SUMMARY

The Board will receive the declaration of a state of emergency issued by the Washoe County Manager on January 6, 2023, for Washoe County resulting from the Severe Storms starting on January 8, 2023. The Severe Storms caused interruptions to government, disruption of utility services, and other potential and related events in Washoe County to the extent that extraordinary measures must be taken to protect the public health, safety, and welfare, and is asked to ratify that declaration by a majority of the Board and to publicize the same pursuant to WCC 65.330.

BACKGROUND

Prior to January 6, 2023, Washoe County staff, including the Emergency Manager Kelly Echeverria and County Manager Eric Brown, were notified by the National Weather Service of an imminent series of high-precipitation storms predicted for Northern Nevada and Washoe County which were highly likely to result in localized flooding of nearby streams and other local natural and constructed drainage facilities throughout the entirety of Washoe County. County staff determined that due to the threat of loss of life, injury to person and property, human suffering or financial loss which would require extraordinary measures to be taken to protect the public health, safety and welfare, that an emergency as defined at WCC 65.300 existed and therefore requested the County Manager declare an emergency. On January 6, 2023, County Manager Eric Brown
