SCHEDULE A
DESCRIPTION OF PROJECT

SPECIAL CONDITIONS:

PURPOSE

PROBLEM STATEMENT:

In many low-income and underserved communities across Nevada, children and youth frequently rely on walking, biking, or scooting as their primary means of transportation to and from school. However, these neighborhoods often lack the infrastructure, resources, and education necessary to support safe and accessible active transportation. The absence of basic safety features such as sidewalks, crosswalks, signage, bike lanes, and traffic-calming measures places children at a significantly higher risk of crashes, injuries, and fatalities during their daily commutes.

This disparity is further compounded by limited access to culturally relevant traffic safety education and engagement programs. Families in these communities may not receive consistent information about safe mobility practices or have the means to access safety gear like bike helmets or reflective materials. As a result, preventable injuries and traffic-related incidents continue to disproportionately affect youth from low-income backgrounds, particularly during high-risk travel periods such as school arrival and dismissal times.

Beyond immediate safety concerns, this inequity presents broader implications for child health, development, and social mobility. Unsafe travel environments can deter physical activity, reduce school attendance, increase parental concerns, and limit opportunities for independence. Without targeted, community-based interventions, vulnerable children will continue to face disproportionate risks to their health and safety simply while attempting to get to school.

COUNTERMEASURES:

Education, Prevention, & Intervention

GOALS:

The overarching goal of this project is to promote safe mobility among children and families in Washoe County by embedding traffic safety education, outreach, and community engagement into the environments where they live, learn, work, and play.

The project will expand NNPH's existing Walking School Bus program to new school sites and explore opportunities to implement complementary initiatives guided by local needs and national best practices. These efforts will:

- Increase awareness and understanding of traffic safety and mobility strategies among youth and their families
- Strengthen confidence and motivation to engage in safe walking and biking behaviors
- Foster a culture of shared responsibility and safety within schools and across the broader community

OBJECTIVES

MEASUREABLE STEPS / TIMELINE

Objective 1: Increase Knowledge of Safe Mobility Practices

Approach: Education sessions will include interactive instruction on safely navigating crosswalks, using protective equipment, and understanding traffic signals. Instruction will be tailored for cultural relevance and age appropriateness.

Objective 2: Expand Walking School Bus Programming

Approach: NNPH will work with school administrators to identify high-need locations, recruit and train community volunteers or staff leaders, and promote the program through school channels.

Objective 3: Promote a Safe Awareness Campaign Through Community Outreach

Approach: NNPH will deploy a culturally tailored, mixed media campaign focused on safety messages, with special attention to peak school commute times and National Walk to School Day.

Objective 4: Engage Partners in Program Implementation

Partners will provide feedback, align efforts, and share best practices to improve program effectiveness and reach.

Approach: NNPH will document feedback, share materials and data, and work collaboratively with partners to adapt programming as needed.

“Grant funds shall be expended for the purposes and budget specified herein.”

TIMELINE:

By September 30, 2026, deliver at least 10 safe mobility education sessions in underserved neighborhoods, schools or community settings reaching a minimum of 300 participants.

By June 30, 2026, launch Walking School Bus programs at a minimum of three (3) new schools in collaboration with Washoe County Safe Routes to School.

By September 30, 2026, conduct at least one (1) public awareness campaign targeting both pedestrians and drivers.

By August 31, 2026, coordinate quarterly implementation meetings with at least five community partners, including local schools, transportation agencies, and safety coalitions.

SELF SUSTAINABLE:

Sustainability Strategy

To support long-term impact beyond the grant period, NNPH will:

- Develop a self-paced implementation guide to help schools independently adopt key components of the safe mobility program.
- Integrate core program elements into NNPH's Chronic Disease and Injury Prevention Program, as staffing and resources allow.
- Collaborate with community partners to identify which components can be sustained and integrated into existing efforts and school-based health and safety programming.

