BACKGROUND

Best Friends Animal Society recently reached out to Regional Animal Services offering grant funds to support our community-based microchip scanning stations. This program provides the opportunity for citizens who find a stray animal to bring the animal to a designated location with a scanning station to check for a microchip without having to bring the animal to the shelter or request an officer pick up the animal.

Currently, there are 9 scanning station locations around Washoe County, including all Pet Station stores and Options Veterinary Care.
