Executive Summary

Status of Our Audit

► We have substantially completed our audit of the financial statements as of and for the year ended June 30, 2022. Our audit was conducted in accordance with auditing standards generally accepted in the United States of America. This audit of the financial statements does not relieve management or those charged with governance of their responsibilities.

- The objective of our audit was to obtain reasonable - not absolute - assurance about whether the financial statements are free from material misstatements.
- The scope of the work performed was substantially the same as that described to you in our earlier Audit Planning communications.
- We expect to issue an unmodified opinion on the financial statements and release our report on December 7, 2022.
- We expect to issue an unmodified opinion on the County's Single Audit report, including the Schedule of Expenditures of Federal Awards (SEFA) on December 7, 2022.
- In planning and performing our audit of the SEFA, we considered the County's internal control over compliance with requirements that could have a direct and material effect on its major federal programs to determine our auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with GAS and Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance), but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance.
- Our responsibility for other information in documents containing the County's audited financial statements does not extend beyond the financial information identified in the audit report, and we are not required to perform procedures to corroborate such other information. However, in accordance with professional standards, we have read the information included by County and considered whether such information, or the manner of its presentation, was materially inconsistent with its presentation in the financial statements. Our responsibility also includes calling to management's attention any information that we believe is a material misstatement of fact. We have not identified any material inconsistencies or concluded there are any material misstatements of facts in the other information that management has chosen not to correct.
- All records and information requested by BDO were freely available for our inspection.
- Management's cooperation was excellent. We received full access to all information that we requested while performing our audit, and we acknowledge the full cooperation extended to us by all levels of County's personnel throughout the course of our work.

Internal Control Over Financial Reporting

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the County’s internal control over financial reporting (internal control) as a basis for designing our auditing procedures for the purpose of expressing our opinion(s) on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the County’s internal control. Accordingly, we do not express an opinion on the effectiveness of the County’s internal control.

Our consideration of internal control was for the limited purpose described above and was not designed to identify all deficiencies in internal control that might be significant deficiencies or material weaknesses.

We are required to communicate, in writing, to those charged with governance all material weaknesses and significant deficiencies that have been identified in the County’s internal control over financial reporting. The definitions of control deficiency, significant deficiency and material weakness follow:

Category	Definition
Control Deficiency	A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis.
Significant Deficiency	A deficiency or combination of deficiencies in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.
Material Weakness	A deficiency or combination of deficiencies in internal control, such that there is a reasonable possibility that a material misstatement of the County’s financial statements will not be prevented, or detected and corrected on a timely basis.

Internal Control Over Financial Reporting

► The following significant deficiency was identified:

Significant Deficiency	Comments
Internal Control over Compliance for Emergency Rental Assistance, CFDA 21.023	<p>The OMB Compliance Supplement requires that non-federal entities receiving federal awards establish and maintain internal controls designed to reasonably ensure compliance with federal laws, regulations, and program compliance requirements;</p> <p>The Office of the County Manager did not have adequate internal controls to monitor the sub-recipient.</p>

► We have communicated to management of the County certain control deficiencies that were identified as a result of our audit that we did not consider to be material weaknesses or significant deficiencies.