ACTIVITIES:

Develop culturally relevant Safe Mobility Education Curriculum
Deliver education sessions at schools and community events
Collaborate with Safe Routes to School to identify schools
Identify high-need schools based on walkability and safety data
Recruit and train student and adult Walking School Bus (WSB) leaders
Promote program through school events, newsletters, and PTA outreach
Partner with schools and community groups to disseminate materials
Align outreach with safety observances (e.g., Walk to School Day)
Host quarterly partner meetings to review progress and share strategies
Share educational materials and explore shared implementation
Gather and integrate partner feedback into program delivery
“The subrecipient is encouraged to identify within its geographic service area any populations that may be underserved due to ability to pay, ability to access project services, language barriers or other considerations and to engage with and consider adaption of programming to meet these needs.”
“An agency representative will attend quarterly SHSP Task Force Meetings”
“A trip report will be submitted as a claim backup document describing the education received and how this information will be utilized to improve the grant project”.
“Any printed materials such as flyers, brochures, etc., will be submitted to the OTS prior to printing for approval. Television and radio spots copy will be submitted to OTS for pre-approval.”

OTHER REQUIRED ACTIVITIES:

All sub-recipients are required to:

1. Hold a press conference or submit press release to local newspaper(s) detailing the program, funding source, goals and objectives and the probable outcome, within 30 days of receipt of Authorization to Proceed (ATP).
2. Track, account for and report all in-kind contributions pertaining to this project. Vehicle operation and maintenance, in addition to officer and supervisor salaries/benefits when not in a grant overtime mode, are examples of in-kind contributions.
3. Submit monthly progress reports detailing the status of each objective and activity by the 15th of the following month, as well as final *Annual* report summarizing the project's accomplishments/shortcomings within 30 days of end of grant. **Progress reports should include** copies of any reports, documents, press releases, and print media coverage related to the grant project.
4. Claims for reimbursement must be submitted monthly for any expenses incurred and paid during that time period. If expenses are for personnel, a Payroll Certification Report must also be completed and submitted.

All law enforcement agencies are required to also:

1. Report motor vehicle fatality data to Nevada's Fatality Analysis Reporting System (FARS) analyst at the Nevada Office of Traffic Safety, 107 Jacobsen Way, Carson City NV 89711, fax: 775-684-7486 or fars@dps.state.nv.us
 - The data gathered by the States to perform FARS analysis is also used by the States when applying for federal highway incentive grants.
 - FARS data is the only census data of all fatal traffic crashes in the U.S. and it is used for many performance measure goals accepted by the States, NHTSA and Federal Highway Administration (FHWA).

NHTSA places the following requirements on the State Office of Traffic Safety to:

- Provide for the collection of specific data on all reportable traffic fatalities that occur within each jurisdiction (the fifty states plus the District of Columbia, and Puerto Rico);
 - Report basic information on every motor vehicle crash with reportable fatalities within specified time frames;
 - Report all required information on each such crash within a specified time frame and;
 - Encourage the use of the FARS data by members of the traffic and motor vehicle safety community as an important resource for decision making and policy development.
 - To ensure data currency, OTS must report basic information on each crash/fatality within two weeks of the crash/fatality; and to report on basic information on each crash/fatality during a holiday period within one day of the end of that holiday period. All data must be entered using the FARS microcomputer data entry (MDE) system within 90 days following the crash/fatality.
2. Send motor vehicle crash reports per NRS 484E.110, et seq., electronically or manually to the Department of Public Safety/NCATS database, within 10 days after the investigation of the crash and as otherwise required by state law.

EVALUATION:

The evaluation of this project will focus on both implementation fidelity (process) and program effectiveness (outcomes). Northern Nevada Public Health (NNPH) will use a combination of quantitative and qualitative methods to assess progress toward stated objectives and inform continuous quality improvement throughout the grant cycle. Process evaluation will track the number, frequency, and reach of safe mobility education sessions, including participant demographics and engagement levels. This will ensure the project is being implemented as planned and reaching the intended underserved populations. Attendance logs, facilitator notes, and feedback forms will be collected at each session.

Outcome evaluation will focus on changes in knowledge and awareness related to pedestrian, bicycle, and traffic safety practices. Pre- and post-surveys will be administered to participants to measure changes in understanding. The target outcome is that at least 65% of participants will demonstrate increased knowledge based on survey responses. Evaluation activities will be conducted internally by NNPH's Health Educator Coordinator and Health Educator, who both have formal training in public health and prior experience managing program evaluation for state and federally funded grants. They will be supported in-kind by NNPH's statisticians, who provide technical expertise in data analysis and reporting, and will consult with community partners to ensure cultural relevance and equitable interpretation of results.

