

Exhibit A

Example precipitation gauge and wind screen. The tower portion below the gauge is a different style than will be used.

Example of a Rohn tower (on right) at the former Davis Creek Park station. The proposed tower will be several feet shorter.

View looking north. The lathe marked with pink flagging at the center of the photo approximately indicates the proposed site.

View looking east. The lathe marked with pink flagging at the center of the photo approximately indicates the proposed site.

View looking south. The lathe marked with pink flagging at the center of the photo approximately indicates the proposed site.

View looking west. The lathe marked with pink flagging at the center of the photo approximately indicates the proposed site.
