested and could attempt to "drink around" the test. This method also placed a burden on the staff as they were required to manually enter every alcohol test, which in CY 2023 was approximately 184,000 breath tests conducted.

In FY 2024, due to a grant award from OTS, the Department of Alternative Sentencing was able to lease and deploy two Preliminary Breath Test Kiosks which expanded the supervision area to communities in which travel to our main office was difficult. The kiosks are placed where they can be reached in those communities, breath results are transmitted electronically to DAS and data captured in the software system without the need to manually enter it. DAS case managers can easily upload messaging regarding court dates, fines and fees, and other supervision-related information directly into the Kiosk for each offender so they are informed of real-time and upcoming requirements. This reduces the administration burden on case managers and officers with heavy caseloads.

A new goal is to coordinate with other northern Nevada jurisdictions to create a network of kiosks throughout the region that would serve the remote rural communities and be available to all supervising agencies. Washoe County Department of Alternative Sentencing has obtained a commitment from the Douglas County Department of Alternative Sentencing to place a third kiosk in their jurisdiction to assist with their DUI monitoring program. As drivers commonly travel between the two counties on daily commutes or for other reasons, the ability to test in either county makes sense. The kiosks will electronically direct the breath results to the appropriate DAS office while allowing the participant to test close to home or office.

The Washoe County DAS will continue to approach other Northern Nevada agencies to expand the kiosk network. The Project Manager will continue to meet with neighboring jurisdictions to discuss utilization of the kiosks for their DUI cases. Collaborating with sister organizations allows for consistency in compliance methodologies, while fostering a "united front" with like agencies and the offenders they supervise.

COUNTERMEASURES:

Countermeasures That Work, 11th Edition, 2023

Impaired Driving Prevention

Strategy ID1

Prosecution, Adjudication, Education and Offender Programs

GOALS:

1. To provide region specific testing locations to facilitate and maximize compliance
2. To provide testing sites that are accessible by other jurisdictions
3. To increase numbers of enrolled participants for more wide-spread positive community outcomes

OBJECTIVES

MEASUREABLE STEPS / TIMELINE

By September 30,2025:

1. To enlarge the region of testing by one county.
2. To increase the number of kiosks from 3 to 4
3. Conduct at least 4 trainings and/or briefings over the grant period to staff and partners in the judicial and probation space.
4. Increase kiosk check-ins by 10%

TIMELINE:

Throughout the grant period, data will be collected on a monthly basis from the kiosks by the Program Manager to measure total check-ins completed, total PBT's conducted and number of positive results, other agencies using the kiosks, and the amount of fees collected through the kiosks. Information about any problems, delays, successes, or areas of concern will be reported to OTS in monthly progress reports.

SELF SUSTAINABLE:

Washoe County Department of Alternative Sentencing along with Douglas County Department of Alternative Sentencing will evaluate the viability of this project with the data collected over the term of the grant. If viability is as expected, an agreement will be made between two agencies to establish cost sharing responsibilities for continued lease of kiosks. In addition, Washoe County Department of Alternative Sentencing will continue to attempt to partner with other agencies in the region that would benefit from the use of the kiosks. Any additional agencies will be asked to cost share in the lease of the kiosks.

The Reno Justice Court has agreed that every pre-trial case with a DUI charge attached will be offered the opportunity to elect the 24/7 program requiring PBTs two times a day. The first 30 days of this program require that the participant utilize the kiosk to conduct PBT's. With directives such as this from the courts, a significant increase in PBT's conducted through the kiosk is anticipated as the project becomes more widely known, and the increased user fees will offset the cost of the kiosks.