Findings will be reviewed quarterly by the project team and key stakeholders and used to adjust program delivery as needed. Results will be compiled into grant reports and shared with funding partners. Please refer to the attached Evaluation Plan for detailed metrics, timelines, and instruments.

"The final progress report will include an overall evaluation of the project, achievements, barriers, cumulative statistics, community engagement activities and feedback received, and if applicable a final inventory list of equipment purchased."

BASELINE DATA:

Baseline data will be collected at the start of each program component to establish benchmarks for measuring progress and impact. For example, pre-surveys will assess participants' knowledge of pedestrian, bicycle and traffic safety before educational sessions begin, while school-level participation counts will be used to establish baseline figures for Walking School Bus (WSB) programs. Social media reach and awareness metrics will be collected prior to launching media campaigns to provide a foundation for comparison.

Data will be collected consistently throughout the project and documented using standardized tools, such as attendance logs, pre/post surveys, training records, and partner engagement tracking forms. All data will be entered into a secure system and analyzed on a quarterly basis to monitor implementation progress, identify trends, and inform mid-course adjustments as needed.

Key baseline indicators will include:

- Number of participants with baseline knowledge of pedestrian, bicycle and traffic safety
- Number of schools without active WSB programs at program start
- Analytics of community engagement with safety campaigns (e.g., online impressions, event attendance)
- Number and type of existing partnerships involved in safe mobility initiatives

COORDINATING OTHER AGENCIES:

NNPH will collaborate with various local partners to enhance project impact through shared expertise, resources, and alignment of goals. This coordinated approach ensures efficiency, prevents duplication of efforts, and supports a more cohesive community response.

Key partners and their roles include:

- Safe Routes to School (SRTS): A core collaborator and partner in implementing and expanding the Walking School Bus program. SRTS will assist with outreach, logistics, and promotion, drawing from their experience in promoting safe student travel.

- Local Non-Profit Organizations:

- o Kiwanis: Will support youth engagement and volunteer coordination.

- o Truckee Meadows Bicycle Alliance: Will assist in promoting safe cycling education and events.

- o Reno Bike Project: Will provide resources such as bike repair support, helmets, and guidance on safe riding practices.

Additional partnerships may be explored as the project progresses to strengthen community ties and sustainability.

“No person in the United States shall, on the grounds of race, color, or national origin, be excluded from participation in, be denied the benefits of, or be otherwise subjected to discrimination under any program or activity, for which the Recipient receives Federal financial assistance from DOT, including NHTSA.”

The Civil Rights Restoration Act of 1987 clarified the original intent of Congress, with respect to Title VI of the Civil Rights Act of 1964 and other non-discrimination requirements (the Age Discrimination Act of 1975, and Section 504 of the Rehabilitation Act of 1973), by restoring the broad, institutional-wide scope and coverage of these nondiscrimination statutes and requirements to include all programs and activities of the Recipient, so long as any portion of the program is Federally assisted.

Specific Assurances

More specifically, and without limiting the above general Assurance, the Recipient agrees with and gives the following Assurances with respect to its Federally assisted Highway Safety Grant Program:

1. The Recipient agrees that each “activity,” “facility,” or “program,” as defined in § 21.23(b) and (e) of 49 CFR part 21 will be (with regard to an “activity”) facilitated, or will be (with regard to a “facility”) operated, or will be (with regard to a “program”) conducted in compliance with all requirements imposed by, or pursuant to the Acts and the Regulations.

2. The Recipient will insert the following notification in all solicitations for bids, Requests For Proposals for work, or material subject to the Acts and the Regulations made in connection with all Highway Safety Grant Programs and, in adapted form, in all proposals for negotiated agreements regardless of funding source:

“The Northern Nevada Public Health, in accordance with the provisions of Title VI of the Civil Rights Act of 1964 (78 Stat. 252, 42 U.S.C 2000d to 2000d–4) and the Regulations, hereby notifies all bidders that it will affirmatively ensure that in any contract entered into pursuant to this advertisement, disadvantaged business enterprises will be afforded full and fair opportunity to submit bids in response to this invitation and will not be discriminated against on the grounds of race, color, or national origin in consideration for an award.”

3. The Recipient will insert the clauses of appendix A and E of this Assurance (also referred to as DOT Order 1050.2A) [1] in every contract or agreement subject to the Acts and the Regulations.

