BACKGROUND

Northern Nevada Public Health (NNPH) recognized the need for a Clinical Operations Assessment of the Community and Clinical Health Services (CCHS) Division. 330 Partners conducted the Clinical Operations Assessment and compiled the attached report. CCHS developed an Action Plan to address the recommendations identified by 330 Partners.

As part of the assessment 330 Partners identified the CCHS Division “displayed several strong program attributes” including “positive performance in the areas of Quality and Safety, 340B Pharmacy Program Integrity and Data/Grants Management”. Staff also demonstrated commitment to NNPH, the CCHS programs and the clients being served.

The report focuses on recommendations that should be considered. The recommendations are broken down into seven categories: Communication, Culture, Human Resources, Finance and Data, Electronic Health Record, Quality and Compliance, and Programs and Services. The team has taken these recommendations seriously and developed an Action Plan to address these recommendations. The Action Plan has already started to be implemented and is an attachment.
