BACKGROUND

The Federal Emergency Management Agency (FEMA) requires that each jurisdiction adopts a Multi-Hazard Mitigation Plan on a 5-year cycle. Washoe County published the County's first Hazard Mitigation Plan in 2005. FEMA encourages a regional approach to mitigation and mitigation plans. Washoe County worked with jurisdictional partners, stakeholders and the public to create the Washoe County Regional Hazard Mitigation Plan.

This plan was presented to citizens in public meetings and via website publication. This plan has been approved by the State of Nevada and is currently with FEMA for review and approval. FEMA returned a request for revisions after the previous Board of County Commissioner adoption in May of 2025. The 2025 Washoe County Regional Hazard Mitigation Plan may require revision to meet the plan approval requirements, changes occurring after adoption will not require the Washoe County Board of County Commissioners to re-adopt any further iterations of the plan.

FISCAL IMPACT