ACTIVITIES:

1. Upon notification of award, submit through Board of County Commissioners for approval at earliest available meeting.
2. Upon approval from BCC, work with Douglas County Department of Alternative Sentencing and kiosk vendor to install new kiosk.
3. The additional requested kiosk will be deployed within the first quarter of the grant cycle.
4. The Project Manager will continue to meet with neighboring jurisdictions to discuss utilization of the kiosks for their DUI cases.
5. Information about neighboring jurisdictions who were contacted, who declined, and who agreed to use the kiosks will be reported to OTS by the third monthly progress report.
6. Throughout the grant period, data will be collected monthly from the kiosks by the Program Manager to measure:
 - a. total check-ins completed, total PBT's conducted
 - b. number of positive results
 - c. other agencies using the kiosks
7. Information about any problems, delays, successes, or areas of concern will be reported to OTS in monthly progress reports.

Additional required activities:

Within 10 days of receiving an authorization to proceed, the 2nd Judicial Court will issue a press release announcing receipt of the award and how it will be used to benefit the community.

An agency representative will attend quarterly Impaired Driving Task Force Meetings and the Traffic Safety Summit when held in northern Nevada.

Community Engagement:

Monthly activity reports will communicate any examples of DASø's positive community impact, and/or ways it has addressed disparities regarding ability to pay for access to services, and/or any feedback from current participants or successful program graduates.

OTHER REQUIRED ACTIVITIES:

All sub-recipients are required to:

1. Hold a press conference or submit press release to local newspaper(s) detailing the program, funding source, goals and objectives and the probable outcome, within 30 days of receipt of Authorization to Proceed (ATP).
2. Track, account for and report all in-kind contributions pertaining to this project. Vehicle operation and maintenance, in addition to officer and supervisor salaries/benefits when not in a grant overtime mode, are examples of in-kind contributions.
3. Submit monthly progress reports detailing the status of each objective and activity by the 15th of the following month, as well as final *Annual* report summarizing the project's accomplishments/shortcomings within 30 days of end of grant. **Progress reports should include** copies of any reports, documents, press releases, and print media coverage related to the grant project.
4. Claims for reimbursement must be submitted monthly for any expenses incurred and paid during that time period. If expenses are for personnel, a Payroll Certification Report must also be completed and submitted.

All law enforcement agencies are required to also:

1. Report motor vehicle fatality data to Nevada's Fatality Analysis Reporting System (FARS) analyst at the Nevada Office of Traffic Safety, 107 Jacobsen Way, Carson City NV 89711, fax: 775-684-7486 or fars@dps.state.nv.us
 - Ø The data gathered by the States to perform FARS analysis is also used by the States when applying for federal highway incentive grants.
 - Ø FARS data is the only census data of all fatal traffic crashes in the U.S. and it is used for many performance measure goals accepted by the States, NHTSA and Federal Highway Administration (FHWA).NHTSA places the following requirements on the State Office of Traffic Safety to:
 - Provide for the collection of specific data on all reportable traffic fatalities that occur within each jurisdiction (the fifty states plus the District of Columbia, and Puerto Rico);
 - Report basic information on every motor vehicle crash with reportable fatalities within specified time frames;
 - Report all required information on each such crash within a specified time frame and;
 - Encourage the use of the FARS data by members of the traffic and motor vehicle safety community as an important resource for decision making and policy development.
 - To ensure data currency, OTS must report basic information on each crash/fatality within two weeks of the crash/fatality; and to report on basic information on each crash/fatality during a holiday period within one day of the end of that holiday period. All data must be entered using the FARS microcomputer data entry (MDE) system within 90 days following the crash/fatality.
2. Send motor vehicle crash reports per NRS 484E.110, et seq., electronically or manually to the Department of Public Safety/NCATS database, within 10 days after the investigation of the crash and as otherwise required by state law.

EVALUATION:

A Process evaluation will be conducted by the Project Manager, Chief Roper, to determine if the kiosk locations are well used and cost effective.

Monthly data collection from each kiosk in each area will be conducted by the Project Manager to measure the number of check-ins and PBT tests to determine increased or decreased use.

Data collected each month will include new, active, and completed cases sorted by court and type (probation, pre-trial), officer and case management activity, and revenue received from drug testing activities.
