Amount Requested 202,346.75 Mitigation Fund Account Water Quality

If using funds from multiple accounts use additional line below.

Amount Requested _____ Mitigation Fund Account _____

Funds will be administered by? Requesting Entity

O&M Local Match Amount _____ O&M Local Match Funding Source _____

Project Name Upper Third and Rosewood Creeks WQIP - Phase 1 Project EIP Number (required) 06.01.03.0024

Project Description
(Please include what the funds will be used for specifically, environmental benefits the project intends to achieve, and how it is consistent with the Environmental Improvement Program)

This request is for match funding for the implementation of the Upper Third and Rosewood Creeks WQIP Phase 1, which is Washoe County's next water quality improvement project for the benefit of Lake Tahoe Clarity in compliance with the Interlocal Agreement between Washoe County and NDEP. Washoe County received funding from the Nevada Division of State Lands for the construction of this phase, which requires 25% match funding. Washoe County intends to use these funds as match.

This funding will be used to install stormwater control facilities that capture fine sediment particles in urbanized areas in Incline Village, specifically the Incline Village 1 neighborhood.

What phase of the project will these funds be expended on? Implementation

Project/Construction Schedule Start/End Dates 6/1/2026-11/30/2027

Indicate any other funding sources and amounts for this project Total project cost is \$809,387.00, NDSL 75%, Mitigation Funds 25%

Is this project required as part of a mitigation requirement? No

Please attach Board/Council approval or any other supplemental information if applicable.

Date Received _____ For Internal Use Only

REQUIREMENTS FOR RELEASE OF AIR AND WATER QUALITY FUNDS
as per Policy Guidelines approved by the TRPA Governing Board on June 23, 2010

Project must be on the EIP 5-year list

Cannot be released for projects that are required as part of project mitigation

Mitigation fund requests must have:

- o Project description
- o Description of project readiness
- o Project priority
- o Project schedule
- o Amount and type of funds requested
- o Any other funding sources covering the project

Up to 25% may be used for administration and O&M but require a 1:1 local funding match

Air or Water quality mitigation funds cannot be used for ongoing administrative costs such as design studies, environmental documents, application costs, or other pre-design tasks

Accrued interest may be used for project planning and effectiveness monitoring associated with implementation of projects on the 5-year list

Funds can be used for the purchase of certain equipment or vehicles such as high-efficiency street sweepers, clean technology transit vehicles, and vector trucks, provided the local jurisdiction commits to funding the ongoing maintenance of the equipment of vehicles

Before release of funds, the requesting entity must show documentation that all mitigation funds collected have been paid to TRPA (required monthly)

Air

Funds are available to local jurisdictions or as authorized by local jurisdiction to transfer to the Tahoe Transportation District (TTD)

Project must be consistent with the

- o Regional Transportation Plan
- o Environmental Improvement Program
- o 1992 Air Quality Plan

Accrued interest may be used for air quality projects /program or for effectiveness monitoring associated with projects on the 5-year list

As an alternative to distributing air quality mitigation funds to the jurisdiction of origin, a portion of the air quality mitigation funds may be distributed across jurisdictional boundaries to support projects of regional priority that are specifically identified in a regional capital improvement program developed in cooperation with local jurisdictions, such as the Five Year Environmental Improvement Program (EIP) Priority Project List.

Water

Given to local jurisdictions for water quality related EIP Projects

Project must be consistent with

- o TRPA's 208 Water Quality Management Plan
- o Environmental Improvement Program

Accrued interest may be used for water quality improvement projects, water quality planning, or effectiveness monitoring associated with projects on the 5-year list

At least 25% of the water quality mitigation funds shall be set aside for Stream Environment Zone (SEZ) projects

- o This jurisdictional set-aside shall be individually evaluated and may be waived if TRPA determines that there are no more SEZ restoration projects identified in a given jurisdiction.
