AGENDA ITEM # _____

SUMMARY

This is an introduction and first reading of an ordinance amending Washoe County Code (WCC) Chapter 65 (Safety and Disaster Services). This proposed ordinance is being requested by the County Security Administrator, as chair of the County Safety Committee, primarily to update Washoe County Code provisions related to safety, particularly the county's safety program, the safety committee, and reporting requirements and procedures in the event a county officer, employee or volunteer experiences a work-related injury or illness. The proposed ordinance also updates the settlement authority to resolve claims or suits for damages for the risk management division, county manager and board of county commissioners. Finally, WCC Chapter 65 requires revisions in order to reflect the county's current organizational structure and current management structure, i.e. the replacement of the former Risk Manager with the risk management division under the supervision of the comptroller department. With these updates, it is anticipated that future code changes will be less likely in the event of another structural re-organization of county offices and officials.