4. The Recipient will insert the clauses of appendix B of DOT Order 1050.2A, as a covenant running with the land, in any deed from the United States effecting or recording a transfer of real property, structures, use, or improvements thereon or interest therein to a Recipient.

5. That where the Recipient receives Federal financial assistance to construct a facility, or part of a facility, the Assurance will extend to the entire facility and facilities operated in connection therewith.

6. That where the Recipient receives Federal financial assistance in the form of, or for the acquisition of, real property or an interest in real property, the Assurance will extend to rights to space on, over, or under such property.

7. That the Recipient will include the clauses set forth in appendix C and appendix D of this DOT Order 1050.2A, as a covenant running with the land, in any future deeds, leases, licenses, permits, or similar instruments entered into by the Recipient with other parties:

a. for the subsequent transfer of real property acquired or improved under the applicable activity, project, or program; and

b. for the construction or use of, or access to, space on, over, or under real property acquired or improved under the applicable activity, project, or program.

8. That this Assurance obligates the Recipient for the period during which Federal financial assistance is extended to the program, except where the Federal financial assistance is to provide, or is in the form of, personal property, or real property, or interest therein, or structures or improvements thereon, in which case the Assurance obligates the Recipient, or any transferee for the longer of the following periods:

a. the period during which the property is used for a purpose for which the Federal financial assistance is extended, or for another purpose involving the provision of similar services or benefits; or

b. the period during which the Recipient retains ownership or possession of the property.

9. The Recipient will provide for such methods of administration for the program as are found by the Secretary of Transportation or the official to whom he/she delegates specific authority to give reasonable guarantee that it, other

recipients, sub-recipients, sub-grantees, contractors, subcontractors, consultants, transferees, successors in interest, and other participants of Federal financial assistance under such program will comply with all requirements imposed or pursuant to the Acts, the Regulations, and this Assurance.

10. The Recipient agrees that the United States has a right to seek judicial enforcement with regard to any matter arising under the Acts, the Regulations, and this Assurance.

By signing this ASSURANCE, the State highway safety agency also agrees to comply (and require any sub-recipients, sub-grantees, contractors, successors, transferees, and/or assignees to comply) with all applicable provisions governing NHTSA's access to records, accounts, documents, information, facilities, and staff. You also recognize that you must comply with any program or compliance reviews, and/or complaint investigations conducted by NHTSA. You must keep records, reports, and submit the material for review upon request to NHTSA, or its designee in a timely, complete, and accurate way. Additionally, you must comply with all other reporting, data collection, and evaluation requirements, as prescribed by law or detailed in program guidance.

The State highway safety agency gives this ASSURANCE in consideration of and for obtaining any Federal grants, loans, contracts, agreements, property, and/or discounts, or other Federal-aid and Federal financial assistance extended after the date hereof to the recipients by the U.S. Department of Transportation under the Highway Safety Grant Program. This ASSURANCE is binding on the State highway safety agency, other recipients, sub-recipients, sub-grantees, contractors, subcontractors and their subcontractors', transferees, successors in interest, and any other participants in the Highway Safety Grant Program. The person(s) signing below is/are authorized to sign this ASSURANCE on behalf of the Recipient.

Political Activity (Hatch Act) (Applies to Subrecipients as Well as States)

The State will comply with provisions of the Hatch Act (5 U.S.C. 1501–1508), which limits the political activities of employees whose principal employment activities are funded in whole or in part with Federal funds.

Certification Regarding Federal Lobbying (Applies to Subrecipients as Well as States)

Certification for Contracts, Grants, Loans, and Cooperative Agreements

The undersigned certifies, to the best of his or her knowledge and belief, that:

1. No Federal appropriated funds have been paid or will be paid, by or on behalf of the undersigned, to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with the awarding of any Federal contract, the making of any Federal grant, the making of any Federal loan, the entering into of any cooperative agreement, and the extension, continuation, renewal, amendment, or modification of any Federal contract, grant, loan, or cooperative agreement;
2. If any funds other than Federal appropriated funds have been paid or will be paid to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with this Federal contract, grant, loan, or cooperative agreement, the undersigned shall complete and submit Standard Form-LLL, "Disclosure Form to Report Lobbying," in accordance with its instructions;
3. The undersigned shall require that the language of this certification be included in the award documents for all sub-awards at all tiers (including subcontracts, subgrants, and contracts under grant, loans, and cooperative agreements) and that all subrecipients shall certify and disclose accordingly.

This certification is a material representation of fact upon which reliance was placed when this transaction was made or entered into. Submission of this certification is a prerequisite for making or entering into this transaction imposed by section 1352, title 31, U.S. Code. Any person who fails to file the required certification shall be subject to a civil penalty of not less than \$10,000 and not more than \$100,000 for each such failure.

Restriction on State Lobbying (Applies to Subrecipients as Well as States)

None of the funds under this program will be used for any activity specifically designed to urge or influence a State or local legislator to favor or oppose the adoption of any specific legislative proposal pending before any State or local legislative body. Such activities include both direct and indirect (e.g., "grassroots") lobbying activities, with one exception. This does not preclude a State official whose salary is supported with NHTSA funds from engaging in direct communications with State or local legislative officials, in accordance with customary State practice, even if such communications urge legislative officials to favor or oppose the adoption of a specific pending legislative proposal.

Certification Regarding Debarment and Suspension (Applies to Subrecipients as Well as States)

Instructions for Primary Tier Participant Certification (States)

1. By signing and submitting this proposal, the prospective primary tier participant is providing the certification set out below and agrees to comply with the requirements of 2 CFR parts 180 and 1200.
2. The inability of a person to provide the certification required below will not necessarily result in denial of participation in this covered transaction. The prospective primary tier participant shall submit an explanation of why it cannot provide the certification set out below. The certification or explanation will be considered in connection with the department or agency's determination whether to enter into this transaction. However, failure of the prospective primary tier participant to furnish a certification or an explanation shall disqualify such person from participation in this transaction.
3. The certification in this clause is a material representation of fact upon which reliance was placed when the department or agency determined to enter into this transaction. If it is later determined that the prospective primary tier participant knowingly rendered an erroneous certification, in addition to other remedies available to the Federal Government, the department or agency may terminate this transaction for cause or default or may pursue suspension or debarment.
4. The prospective primary tier participant shall provide immediate written notice to the department or agency to which this proposal is submitted if at any time the prospective primary tier participant learns its certification was erroneous when submitted or has become erroneous by reason of changed circumstances.
5. The terms covered transaction, civil judgment, debarment, suspension, ineligible, participant, person, principal, and voluntarily excluded, as used in this clause, are defined in 2 CFR parts 180 and 1200. You may contact the department or agency to which this proposal is being submitted for assistance in obtaining a copy of those regulations.
6. The prospective primary tier participant agrees by submitting this proposal that, should the proposed covered transaction be entered into, it shall not knowingly enter into any lower tier covered transaction with a person who is proposed for debarment under 48 CFR part 9, subpart 9.4, debarred, suspended, declared ineligible, or voluntarily excluded from participation in this covered transaction, unless authorized by the department or agency entering into this transaction.
7. The prospective primary tier participant further agrees by submitting this proposal that it will include the clause titled "Instructions for Lower Tier Participant Certification" including the "Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion—Lower Tier Covered Transaction," provided by the department or agency entering into this covered transaction, without modification, in all lower tier covered transactions and in all solicitations for lower tier covered transactions and will require lower tier participants to comply with 2 CFR parts 180 and 1200.
8. A participant in a covered transaction may rely upon a certification of a prospective participant in a lower tier covered transaction that it is not proposed for debarment under 48 CFR part 9, subpart 9.4, debarred, suspended, ineligible, or voluntarily excluded from the covered transaction, unless it knows that the certification is erroneous. A participant is responsible for ensuring that its principals are not suspended, debarred, or otherwise ineligible to participate in covered transactions. To verify the eligibility of its principals, as well as the eligibility of any prospective lower tier participants, each participant may, but is not required to, check the System for Award Management Exclusions website (<https://www.sam.gov/>).
9. Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render in good faith the certification required by this clause. The knowledge and information of a participant is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.
10. Except for transactions authorized under paragraph 6 of these instructions, if a participant in a covered transaction knowingly enters into a lower tier covered transaction with a person who is proposed for debarment under 48 CFR part 9, subpart 9.4, suspended, debarred, ineligible, or voluntarily excluded from participation in this transaction, in addition to other remedies available to the Federal Government, the department or agency may terminate the transaction for cause or default.

Buy America (Applies to Subrecipients as Well as States)
